**Four Pillars of Destiny** Jerry King,2011-04-28 Why do we attract the same types of people over and over again? Why is it so easy for certain people to find love, and so difficult for others? *The Four Pillars of Destiny: A Guide to Relationships* answers the age-old questions surrounding relationships, attractions, and true love. By referencing the year, month, day, and hour of a person's birth, the ancient Chinese method of Four Pillars will systematically map the blueprint for his or her life in matters of health, wealth, career, love, and happiness. For countless generations, the Chinese have been drawn to the Four Pillars system for its accurate method of divination. This system has allowed practitioners the ability to analyze many aspects of a person's life and enlightened the path to capitalizing their cosmic flow when good luck happens. The destiny blueprint each of us receives at birth can be used to reveal options and paths that we can act upon during good and bad times in life. Using this blueprint, we can evaluate where our limits lie and understand what we truly are capable of achieving, as well as the type of connections that we can make with those around us.

**Feng Shui: Teaching About Science and Pseudoscience** Michael R. Matthews,2019-07-18 This book provides a richly documented account of the historical, cultural, philosophical and practical dimensions of feng shui. It argues that where feng shui is entrenched educational systems have a responsibility to examine its claims, and that this examination provides opportunities for students to better learn about the key features of the nature of science, the demarcation of science and non-science, the characteristics of pseudoscience, and the engagement of science with culture and worldviews. The arguments presented for feng shui being a pseudoscience can be marshalled when considering a whole range of comparable beliefs and the educational benefit of their appraisal. Feng shui is a deeply-entrenched, three-millennia-old system of Asian beliefs and practices about nature, architecture, health, and divination that has garnered a growing presence outside of Asia. It is part of a comprehensive and ancient worldview built around belief in chi (qi) the putative universal energy or life-force that animates all existence, the cosmos, the solar system, the earth, and human bodies. Harmonious living requires building in accord with local chi streams; good health requires replenishment and manipulation of internal chi flow; and a beneficent afterlife is enhanced when buried in conformity with chi directions. Traditional Chinese Medicine is based on the proper manipulation of internal chi by acupuncture, tai-chi and qigong exercise, and herbal dietary supplements. Matthews has produced another tour de force that will repay close study by students, scientists, and all those concerned to understand science, culture, and the science/culture nexus. Harvey Siegel, Philosophy, University of Miami, USA With great erudition and even greater fluidity of style, Matthews introduces us to this now-world-wide belief system. Michael Ruse, Philosophy, Florida State University, USA The book is one of the best research works published on Feng Shui. Wang Youjun, Philosophy, Shanghai Normal University, China The history is fascinating. The analysis makes an important contribution to science literature. James Alcock, Psychology, York University, Canada This book provides an in-depth study of Feng Shui in different periods, considering its philosophical, historical and educational dimensions; especially from a perspective of the 'demarcation problem' between science and pseudoscience. Yao Dazhi, Chinese Academy of Sciences, China

Judaism Is About Love Shai Held,2024-03-26 A profound, startling new understanding of Jewish life, illuminating the forgotten heart of Jewish theology and practice:

love. A dramatic misinterpretation of the Jewish tradition has shaped the history of the West: Christianity is the religion of love, and Judaism the religion of law. In the face of centuries of this widespread misrepresentation, Rabbi Shai Held—one of the most important Jewish thinkers in America today—recovers the heart of the Jewish tradition, offering the radical and moving argument that love belongs as much to Judaism as it does to Christianity. Blending intellectual rigor, a respect for tradition and the practices of a living Judaism, and a commitment to the full equality of all people, Held seeks to reclaim Judaism as it authentically is. He shows that love is foundational and constitutive of true Jewish faith, animating the singular Jewish perspective on injustice and protest, grace, family life, responsibilities to our neighbors and even our enemies, and chosenness. Ambitious and revelatory, *Judaism Is About Love* illuminates the true essence of Judaism—an act of restoration from within.

**The 17th and 18th Centuries** Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

**The Visionary Brand** Bryan Smeltzer, 2022-02-08 The Visionary Brand In my new book, The Visionary Brand, I explore how brands become Visionary, and how they sustain this success for generations. Through both my direct experience with these brands, along with extensive research, I have been able to define the formula for realizing Visionary status. Although I have found no one brand is truly the ultimate Visionary, many are close, and you discover why these great brands are missing one or many ingredients to becoming truly Visionary. What makes a brand truly Visionary? Product, Innovation, Culture, Marketing? It is a harmonious blending of product, marketing, and passionate culture. Along with a visionary who establishes and commits themselves and the brand to ageless foundational principles. What formula has sustained iconic brands such as; Apple, Nike, Adidas, and allowed them to maintain their vision and brand ETHOS for generations? How does one brand lose its premium status, while others thrive from generation to generation? The Visionary Brand explores the core of these generational companies, and how they have evolved to become visionaries. This definitive guide to preserving authentic success through identifying, protecting, and nurturing the brand's core foundational principles will be a timeless leadership resource. Both professionally and personally, serving a purpose from start-up through established category leaders. Most brands at some point lose sight of their vision or have not established their brand core ETHOS. The Visionary Brand will revitalize those who are not yet evangelizing their brand's values and principles, along with guiding those who have yet to define their foundation. To succeed, you must understand who you are, what value you are providing, where you are positioning, and how to engage with your loyal community and brand team. From aspirational, real-life scenarios, to inspirational guidance, The Visionary Brand will provide ongoing support to successfully drive your brand forward. The Visionary Brand outlines the independent elements to emulating and successfully executing this foundational strategy. \* Define your vision and build a Foundational Principles platform. \* Stick to your vision while capturing global market share from your competitors. \* Create a continuous Pipeline of Innovation. \* Establish a Culture of Passionate followers. \* Engage, and build Loyalty. \* Embrace the changing tide of

the new age adoption curve. \* Be an Artist, be yourself, and instill the courage to accomplish your Vision. There may be Visionary brands, but no one company exists as The Visionary Brand, while some have most, none have all. I sincerely hope you enjoy the book and find its content useful in your Journey to becoming Visionary! Sincerely, Bryan Smeltzer, Author, The Visionary Brand

U.S.-Iran Misperceptions is the first written dialogue on the key issues that separate these two great countries. Bringing together former policy makers and international relations experts from the United States and Iran, U.S.-Iran Misperceptions: A Dialogue provides new insights into and arguments about how each country's elites view the other, and how misperceptions have blocked the two from forging a normal and productive relationship. Guided by the leading theorist of misperceptions in international relations, Columbia University Professor Robert Jervis, the book moves from Jervis's opening essay to consider mutual perceptions of ideology, nuclear weapons, neo-imperialism, regional hegemony, and the future of the relationship. It presents authoritative, clear-eyed assessments, while seeking plausible ways the two countries can avoid a catastrophic war and rebuild the relationship. U.S.-Iran Misperceptions: A Dialogue offers uncompromising analysis and cautious optimism.

Following the lives of military intelligence officer Jie and his wife Moon, The Book of Secrets weaves recently found material into a narrative that not only illuminates the shadowy world of intelligence in China, but also the emotional tragedies that political extremism inflicted on those working within. Drawing on Jie's own vivid biography of his youth, Xinran pieces together his trajectory as he joins the great hope of the Chinese young – the Communist Party – and becomes a loyal cadre until the late 1970s when, as a chief in the security forces, he makes a decision that will poison his family against him. This is a totally unique behind-the-scenes account of a family torn apart by the Tiananmen Square massacre and the attempts of Jie to finally open up the Chinese system to the people, pieced together from an extraordinary archive of personal diaries and letters.
