Reset Your Child's Brain Victoria L. Dunckley, MD,2015-06-23 Increasing numbers of parents grapple with children who are acting out without obvious reason. Revved up and irritable, many of these children are diagnosed with ADHD, bipolar illness, autism, or other disorders but don't respond well to treatment. They are then medicated, often with poor results and unwanted side effects. Based on emerging scientific research and extensive clinical experience, integrative child psychiatrist Dr. Victoria Dunckley has pioneered a four-week program to treat the frequent underlying cause, Electronic Screen Syndrome (ESS). Dr. Dunckley has found that everyday use of interactive screen devices – such as computers, video games, smartphones, and tablets – can easily overstimulate a child's nervous system, triggering a variety of stubborn symptoms. In contrast, she's discovered that a strict, extended electronic fast single-handedly improves mood, focus, sleep, and behavior, regardless of the child's diagnosis. It also reduces the need for medication and renders other treatments more effective. Offered now in this

book, this simple intervention can produce a life-changing shift in brain function and help your child get back on track – all without cost or medication. While no one in today's connected world can completely shun electronic stimuli, Dr. Dunckley provides hope for parents who feel that their child has been misdiagnosed or inappropriately medicated, by presenting an alternative explanation for their child's difficulties and a concrete plan for treating them.

Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently.
