**Keno Winner** Tom Collins,2004-04 Tom Collins known as The King of Video Keno has authored a quick and easy guide to winning at Video Keno. Tom, a 15 year author of technical and how-to manuals, has written an easy to understand guide that is short and to the point. This is a one of a kind source of knowledge you should read before you drop one more coin into a Video Keno machine. Keno Winner: A Guide to Winning at Video Keno covers essential winning topics such as: § Identifying trends and groups of numbers to help you win more often. § Using the seven number payoff to identify high pay machines and avoid low pay machines. § Avoiding Video Keno machines that are scattering numbers; making you a sure loser. § Taking advantage of Vertical or Horizontal Blocking video Keno machines, dramatically increasing your chances of winning. Keno Winner: A Guide to Winning at Video Keno is an easy to read guide that will show you how to become a winner of some of the largest jackpots the casino has to offer.

**Basics of Winning Keno** J Edward Allen, You can play keno anywhere in the casino, even at the dinner table. Fifteen chapters outline what you need to know about the house odds, the history of keno, the best playing strategies and even the taxes on keno winnings. You'll learn how to make all the bets including straight, split, way, combination, king and special tickets, and how best to use them in a coordinated winning strategy. More than a dozen illustrations and seven charts clearly illustrate the bets, payoffs, and strategies, plus a full glossary is included. 64 pages

**The Little Black Book of Casino Games** John Hartley, Belly up to the gaming table with your personal ace in the hole! You've hit the jackpot with this ultimate quick gambling reference. The Little Black Book of Casino Games: The Smart Player's Guide to Gambling boosts your odds of winning by giving you the skinny on house advantage and game protocol for a wealth of casino games, including Baccarat, Blackjack, Craps, Keno, Poker, Roulette, and much more!

**3-Card Casino Poker: Tactics and Strategies for Success** John F. Bevilaqua,2019-02-20 Three Card Poker brings together the strategy of poker with the excitement of jackpot style bonuses. In this game each player plays only against the Dealer (just like in Black Jack) and not against the other Players which adds a special allure to the game for those who do not choose to go head to head against other players on regular poker tables. The game is also played with a single deck which can be used to your advantage as described later in this document. In Three Card Poker, a multi-hand variation of poker, you can play up to either 2 or 3 different hands simultaneously against the dealer's hand. The number of hands you can bet on during a single session varies by casino. For instance, at the time of publication Foxwoods and Mohegan Sun in Connecticut allowed 3 simultaneous hands per player but Twin River only allows 2 simultaneous hands per player. If you beat the dealer's hand straight-up you will win both the Ante Bet and the Play Bet. You will also receive an extra payoff on the Play Pair Plus amount where you must get a Pair of any kind or a better premium hand like a Straight, Flush, 3-of-a-Kind or Straight Flush to win an additional amount. If you have a premium 6 Card hand (combining your 3 cards with the Dealer's 3 cards into a 5 card Bonus hand) you will win an additional amount if the casino offers that option based on the 6 Card Hand payout amounts which also vary by casino. Our advanced strategy recommends that you play 2 different hands per shuffle with 3 bets each, in order to be able to offset one poor hand with a possibly higher hand. This might appear to produce a net detrimental or negative effect but when combined with increasing your wagers by 50%, only once, after a total loss in the previous hand, at your sole option and risk, it appears to produce a desirable diversification effect over the long term based on our personal experiences. You potentially Win At 3 Card Poker on as many of 4 of the betting spots if and only if the following conditions are true. There are 3 or 4 ways to win in Three Card Poker. By the same token there are also 3 or 4 ways to lose at Three Card Poker:1)Beat the dealer's qualifying hand or observe a non-Qualifying hand in the Dealer's Hand and win an even money payout on your Ante wager2)Beat the dealer's qualifying hand and win an even money payout on your Play wager without any commissions charged like in Baccarat.3)Receive a bonus when your hand qualifies for one of the Ante bonuses (Red Diamond) or the Pair Plus Bonuses (Yellow Circle) 4)Receive a bonus when 5 of the best cards in your hand plus the dealer's hand qualifies for one of the 6-card bonus (White Circle)hand rankings.5)Of course you will lose all 4 of your bets if you do not have a Pair or better or a another Bonus hand and your hand is lower than the Dealer's Hand. *Mathematics of Keno and Lotteries* Mark Bollman,2018-04-17 Mathematics of Keno and Lotteries is an elementary treatment of the mathematics, primarily probability and simple combinatorics, involved in lotteries and keno. Keno has a long history as a high-advantage, high-payoff casino game, and state lottery games such as Powerball are mathematically similar. MKL also considers such lottery games as passive tickets, daily number drawings, and specialized games offered around the world. In addition, there is a section on financial mathematics that explains the connection between lump-sum lottery prizes (as with Powerball) and their multi-year annuity options. So-called winning systems for keno and lotteries are examined mathematically and their flaws identified.
