Travel in the Byzantine World Ruth Macrides, 2017-07-05 The contributions to this volume have been selected from the papers delivered at the 34th Spring Symposium of Byzantine Studies at Birmingham, in April 2000. Travellers to and in the Byzantine world have long been a subject of interest but travel and communications in the medieval period have more recently

attracted scholarly attention. This book is the first to bring together these two lines of enquiry. Four aspects of travel in the Byzantine world, from the sixth to the fifteenth century, are examined here: technicalities of travel on land and sea, purposes of travel, foreign visitors' perceptions of Constantinople, and the representation of the travel experience in images and in written accounts. Sources used to illuminate these four aspects include descriptions of journeys, pilot books, bilingual word lists, shipwrecks, monastic documents, but as the opening paper shows the range of such sources can be far wider than generally supposed. The contributors highlight road and travel conditions for horses and humans, types of ships and speed of sea journeys, the nature of trade in the Mediterranean, the continuity of pilgrimage to the Holy Land, attitudes toward travel. Patterns of communication in the Mediterranean are revealed through distribution of ceramic finds, letter collections, and the spread of the plague. Together, these papers make a notable contribution to our understanding both of the evidence for travel, and of the realities and perceptions of communications in the Byzantine world. *Travel in the Byzantine World* is volume 10 in the series published by Ashgate/Variorum on behalf of the Society for the Promotion of Byzantine Studies.

The Religious World of Kīrti Śrī John Holt, 1996 This interdisciplinary inquiry seeks to uncover how Buddhism was expressed during the waning years of indigenous political power in Asia's oldest continuing Buddhist culture. It focuses on King Kirti Sri Rajasinha and how he successfully revised Sinhalese Theravada Buddhism.

The Sacramental Church John F. Nash, 2011-02-09 What is Anglo-Catholicism? What are its origins? Are Anglo-Catholics real Anglicans/Episcopalians? What is their relationship with Roman Catholics? Has Anglo-Catholicism betrayed Anglicanism's Protestant roots? The Sacramental Church answers these and many other questions. Addressed to the general reader, it explores the history, practices, beliefs, and attitudes of Anglo-Catholicism. While Anglo-Catholicism has deep roots in English Christianity, it attained its modern form through the nineteenth-century Catholic Revival--a movement that aroused strong passions among proponents and opponents alike. The revival, its proponents declared, reclaimed for the Anglican faith its heritage as an authentic branch of the one, holy, catholic, and apostolic church. Anglo-Catholicism gave Anglicans/Episcopalians options to embrace ceremonial forms of worship, affirm the objective real presence and sacrificial nature of the Eucharist, venerate Mary the Mother of God, or join a monastery without abandoning their Anglican tradition. With an extensive bibliography and numerous direct quotes, *The Sacramental Church* provides a valuable reference source as well as a very readable story of Anglo-Catholicism--the expression of sacramental Christianity with special relevance to the English-speaking people.

Gods in the Global Village Lester R. Kurtz, 2007 Publisher Description

Sacred Sites and the Colonial Encounter Sandra E. Greene, 2002-05-14 Greene gives the reader a vivid sense of the Anglo encounter with western thought and Christian beliefs . . .

and the resulting erasures, transferences, adaptations, and alterations in their perceptions of place, space, and the body.

—Emmanuel Akyeampong Sandra E. Greene reconstructs a vivid and convincing portrait of the human and physical environment of the 19th-century Anlo-Ewe people of Ghana and brings history and memory into contemporary context. Drawing on her extensive fieldwork, early European accounts, and missionary archives and publications, Greene shows how ideas from outside forced sacred and spiritual meanings associated with particular bodies of water, burial sites, sacred towns, and the human body itself to change in favor of more scientific and regulatory views. Anlo responses to these colonial ideas involved considerable resistance, and, over time, the Anlo began to attribute selective, varied, and often contradictory meanings to the body and the spaces they inhabited. Despite these multiple meanings, Greene shows that the Anlo were successful in forging a consensus on how to manage their identity, environment, and community.

Sacred Waters Celeste Ray, 2020-02-18 Describing sacred waters and their associated traditions in over thirty countries and across multiple time periods, this book identifies patterns in panhuman hydrolatry. Supplying life's most basic daily need, freshwater sources were likely the earliest sacred sites, and the first protected and contested resource. Guarded by taboos, rites and supermundane forces, freshwater sources have also been considered thresholds to otherworlds. Often associated also with venerated stones, trees and healing flora, sacred water sources are sites of biocultural diversity. Addressing themes that will shape future water research, this volume examines cultural perceptions of water's sacrality that can be employed to foster resilient human-environmental relationships in the growing water crises of the twenty-first century. The work combines perspectives from anthropology, archaeology, classics, folklore, geography, geology, history, literature and religious studies.

1000 Sacred Places Christoph Engels, 2010-11-10 A spiritual

journey around the world! Holy places and spiritual sites are found throughout the world. In addition to the holy sites of the great religions, you can find countless spiritual places of indigenous peoples and vanished cultures. This book represents 1,000 such special places, including some of the great Christian cathedrals in Europe; pilgrim paths and places of pilgrimage; Hindu, Buddhist and Shinto temples in Asia; the most important mosques of the Islam; natural sanctuaries in Africa, America and Australia; prehistoric cult sites and modern sanctuaries. Richly illustrated with hundreds of color photographs, this book invites the reader to a spiritual journey through history and the cultures of the world.

Intercultural Spaces of Law Mario Ricca, 2023-04-03 This book proposes an interdisciplinary methodology for developing an intercultural use of law so as to include cultural differences and their protection within legal discourse; this is based on an analysis of the sensory grammar tacitly included in categorizations. This is achieved by combining the theoretical insights provided by legal theory, anthropology and semiotics with a reading of human rights as translational interfaces among the different cultural spaces in which people live. To support this use of human rights' semantic and normative potential, a specific cultural-geographic view dubbed 'legal chorology' is employed. Its primary purpose is to show the extant continuity between categories and spaces of experience, and more specifically between legal meanings and the spatial dimensions of people's lives. Through the lens of legal chorology and the intercultural, translational use of human rights, the book provides a methodology that shows how to make space and law reciprocally transformative so as to create an inclusive legal grammar that is equidistant from social cultural differences. The analysis includes: a critical view on opportunities for intercultural secularization; the possibility of construing a legal grammar of quotidian life that leads to an inclusive equidistance from differences rather than an

unachievable neutrality or an all-encompassing universal legal ontology; an interdisciplinary methodology for legal intercultural translation; a chorological reading of the relationships between human rights protection and lived spaces; and an intercultural and geo-semiotic examination of a series of legal cases and current issues such as indigenous peoples’ rights and the international protection of sacred places.
