More challenging exercises are included both in the textbook and in the instructor's manual. Elementary Number Theory with Applications 2e is ideally suited for undergraduate students and is especially appropriate for prospective and in-service math teachers at the high school and middle school levels. \* Loaded with pedagogical features including fully worked examples, graded exercises, chapter summaries, and computer exercises \* Covers crucial applications of theory like computer security, ISBNs, ZIP codes, and UPC bar codes \* Biographical sketches lay out the history of mathematics, emphasizing its roots in India and the Middle East

*Deuteronomy and the Judaeon Diaspora* Ernest Nicholson,2014-01-30 In Deuteronomy and the Judaeon Diaspora Ernest Nicholson challenges the widely accepted view that Deuteronomy was the 'book of the law' described in 2 Kings 22-3 as the basis of king Josiah's cultic reformation in 621 BCE. He argues that the notice in this narrative that Josiah abolished the rural, local altars throughout Judah and supposedly relocated their priests to Jerusalem is based upon a misreading. Rather, he contends, Deuteronomy derived from thinkers and writers who lived among the Judaeon exiles in Babylonia in the sixth century, and in significant ways represents a break with pre-exilic Israelite religion occasioned by the urgent need to confront the challenges to national identity and cultural survival of the Judaeon Diaspora community. Leading features of the book such as its zealous monolatry, its self-presentation as 'scripture', its concept of the relationship with

God as covenanted choice, its pervasive fear of religious encroachment, its character as 'oppositional' literature—these and other themes of the book suggest such a provenance. Issues arising include, for example, information from Babylonian sources, some of it new, about the Judaeans exiles, how Israel is characterised in the book, kingship, evidence of the emergence of a body of prophetic 'scripture'. Two final chapters examine the 'Deuteronomistic History' (Joshua-2 Kings) and show that (contrary to some interpretations) it is not 'historiography' such as is represented by, for example, Herodotus' Histories, and that theodicy rather than an interest in the past as a field of critical study best describes its genre.
