*Winning the Contractor Fight* Tom Reber,2021-09-14 The Contractor Fight is what HGTV host and best-selling author Tom Reber calls the battle between your ears. We all have stories and experiences that have formed us into who we are. We are what we think, and the battleground is our mind. The Fight is not with the people you think are cheap customers. It's not with the unlicensed competitors or the illegals, as many contractors think. The Fight is with yourself. Sadly, most of the struggles contractors have are self-imposed. It's friendly fire. The negative ways we think about ourselves and our worth... friendly fire. The growing debt, working too much, small bank account... friendly fire. Winning the Fight is a choice. You're noble and full of integrity. You bend over backward to serve your family and clients. You have taken it on the chin more times than you can count. Now, it's time to get yours. Earn what you're worth. Create a business that serves you and energizes you, instead of one that beats you down. Choose to own your crap and get better today.

7 Secrets of Eternal Wealth Buck Joffrey, M.d.,2017-03-02 The secrets behind eternal wealth have nothing to do with stocks, bonds and mutual funds or anything else the typical financial advisor tells you. These secrets have been around for thousands of years and have allowed some of the oldest families in Europe to remain wealthy for multiple generations. In 7 Secrets of Eternal Wealth, Dr. Buck Joffrey outlines the principles that have allowed him and numerous other professionals to transform their own lives and escape the modern day paradigm of trading time for money. Dr. Joffrey believes that the formula for wealth is available to everyone who is willing to change their mindset; even overwhelmed, hard working professionals such as physicians, dentists, and attorneys who have very little time outside of work. This book is a must-read for those who feel trapped in the rat race or shackled by the golden handcuffs.

Money Secrets of the Rich John Burley,2009-08-01 Burley found that the books on money either went one of two ways. They were either too technical that once you were done reading them, you had to do a bunch of research in order to even begin, or they were very motivational but didn't tell you what to actually do. Money Secrets Of The Rich strives to be a book that does both.

The 7 Secrets of Extraordinary Investors William G Hammer,2012-08-01 You probably don't wake up in the morning, look in the mirror, and say to yourself, "I want to be an ordinary investor today. I plan to invest emotionally, ignore risks and opportunities unique to me, and end up with much less than I had hoped for." While no investor consciously does this, most investors are regularly taking action that is likely to get them ordinary results. The 7 Secrets of Extraordinary Investors provides common sense and in-depth research that will start you (and keep you) on the path to financial success.

*The 7 Secrets for Wealth* Napoleon Hill,2015-05-05 One of the most Influential Tittles you will ever Read! ...IN EVERY chapter of this book, mention has been made of the money-making secret which has made fortunes for more than five hundred exceedingly wealthy men whom I have carefully analyzed over a long period of years. The secret was brought to my attention by Andrew Carnegie, more than a quarter of a century ago. The canny, lovable old Scotsman carelessly tossed it into my mind, when I was but a boy. Then he sat back in his chair, with a merry twinkle in his eyes, and watched carefully to see if I had brains enough to understand the full significance of what he had said to me. When he saw that I had grasped the idea, he asked if I would be willing to spend twenty years or more, preparing myself to take it to the world, to men and women who, without the secret, might go through life as failures. I said I would, and with Mr. Carnegie's cooperation, I have kept my promise... ....This book contains the secret, after having been put to a practical test by thousands of people, in almost every walk of life. It was Mr. Carnegie's idea that the magic formula, which gave him a stupendous fortune, ought to be placed within reach of people who do not have time to investigate how men make money, and it was his hope that I might test and demonstrate the soundness of the formula through the experience of men and women in every calling....

*The Ten Truths of Wealth Creation* John E. Girouard,2007-01-11 This back-to-basics guide by investment guru John E. Girouard reveals how investment industry sales people give shoddy advice and sell poorly-designed investment products aimed at enriching themselves and their firms at customers' expense. The Ten Truths of Wealth Creation is not a recipe for getting rich, but an honest look at the common mistakes many make in thier financial lives, and how readers can unlock the natural money-growing opportunities that those selling investment products never talk about. Girouard explains how income is often taxed multiple times, how financial choices can minimize those taxes, and how those saved dollars can add up and grow wealth. Girouard shows how simple, common sense choices can help readers reach their money goals sooner and safer, in good times and bad.

**Aftermath** James Rickards,2019-07-23 A Wall Street Journal bestseller Financial expert, investment advisor and New York Times bestselling author James Rickards shows why and how global financial markets are being artificially inflated--and what smart investors can do to protect their assets What goes up, must come down. As any student of financial history knows, the dizzying heights of the stock market can't continue indefinitely--especially since asset prices have been artificially inflated by investor optimism around the Trump administration, ruinously low interest rates, and the infiltration of behavioral economics into our financial lives. The elites are prepared, but what's the average investor to do? James Rickards, the author of the prescient books Currency Wars, The Death of Money, and The Road to Ruin, lays out the true risks to our financial system, and offers invaluable advice on how best to weather the storm. You'll learn, for instance: \* How behavioral economists prop up the market: Funds that administer 401(k)s use all kinds of tricks to make you invest more, inflating asset prices to unsustainable levels. \* Why digital currencies like Bitcoin and Ethereum are best avoided. \* Why passive investing has been overhyped: The average investor has been scolded into passively managed index funds. But active investors will soon have a big advantage. \* What the financial landscape will look like after the next crisis: it will not be an apocalypse, but it will be radically different. Those who forsee this landscape can prepare now to preserve wealth. Provocative, stirring, and full of counterintuitive advice, Aftermath is the book every smart investor will want to get their hands on--as soon as possible.
