Boss Mustang Donald Farr,2019-04-23 The Ford Boss Mustang is the most iconic pony car ever created, and this book covers it more extensively than any other. Boss Mustang: 50 Years—a fully expanded version of Mustang Boss 302—includes the complete history of its creation; racing and street histories of both the 302 and 429 models; and photos and interviews with Boss Mustang designers, engineers, racers, and more. Of all the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine and option package for SCCA Trans-Am racing, the Mustang Boss 302 debuted for the 1969 model year and was built in limited numbers for the street through 1970. This book features never-before-seen production and racing photography, interviews with designers and engineers, and keen insight from author Donald Farr, a renowned Ford historian and Ford hall-of-fame inductee. Designed by the legendary Larry Shinoda, the Boss cars were easily distinguished from their less potent stablemates by their race-bred powerplant, standard front spoiler, and bold graphics. In 2012, Ford at long last revived this most revered of all Mustang models. With a new racing counterpart and a modern street version that delivers more than 440 horsepower, the Boss was truly back! In 2013, Ford rolled out the Boss one more time. In Boss Mustang: 50 Years, Mustang historian Donald Farr offers a complete history of the car—from its late 1960s origins in Ford's boardrooms through its Trans-Am successes and untimely demise in 1970, up to the conception and development of the spectacular, limited-edition 2012 and 2013 Boss Mustangs. Packed with brilliant photography and firsthand accounts from the people who created the original Boss, as well as the team that resurrected Ford's most iconic Mustang for the 21st century, this is the story every Mustang enthusiast has been waiting to read.

Shelby Mustang Colin Comer,2019-10-08 Shelby Mustang details the entire story of these fantastic cars, from the early prototypes built in Shelby's Los Angeles shop to today's Ford-engineered high-tech performers. Written by one of the world's foremost authorities on Shelby automobiles, critically acclaimed author Colin Comer, and with a foreword by Lee Iacocca, the American automobile executive credited with the successful development of the Mustang, this is the definitive account of the Shelby. When Ford wanted to toughen up its super-successful new Mustang, they approached Carroll Shelby to give it the performance image it so sorely lacked. Beginning with a 1965 K-Code 289-cubic-inch-powered Mustang fastback, Shelby applied the same formula that had made his Cobra sports cars such devastating performers both on and off the track: more horsepower, less weight, balanced handling. The GT350 quickly established itself as a bonafide force in SCCA B-Production racing, twisting back roads, and boulevards alike—setting the course for future Shelby Mustangs, like the big-block GT500. Though those original Shelby Mustangs were done by 1970, Ford dusted off its Shelby relationship in 2006 and has been producing high-performance Ford Mustang Shelbys ever since. This is a must-have read for any fan of American performance cars, whether you're a muscle-era original or a 21st-century stromer.

Mustang Fifty Years - Cracker Barrel Donald Farr,2013-10-13 In the early 1960s, Lee Iacocca—then director of the Ford division at Ford Motor Company—convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. In *Mustang: Fifty Years*, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle: its phenomenal first-year sales, the new “pony car” genre it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302 and Boss 429—all part of a line of American performance cars that continues on to this day. The details he regularly shares, both in the pages of national magazines and as a contributing host and tech expert at the popular Barrett-Jackson Auctions on television, are the kinds of details that car fanatics love to hear. Fifty Years of Mustangs Bill Coulter, 2015-03-09 MUSTANGS! Over the centuries, mustangs have come in a number of different configurations. Some have had hooves. Some have had wings. But...horses and airplanes aside, the Mustangs that really hit like high-energy lightening bolts, were the ones produced and first released to a car-hungry nation by the Ford Motor Company in April, 1964. Television commercials, news magazine covers and high-energy radio ads created near-total, fever-pitch anticipation! Those unique and special first Generation One Mustangs were something almost transcendent, exhilarating and energizing for the U.S. car-buying public. Never before had Americans been given access to their own personal, sporty and classy time machine and certainly nothing like the new Mustang since the specialty rides of the 1930's and '40's! Fifty years of Mustangs, takes an in-depth look at the first five decades of this automotive icon with a literal, global following. If you're a Mustang fan, you'll find historic information on many of the full-size versions from the first half-century of production. But the truly unique aspect of this tome is that visually, *Fifty Years of Mustangs'* scale replicas provide a veritable cornucopia, running the full gamut of scales, eras shapes, colors and materials. As we'll see in this book, plastic model car kits have been quite prominent and prevalent for those 50 years. Whether it was AMT, MPC, IMC, Revell, Monogram, Pyro, Lindberg, Testors, Palmer, Ertl, Tamiya, Model King, Gunze Sangyo, Nitto Kagaku, USAirfix, Renwal or you name it and we can pretty much guarantee its existence at one time or another. Then for good measure, some resin kits and quality die cast examples have been included from such sources as Starter, Precision Miniatures, GMP, Danbury Mint and Automodello etc. for example. Considering the amazing quantity of Mustang scale model plastic kits, the numbers become truly overwhelming when we fold in all the other Mustang scale replicas (diecast, resin kits etc.) and the countless pieces of Mustang collectible memorabilia. The job of documenting the whole affair is quite challenging. Coming closest to that kind of effort might be *Mustang Collectibles* which I authored for Motor Books International back in 2002. But, then...just imagine all the brand-new stuff that's been produced in the years since then! Primarily, and much like the self-published decade series *Harry Pristovnik* and I have been generating recently (*The Nifty '50's & The Sizzlin' '60's*), this new 50th anniversary of the Ford Mustang book will cover the highlights from concept vehicles to the latest offerings just prior to going to press. Though it would be nearly impossible to provide photos and text about every item that's ever been available...we have made our best efforts here, to see that you experience as much of the Mustang aura as is possible...limited of course by just ink on paper. Whether you are a model car builder, model kit collector or mostly an accumulator of Mustang stuff, we hope you'll find what floats your boat right here in these freshly printed pages.

Motor City Muscle Mike Mueller, 2011-02-11 This is the high-performance tale of what was undoubtedly the fastest, loosest era in automotive history. Through the 1960s and into the 1970s, America's carmakers fought an unbridled war for street supremacy. The warriors ranged from light and agile Z/28 Camaros and Boss 302 Mustangs to big-block brutes like the 440 Road Runner and Stage I 455 Buick GS. A few of these boulevard brawlers were closing on 500 horsepower before the insurance lobby, Ralph Nader, OPEC, and various governmental agencies conspired to stop the madness. Muscle cars all but disappeared by 1974, with only a few anemic models soldiering through the 1980s. But by the 1990s, thanks to vastly improved engine technology, muscle cars were back with a vengeance. *Motor City Muscle* traces the full history right up to today's new Mustang, Camaro, and

Challenger.

Road & Track Iconic Cars: Mustang Larry Webster, 2015-10-26 This eBook collects 50 years of articles and reviews on the iconic American sportscar from the experts at Road & Track. Nothing says America like the Ford Mustang, the original pony car and the country's most beloved sporting machine. This fully illustrated volume, pulled from the pages of Road & Track, documents the rise of this automotive icon—the brainchild of crude engineering, modern styling, and fantastic marketing. This eBook looks back across 50 years of coverage, from recaps of Ford's game-changing win at Le Mans in 1966 to the dark years of the Mustang II. There are road tests, comparisons, and reviews from the R&T archives. Taken as a whole, this half-century of automotive journalism demonstrates why the car that defined a generation continues to mean so much to so many.

Camaro Mike Mueller, 2017-01-02 Camaro: Fifty Years of Chevy Performance chronicles the first fifty years of Chevrolet's iconic Camaro through fascinating photography, history, and commentary about this legendary pony car. The early 1960s saw American auto manufacturers desperately trying to sell cars to the emerging baby-boom market. Chevrolet attained some success with its sporty Corvair Monza. Ford responded first with a sportier Falcon, then with its grand-slam, home-run pony car, the Mustang. At first, Chevrolet hesitated to abandon the technologically advanced Corvair, but when it finally entered the pony car market in 1967, its new Camaro instantly became one of the most iconic cars of the classic muscle-car era. When muscle cars went dormant for a generation, it was once again the classic pony cars that jump-started American performance. The battle that raged between Camaro and Mustang in the 1980s rejuvenated the US auto industry's interest in high-performance muscle cars. The Camaro lost its way in the 1990s, with Chevrolet pursuing technological advances and Ford pursuing classic American muscle. As was the case in the 1960s, Ford's muscular pony car trounced Chevrolet's technologically advanced sporty car in the race that mattered most: showroom sales. The Mustang thrived while the Camaro left the scene. Fortunately, that departure was only temporary. Chevrolet introduced a twenty-first-century Camaro in 2010, and it has become one of Chevrolet's most popular models. With stunning photography from author Mike Mueller and never-before-seen archival photography from partner General Motors, Camaro: Fifty Years of Chevy Performance chronicles the Camaro's rich history, from the early attempts to reach the youth market in the 1960s, through the potent and turbulent years of the classic muscle-car era, the resurgence of muscle in the 1980s, the sad decline of the 1990s, and the triumphant rebirth of the new car in this new millennium.

Mustang Boss 302 Donald Farr, 2011-08-29 Of the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine for SCCA Trans-Am racing, the Boss 302 Mustang was built in limited numbers for the street. Designed by legend Larry Shinoda, the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers, rear window slats, and the omission of the standard Mustang's (fake) rear fender brake ducts. Also standard was a shaker hood scoop and bold graphics. Though Mustang performance faded to all-time lows as the 1970s rolled on, there was good news on the way. The pairing of the venerable 302 Windsor engine with the new Fox-body platform for the 1979 Mustang might not have seemed significant at the time, but it was the first edition of what would become a performance institution in the late 20th century: the 5-liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995. With no small amount of fanfare, Ford is paying homage to its performance past with the re-introduction of the 5.0 liter powerplant in the Mustang GT for 2011.
