Adventures in Tornado Alley Mike Hollingshead,Eric Nguyen,2008-03-25 From surreal skylscapes to wholesale destruction: the most dramatic scenes from the natural world. The destructive power of nature has always been a source of fear and fascination, and never more so than now, when climate change and extreme weather conditions are constantly in the news. Across the central United States, the infamous storms of Tornado Alley are fueled by the collision of cold fronts from Canada and warm fronts from the Gulf of Mexico. People have been chasing these storms for decades in pursuit of thrilling experiences, but now a new generation of storm chasers is combining scientific knowledge with powerful images. This book follows Mike Hollingshead and Eric Nguyen on seventeen chases through Colorado, Iowa, Kansas, Nebraska, New Mexico, Oklahoma, and South Dakota, illustrating the unfolding events with sequential shots and a running commentary by the chasers themselves. These spectacular storm portfolios are expanded with special features on weather phenomena like hail and mammatus clouds plus insights into forecasting and research.

Letters to a Young Contrarian Christopher Hitchens,2009-04-28 Art of Mentoring seriesIn the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of contrary positions-from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending over backward to reach a happy consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself. Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian.
