Refuse to Be Done: How to Write and Rewrite a Novel in Three Drafts Matt Bell, 2022-03-08 They say writing is rewriting. So why does the second part get such short shrift? *Refuse To Be Done* will guide you through every step of the novel writing process, from getting started on those first pages to the last tips for making your final draft even tighter and stronger. From lauded writer and teacher Matt Bell, *Refuse to Be Done* is encouraging and intensely practical, focusing always on specific rewriting tasks, techniques, and activities for every stage of the process. You won't find bromides here about the "the writing Muse." Instead, Bell breaks down the writing process in three sections. In the first, Bell shares a bounty of tactics, all meant to push you through the initial conception and get words on the page. The second focuses on reworking the narrative through outlining, modeling, and rewriting. The third and final section offers a layered approach to polishing through a checklist of operations, breaking the daunting project of final revisions into many small, achievable tasks. Whether you are a first time novelist or a veteran writer, you will find an abundance of strategies here to help motivate you and shake up your revision process, allowing you to approach your work, day after day and month after month, with fresh eyes and sharp new tools.

To War with the Walkers Annabel Venning, 2020-03-31 **DAILY MAIL BOOKS OF THE YEAR 2019** **SUNDAY TELEGRAPH CHRISTMAS BOOKS OF THE YEAR 2019** 'So blissfully good that I'd give it to a reader of any age . . . deeply touching, unforgettable family memoir' ALLISON PEARSON, SUNDAY TELEGRAPH 'Uplifting and enlightening . . . Venning has a good eye for what makes the Walker story both unique and universal . . . Thrilling' MAIL ON SUNDAY 'Superb . . . With its sweeping narrative, readable style, sense of humanity and breadth of research, the saga casts a highly personal light on some of the most significant episodes of [the Second World War]' DAILY EXPRESS 'A heart-pounding narrative that feels fresh . . . this marvellous book also depicts a world that was soon to vanish' DAILY MAIL 'A moving book . . . This account of one family's experience takes us to hidden crannies of the war that more official accounts might not bother with . . . Once read, never forgotten' THE TIMES 'A sensationally good book . . . I see reflections of my own family, and beyond them, like those mirrors tilted slightly into infinity, I can see literally miles of others lined up, inexorably linked forever by a shared experience . . . this is an exceptional book and should be required reading in modern history classes' JOANNA LUMLEY 'An extraordinary, compelling picture of a family entwined in the Second World War . . . at turns funny, sad, redemptive and tragic. Fabulous' JAMES HOLLAND 'A loving tribute . . . Brimming with anecdote and rich in fascinating detail' KEGGIE CAREW ~ How would it feel if all your sons and daughters were caught up in war? What would it be like to spend six years fearing what a telegram might bring? That was the heart-wrenching reality faced by so many families throughout the Second World War, including the parents of the Walker children. From the Blitz to the battlefields of Europe and the Far East, this is the remarkable story of four brothers and two sisters who were swept along by the momentous events of the war. Harold was a surgeon in a London hospital alongside his sister Ruth, a nurse, when the bombs began to fall in 1940. Peter was captured in the fall of Singapore. Edward fought the Germans in Italy, and Walter the Japanese in Burma, while in London, glamorous Bee hoped for lasting happiness with an American airman. In *To War With the Walkers*, Annabel Venning, Walter's granddaughter, tells the enthralling and moving tales of her relatives, six ordinary young men and women, who each faced an extraordinary struggle for survival.

The Tale of Tea George L. van Driem, 2020-12-11 The Tale of Tea is the saga of globalisation. Tea gave birth to paper money, the Opium Wars and Hong Kong, triggered the Anglo-Dutch wars and the American war of independence, shaped the economies and military history of Táng and Sòng China and moulded Chinese art and culture. Whilst black tea dominates the global market today, such tea is a recent invention. No tea plantations existed in the world's largest black tea producing countries, India, Kenya and Sri Lanka, when the Dutch and the English went to war about tea in the 17th century. This book replaces popular myths about tea with recondite knowledge on the hidden origins and detailed history of today's globalised beverage in its many modern guises.

Music for the American People Jonathan Stern, 2019 For many New Yorkers of a certain age, mention of Lewisohn Stadium conjures fond memories of concerts of beautiful music performed on warm summer evenings outdoors. Music for the American People brings back those memories while introducing them to those who are either too young to remember or born years after the Stadium's razing in 1973.

Ferraris for All Daniel Ben-Ami, 2010 The growth of the economy and the spread of prosperity are increasingly seen as problematic rather than positive--a trend Daniel Ben-Ami has termed growth skepticism. Prosperity is accused of encouraging greed, damaging the environment, causing unhappiness, and widening social inequalities. *Ferraris for All* is a rejoinder to the growth skeptics. Using examples from a range of countries, including the US, the author argues that society as a whole benefits from greater affluence. Action is needed--but to increase abundance and spread it worldwide, not to limit prosperity, as the skeptics would have it. The lively and provocative hardback edition was published to widespread coverage in 2010, and triggered debate and dissent in equal measure. This much-anticipated paperback edition includes a vigorous response from the author to the spirited discussion provoked by its controversial arguments.

Factory 19 Dennis Glover, 2020-11-03 We're told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.' –Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' –Rohan Wilson

The Oromo of Ethiopia Mohammed Hassen, 1990 A history of the Oromo peoples of Ethiopia; their culture, religion and political institutions.

Following the Drum Annabel Venning, 2006 For centuries army wives and daughters have gone to some of the most treacherous places in the world, following their men to the cholera-ridden valleys of the Crimea, the sweltering plains of India and the inhospitable Burmese jungles. Drawing on letters, journals and interviews, *Following the Drum* vividly brings to life their amazing stories and tells of the daily tribulations of barrack life, the romances and scandals, the hostile natives and devoted servants as well as the personal tragedies, hopes and ambitions of these brave and resourceful women.

Space and the Architect Herman Hertzberger, 2010 The work of Herman Hertzberger is the subject of wide international esteem. 1991 first saw publication of Hertzberger's *Lessons for Students in Architecture*, an elaborated version of lectures he had given since 1973 at Delft University of Technology. This immensely successful book has gone through many reprints and has also been published in Japanese, German, Italian, Portuguese, Taiwanese, Dutch, Greek, Polish, Iranian, Korean and Chinese. *Space and the Architect* is the second book written by Hertzberger. It charts the backgrounds to his work of recent years and the ideas informing it, drawing on a wide spectrum of subjects and designs by artists, precursors, past masters and colleagues, though with his own work persistently present as a reference. Space is its principal theme, physical space but also the mental or intellectual regions the architect calls upon during the process of designing. Once again Hertzberger's broad practical experience, his ideas and his seemingly inexhaustible 'library' of images are a major source of inspiration for anyone whose concern is the design of space.

What Should Schools Teach? Alka Sehgal Cuthbert , Alex Standis, 2021-01-07 The design of school curriculums involves deep thought about the nature of knowledge and its value to learners and society. It is a serious responsibility that raises a number of questions. What is knowledge for? What knowledge is important for children to learn? How do we decide what knowledge matters in each school subject? And how far should the knowledge we teach in school be related to academic disciplinary knowledge? These and many other questions are taken up in *What Should Schools Teach?* The blurring of distinctions between pedagogy and curriculum, and between experience and knowledge, has served up a confusing message for teachers about the part that each plays in the education of children. Schools teach through subjects, but there is little consensus about what constitutes a subject and what they are for. This book aims to dispel confusion through a robust rationale for what schools should teach that offers key understanding to teachers of the relationship between knowledge (what to teach) and their own pedagogy (how to teach), and how both need to be informed by values of intellectual freedom and autonomy. This second edition includes new chapters on Chemistry, Drama, Music and Religious Education, and an updated chapter on Biology. A revised introduction reflects on emerging discourse around decolonizing the curriculum, and on the relationship between the knowledge that children encounter at school and in their homes.

The Moral Case for Abortion Ann Furedi, 2016-07-27 This thought-provoking book sets out the ethical arguments for a woman's right to choose. Drawing on the traditions of sociological thinking and moral philosophy, it maintains that there is a strong moral case for recognizing autonomy in personal decision-making about reproductive intentions. More than this, it argues that to prevent a woman from making her own choice to continue or end her pregnancy is to undermine the essence of her humanity. The author, a provider of abortion services in the UK, asserts that true respect for human life and true regard for individual conscience demand that we respect a woman's right to decide, and that support for a woman's right to a termination has moral foundations and ethical integrity. This fresh perspective on abortion will interest both pro- and anti-choice individuals and organizations, along with academics in the fields of gender studies, philosophy, ethics and religion.
