Snow Crash Neal Stephenson, 2003-08-26 Now featuring never-before-seen material, the "brilliantly realized" (The New York Times Book Review) breakthrough novel from visionary author Neal Stephenson, a modern classic that predicted the metaverse and inspired generations of Silicon Valley innovators Hiro lives in a Los Angeles where franchises line the freeway as far as the eye can see. The only relief from the sea of logos is within the autonomous city-states, where law-abiding citizens don't dare leave their mansions. Hiro delivers pizza to the mansions for a living, defending his pies from marauders when necessary with a matched set of samurai swords. His home is a shared 20 X 30 U-Stor-It. He spends most of his time goggled in to the Metaverse, where his avatar is legendary. But in the club known as The Black Sun, his fellow hackers are being felled by a weird new drug called Snow Crash that reduces them to nothing more than a jittering cloud of bad digital karma (and IRL, a vegetative state). Investigating the Infocalypse leads Hiro all the way back to the beginning of language itself, with roots in an ancient Sumerian priesthood. He'll be joined by Y.T., a fearless teenaged skateboard courier. Together, they must race to stop a shadowy virtual villain hell-bent on world domination.

[This] text covers all aspects of media programming for broadcast and cable television, radio, and the Internet ... The authors explore how programs (units of content) are selected (or not selected), how programs are arranged in schedules of various kinds, how programs are evaluated by the industry, and how they are promoted to audiences and advertisers. #### Cinema in the Digital Age Nicholas

Rombes, 2017-12-19 Have digital technologies transformed cinema into a new art, or do they simply replicate and mimic analogue, film-based cinema? Newly revised and expanded to take the latest developments into account, Cinema in the Digital Age examines the fate of cinema in the wake of the digital revolution. Nicholas Rombes

considers *Festen* (1998), *The Blair Witch Project* (1999), *Timecode* (2000), *Russian Ark* (2002), and *The Ring* (2002), among others. Haunted by their analogue pasts, these films are interested not in digital purity but rather in imperfection and mistakes—blurry or pixilated images, shaky camera work, and other elements that remind viewers of the human behind the camera. With a new introduction and new material, this updated edition takes a fresh look at the historical and contemporary state of digital cinema. It pays special attention to the ways in which nostalgia for the look and feel of analogue disrupts the aesthetics of the digital image, as well as how recent films such as *The Social Network* (2010) and *The Girl with the Dragon Tattoo* (2011)—both shot digitally—have disguised and erased their digital foundations. The book also explores new possibilities for writing about and theorizing film, such as randomization.

Also includes lots of fantastic black-and-white

**Twelve Years a Slave** Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New

York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

*Accelerated Learning for the 21st Century* Colin Rose, 2011-11-02 We live in an era when the unprecedented speed of change means: The only certainty is uncertainty; you can't predict what skills will be useful in ten years time; in most professions knowledge is doubling every two or three years; and no job is forever--so being employable means being flexible and retraining regularly. Accelerated Learning into the 21st

Century contains a simple but proven plan that delivers the one key skill that every working person, every parent and student must master, and every teacher should teach: it's learning how to learn. The theory of eight multiple intelligences (linguistic, logical-mathematical, visual-spatial, kinesthetic, musical, interpersonal, intrapersonal, and naturalist) developed by Howard Gardner at Harvard University provides a foundation for the six-step MASTER-Mind system to facilitate learning (an acronym for Mind, Acquire, Search, Trigger, Exhibit, and Review), and is enhanced by the latest findings on the value of emotion and memory on the process of learning. Combined with motivational stories of success applying these principles, and putting forth a clear vision of how the United States can dramatically improve the education system to remain competitive in the next century, Accelerated Learning into the 21st Century is a dynamic tool for self-improvement by individuals as diverse as schoolchildren and corporate executives.

*On Target* Laura Rowley, 2003-03-31 The first behind-the-scenes look at the stunning success of America's hippest discount retailer Founded in 1962 by Minnesota-based department store Dayton's, Target has grown to become America's second most profitable retailer behind Wal-Mart. *On Target* is the first in-depth look at the business leaders and strategies that made Target such a runaway success. The company's easily recognizable red-and-white logo, youthful television advertisements, and upscale partnerships-with

designers like Michael Graves, Mossimo, and Todd Oldham-have not only removed the stigma traditionally attached to discount store shopping, but actually made it hip to be frugal. In the process, the company has cemented its place as the favorite discount retailer of middle- and upper-income families across the country. In *On Target*, award-winning business journalist Laura Rowley examines the methods and the success of the company from its shrewd merchandising strategy to its clever marketing campaigns, ingenious branding effort, and extensive philanthropy. An excellent education in how to beat the competition even in a crowded and weak retail market, Target's story details the history and incredible success of a unique company and an enticing, unmistakable brand. Both insightful and entertaining, *On Target* offers important business lessons for executives and managers in need of a bull's-eye. Laura Rowley (Maplewood, NJ) is an award-winning television, radio, and print journalist specializing in business reporting. She is the personal finance and career columnist for *Self* magazine and has also been published in *The New York Times*, *Parents*, and *Newsweek*. As a reporter and producer for CNN in New York, she reported on air for *Your Money* and *Business Unusual*, and produced live programs for CNNfn. She has also appeared on *Good Morning America*, *Oxygen Media*, and *CNBC*.
