A lot of people think that it's just about sex, but that's not strictly true. The Kamasutra is made up of 7 sections but only the second, called 'On Sexual

Kamasutra Sex Position for Beginners Vincent Brown

Rnd,2021-01-12 IntroductionWhen an Indian Hindu scholar wrote the Kama Sutra a few thousand years ago, there's no way he could have anticipated the impact his work would have on the world. Nowadays, the words Kama Sutra are a synonym for sex. A number of outlets have used Kama Sutra to suggest crazy words to do it, from the (very corny) Cosmo Kama Sutra to the (highly unauthorized) Star Wars Kama Sutra; go to kamasutra.com and you'll find a company specializing in luxury romance and entertainment. Indeed, I know of a body entertainer and dancer. If it seems strange that a 2,000-year-old text continues to inspire such impact on our erotic imagination, it goes to show a stranger when you realize that most of the Kama Sutra isn't actually about sex. Unlike the modern hot-and-heavy sex manuals that bear its name, the original Kama Sutra is a philosophical

text offering numerous on how to have a rewarding life and fruitful relationships; to the extent that it's a sex manual, it's mostly about the different positions from the notion that sex (and interacting sex positions) is a health and normal part of life. (Of course, given that there is a 2,000-year-old text, it's very heteronormative which our sex and non-normative gender identities do make some assumptions on that text, the gendered assumptions that the reader's sexual relationship will be a heterosexual one.)
