*Vegas at Odds* James P. Kraft,2009-12-09 The stories of the shadowy networks and wealthy

people who bankrolled and sustained Las Vegas's continuous reinvention are well documented in works of scholarship, journalism, and popular culture. Yet no one has studied closely and over a long period of time the dynamics of the workforce -- the casino and hotel workers and their relations with the companies they work for and occasionally strike against. James P. Kraft here explores the rise and changing fortunes of organized and unorganized labor as Las Vegas evolved from a small, somewhat seedy desert oasis into the glitzy tourist destination that it is today. Drawing on scores of interviews, personal and published accounts, and public records, Kraft brings to life the largely behind-the-scenes battles over control of Sin City workplaces between 1960 and 1985. He examines successful and failed organizing drives, struggles over pay and equal rights, and worker grievances and arbitration to show how the resort industry's evolution affected hotel and casino workers. From changes in the political and economic climate to large-scale strikes, backroom negotiations, and individual worker-supervisor confrontations, Kraft explains how Vegas's overwhelmingly service-oriented economy works -- and doesn't work -- for the people and companies who cater to the city's pleasure-seeking visitors. American historians and anyone interested in the history of labor or Las Vegas will find this account highly original, insightful, and even-handed.

**Lifeline** Shireen Jeejeebhoy, 2007-10 Thirty-four-year-old Judy Taylor relished her simple,

happy life. She had a loving husband, three young daughters, and a beautiful home. But after intestinal blood clots annihilated her digestive system, Judy was left with the certainty of starving to death in a cold Toronto hospital. The year was 1970, and most doctors still considered long-term intravenous feeding to be science fiction. As a last resort, Judy's surgeons turned to a radical young immigrant doctor who had performed groundbreaking research on artificial feeding methods for humans. Together, Judy and Dr. Khursheed Jeejeebhoy agreed that Judy's only hope was to become a human test subject. For the next twenty years, Judy and Dr. Jeej worked to develop and hone the medical procedures for Total Parenteral Nutrition (TPN), which became the basis for modern intravenous feeding. With courage and determination, Judy raised her family and led a fulfilling life despite being the subject of experimental medicine. Lifeline tells her inspiring true story and intimately reveals the miraculous link between science and the resilience of the human spirit.

Each chapter investigates a different pie: Chicago's famous deep-dish, New Haven's white clam pie, California's health-conscious varieties, New York's Sicilian and Neapolitan, the various styles that have emerged in the Midwest, and many others. The components of each pie-crust, sauce, spices, and much more-are dissected and

celebrated, and recipes from top pizzerias provide readers with the opportunity to make and sample the pies themselves.
