Fifth Avenue, 5 A.M. Sam Wasson, 2011-09-25 Before Breakfast at Tiffany's Audrey Hepburn was still a little-known actress with few film roles to speak of; after it – indeed, because of it – she was one of the world's most famous fashion, style and screen icons. It was this film that matched her with Hubert de Givenchy's "little black dress". Meanwhile, Truman Capote's original novel is itself a modern classic selling huge numbers every year, and its high-living author of perennial interest. Now, this little book tells the story of how it all happened: how Audrey got the role (for which at first she wasn't considered, and which she at first didn't want); how long it took to get the script right; how it made Blake Edwards' name as a director after too many trashy films had failed to; and how Henry Mancini's soundtrack with its memorable signature tune 'Moon River' completed the irresistible package. This is the story of how one shy, uncertain, inexperienced young actress was persuaded to take on a role she at first thought too hard-edged and amoral – and how it made Audrey Hepburn into gamine, elusive Holly Golightly in the little black dress – and a star for the rest of her life.

Moral Combat Patrick M. Markey, Christopher J. Ferguson, 2017-03-21 In family rooms across America, millions of children and teenagers are playing video games, such as Call of Duty, Halo, and Grand Theft Auto, roaming violent virtual worlds—with virtual guns in their hands. In what sometimes seems like an increasingly violent world, it's only natural to worry about the effects of all this pixelated gore. But is that concern misplaced? Authors and psychologists Patrick M. Markey and Christopher J. Ferguson say it is. The media and politicians have been sounding the alarm for years, and with every fresh tragedy involving a young perpetrator comes another flurry of articles about the dangers of violent media. The problem is this: Their fear isn't supported by the evidence. In fact, unlike the video game-trained murder machines depicted in the press, school shooters are actually less likely to be interested in violent games than their peers. In reality, most well-adjusted children and teenagers play violent video games, all without ever exhibiting violent behavior in real life. What's more, spikes in sales of violent games actually correspond to decreased rates of violent crime. If that surprises you, you're not alone—the national dialogue on games and violence has been hopelessly biased. But that's beginning to change. Scholars are finding that not only are violent games not one of society's great evils, they may even be a force for good. In *Moral Combat*, Markey and Ferguson explore how video games—even the bloodiest—can have a positive impact on everything from social skills to stress, and may even make us more morally sensitive. Tracing the rise of violent games from arcades to online deathmatches, they have spent years on the front lines of the video game debate and now offer a comprehensive overview of the scientific research on gaming. With humor, complete honesty, and extensive research, they separate the myth from the medium. *Moral Combat* is an irreverent and informative guide to the worries—and wonders—of our violent virtual world.

Own the Room Amy Jen Su, Muriel Maignan Wilkins, 2013-04-09 Find your signature voice People are drawn to and influenced by leaders who communicate authentically, connect easily with people, and have immediate impact. So how do you become one of them? How can you learn to “own

the room”? This book will help you develop your leadership presence. According to Amy Jen Su and Muriel Maignan Wilkins, leadership presence is the ability to consistently and clearly articulate your value proposition while influencing and connecting with others. They offer a simple and compelling framework, as well as practical advice about how you can develop your own personal presence. No matter where you sit in an organization, you can “own the room” if you are able to do two things well: first, demonstrate your authentic value and distinction, and second, connect to others in a positive way. Leaders who are able to be authentic while connecting with and impacting others have what the authors call a “signature voice”—a means of self-expression that is uniquely and distinctly their own. Once you discover and express your own signature voice, you’ll be ready to take your leadership presence to the next level. Filled with real-life stories and examples, *Own the Room* demystifies the concept of presence and gives you the tools you need to identify and embrace your unique leadership voice—and have a greater impact on the world around you.

I Know How She Does It Laura Vanderkam, 2017-01-03 Everyone has an opinion, anecdote, or horror story about women and work. Now the acclaimed author of *What the Most Successful People Do Before Breakfast* shows how real working women with families are actually making the most of their time. “Having it all” has become the subject of countless books, articles, debates, and social media commentary, with passions running high in all directions. Many now believe this to be gospel truth: Any woman who wants to advance in a challenging career has to make huge sacrifices. She’s unlikely to have a happy marriage, quality time with her kids (assuming she can have kids at all), a social life, hobbies, or even a decent night’s sleep. But what if balancing work and family is actually not as hard as it’s made out to be? What if all those tragic anecdotes ignore the women who quietly but consistently do just fine with the juggle? Instead of relying on scattered stories, time management expert Laura Vanderkam set out to add hard data to the debate. She collected hour-by-hour time logs from 1,001 days in the lives of women who make at least \$100,000 a year. And she found some surprising patterns in how these women spend the 168 hours that every one of us has each week. Overall, these women worked less and slept more than they assumed they did before they started tracking their time. They went jogging or to the gym, played with their children, scheduled date nights with their significant others, and had lunches with friends. They made time for the things that gave them pleasure and meaning, fitting the pieces together like tiles in a mosaic—without adhering to overly rigid schedules that would eliminate flexibility and spontaneity. Vanderkam shares specific strategies that her subjects use to make time for the things that really matter to them. For instance, they . . .

- * Work split shifts (such as seven hours at work, four off, then another two at night from home). This allows them to see their kids without falling behind professionally.
- * Get creative about what counts as quality family time. Breakfasts together and morning story time count as much as daily family dinners, and they’re often easier to manage.
- * Take it easy on the housework. You can free up a lot of time by embracing the philosophy of “good enough” and getting help from other members of your household (or a cleaning service).
- * Guard their leisure time. Full weekend getaways may be rare, but many satisfying hobbies can be done in small bursts of time. An hour of crafting feels better than an hour of reality TV. With examples from hundreds of real women, Vanderkam proves that you don’t have to give up on the things you really want. *I Know How She Does It* will inspire you to build a life that works, one hour at a time.

Dear Data Giorgia Lupi, Stefanie Posavec, 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American

in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. *Dear Data* reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.
