Letters, Numbers, Shapes and Colors Petra Noval,2020-10-20 Have fun and learn about letters, shapes, numbers and colors in this Montessori inspired early learning book. From Inner cover: This book is set up to be used in the order of the chapters, but feel free to have fun with it however you prefer. First your little one learns how to visually match each letter of the alphabet to the sound you pronounce. Numbers come next accompanied by words spelled out as well as a quantitative cue. This way, the learner can associate numbers with letters and how many buttons correspond to the appropriate number. The third part is geometric shapes, a more complex concept. In this section there are realistic pictures of shapes along with the words spelled out to match. In the fourth chapter the child will get exposed to the concept of colors. Here, all the images that were seen in the previous chapters are organized by the color that they match to. This is where the fun comes in, your sweetie can practice a Find and Seek game where one image is identified as a specific color, then he or she can go back through the previous chapters to find it. We hope you will enjoy this fun learning experience, especially the Find and Seek game
