### How to Win 21 & Poker, Dice, Races, Roulette Mike

Goodman, 2016-11-11 THE ONE IMPORTANT THING TO KNOW

ABOUT GAMBLING is that there is no guaranteed way to win all the time. But there is a guaranteed way to lose constantly, and that is when you don't understand the basic rules of playing and betting.

It is appalling how many people, even big-money gamblers, lose consistently and don't know why. There are only two types of

gamblers-those who really know the game and suckers. Mike Goodman, a veteran professional gambler, gives you an amazing, easy-to-understand insight on how to gamble and win.

HORSE RACING...watch those second favorites; let the suckers play the

favorites, they're usually overplayed! DICE...you're a sucker if you don't take advantage of the odds, but the real pay-off comes when

you know how to bet! SLOTS...there's only one way to beat those "one-arm bandits," but, unfortunately, it's against the law!

ROULETTE...it's tough to beat the house percentage, but there are ways to lose less, keep you in the game, and then, who knows?

BLACKJACK "21"...here's a game you can win at consistently if you learn the tricks and how to put "lady luck" on your side!

POKER...you get real help here; tips that'll open your eyes, make you play a better game and win! This book gives solid advice on

how you can become a tough player and helps tilt the odds more in your direction. I'm just plain sick of "experts" who promise the

moon but peddle virtually worthless advice. Somewhere in their pitch you're told that they're not multi-millionaires because they

are not allowed in gambling casinos and I challenge any one of them to use this system at "craps", "21" or roulette at my casino.

If they haven't got the guts to back up their system with hard cash, I challenge them to meet me face to face in public to debate any phase of gambling on which they claim to be an authority.

Mike Goodman

### Roulette, Breaking the Bank and Winning Monster Peter

Zhang, 2016-04-21 Roulette game has been around for centuries

and yet gamblers have gone broke just over 2.7% house edge. Now you may laugh at me and comment that I am losing 2.7% at every spin cumulatively. Of course you are right in saying that and you may tell me that it is highly negative expected value in the long run. But can you ignore these facts Roulette will produce winning and losing streaks Roulette will allow gamblers to win big by giving them 36 times of whatever they put straight up If a person goes hot and gets 2 times a number correct he stands to win  $36 \times 36$  times the amount bet consecutively. Giving you returns of 1296 times or if you just bet 25 dollars which anyone can afford to lose in a casino he will have won 32 thousand 400 dollars or \$32,400. Now with such low house edges anyone can go on a hot streak, but everyone loses. And now if I tell you I have a system that will allow you to take shots at the game of Roulette and if you win you compound your profits and cut losses and take profits then certainly the casinos will a lot fun, a lot entertainment and a hell lot more fun, then would you deny it? In this manual and in the coming pages I am going to convey to you the secrets of my winning system of Roulette, every Roulette player must read this book at least one and what have you got to lose? You are just going to get saved a lot of money and this is an indispensable guide to winning in casinos a cart full of money, all crisp 100 dollar bundles. And who knows you may even break the bank at roulette table. A lot of players go to the casinos and assume they are lucky and going to win and this is the wrong mentality to win at poker, because if you believe you are going to win you are going to compound your losses following bad strategies like Martingale. The Martingale strategy works best for the casino and they prevent losses by limiting the maximum amount of bets that could be placed and of course players like you and me don't have access to infinite resources that will allow us to keep doubling our bets forever. We need to win big and we need to win with a small amount of money. In this manual I am going to give you solid advice that will allow players to reduce the house edge of casinos

and who knows if everyone read my book probably the casinos will stop the game of Roulette altogether. Because I have a system that really does beat the casinos. And the rules which I will tell you precisely in later part of the book are as follows 1.Take Profits 2.Try to go on a hot streak 3.Cut losses 4.Go for big wins like betting straight up 5.An intuitive pattern recognition system that makes phrases out of meaningless numbers for identification of wheel bias. (This works on every Roulette Wheel in Vegas, Atlantic City, every casino in the world and all machines open and closed and even automatic Roulette machines which have a ball inside a chamber) This is a short book that will give you the right tools to approach the game of Roulette and every chapter will convey the topics that I have told you above and you must use all of these tools at once so that you will make big money or be break-even or have very little losses in the game of Roulette. Good Luck and wish you a lot of fun and entertainment in the casinos.

**Merde Happens** Stephen Clarke,2011-12-01 In the acclaimed third installment of the popular Merde series, Paul West winds up stuck in American, chin-deep in financial trouble. He and his French girlfriend set off to America, with hopes of veering off the path to fiscal ruin. But as the not-so-dynamic duo stumble toward Los Angeles, via Boston, Miami, New Orleans, and Las Vegas, Paul's well-oiled plans for success, of course, turn to merde: the couple takes on carjackers, old flames, and liaisons dangereuses. The result is a madcap, hilarious adventure, an acerbic tour through America, France, England, and the places that make us who we are.
