Working Images Ana Isabel Alfonso, Laszlo Kurti, Sarah Pink, 2004-08-02 Visual methods such as drawing, painting, video, photography and hypermedia offer increasingly accessible and popular resources for ethnographic research. In Working Images, prominent visual anthropologists

and artists explore how old and new visual media can be integrated into contemporary forms of research and representation. Drawing upon projects undertaken both 'at home' in their native countries and abroad in locations such as Ethiopia and Venezuela, the book's contributors demonstrate how visual methods are used in the field, and how these methods can produce and communicate knowledge about our own and other cultures. As well as focusing on key issues such as ethics and the relationship between word and image, they emphasize the huge range of visual methods currently opening up new possibilities for field research, from cartoons and graphic art to new media such as digital video and online technologies.

Written by one of the founding fathers in the field, Visual Sociology explores how the world that is seen, photographed, drawn, or otherwise represented visually is different from the world that is represented through words and numbers. Doug Harper's exceptional photography and engaging, lively writing style will introduce: visual sociology as embodied observation visual sociology as semiotics visual sociology as an approach to data: empirical, narrative, phenomenological and reflexive visual sociology as an aspect of photo documentary visual sociology and multimedia. This definitive textbook is made up of eleven chapters on the key topics in visual sociology. With teaching and learning guidance, as well as clear, accessible explanations of current thinking in the field, this book will be an invaluable resource to all those with an interest in visual sociology, research methods, cultural
