The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Migration, Culture Conflict and Crime Joshua D. Freilich, Moshe Addad, 2017-10-05 This title was first published in 2002: The issue of immigration and crime in all of its many contexts and forms, is a problem which affects numerous countries throughout the world. In many countries, immigrants have been accused of disproportionate involvement in crime while, in others, immigrants are often claimed to be the victims of criminal offenders, as well as indifferent criminal justice systems. The subjects covered within this informative collection include the offending and victimization rates of immigrants and their dependants, institutional racism, human trafficking/smuggling and ethnic conflicts. In particular, the problems faced by female immigrants are addressed in detail. Whilst some papers look at the issues facing particular countries, such as Germany, the United Kingdom, Australia, Israel and Turkey, others adopt a more comparative approach. *Migration, Culture Conflict and Crime* is an essential and compelling read for all those with a strong interest in this important area. Not only does it significantly advance our scientific knowledge concerning the relationship between immigration, crime and justice, but it also sets forth a number of proposals which, if implemented, could address many of the problems found in these areas.

How to Have Fun in Manila: The Complete Travel Guide Book to Metro Manila, Philippines Jennie Santos,2024-02-26 Manila is like halo-halo: everything Filipino mixed up in one big colorful bowl. It’s vibrant, overwhelming, overcrowded, and yes, a bit smelly. Many visitors skip Manila on their way to the beaches, or they never leave their Manila hotel room or favorite mall. With this guide book, you can have a blast in the real Manila, far beyond where tourists usually tread. Every recommendation has a QR code and Google Maps link, so it’s easy to navigate. I’ll show you how to get local mobile data service, and I’ll make sure you don’t get scammed by taxis. A ride around Manila costs less than \$5. In central Manila, Intramuros is the old walled city, previously open only to the Spanish colonialists. The’s a fort, a cathedral, and the remains of a moat. We’ll climb up to a rooftop view, find a hidden cafe that has amazing churros, and learn why the “dirty” ice cream isn’t so dirty. Yes, there’s a huge mall near Manila Bay, but did you know there’s a local seaside promenade there? There’s a rooftop cafe next to the beach, a classic rock bar, and a boat tour that costs \$3. I’ve never seen any foreigners there. Nearby, on the water, there’s a seafood market where they’ll cook your purchases for you to eat right there. I’ve never seen any foreigners there either. BGC is Manila’s “global” development, and also the only place to get real Italian food in Manila. I’ll show you where. Besides the real Italian food, we’ll ride a fake Venetian gondola and check out a science museum. We’ll eat our way around the world’s oldest Chinatown and buy Filipino-Chinese pastries to take home. I’ll show you a hidden-away temple that’s upstairs in a building, a church with masses in Mandarin and Hokkien, and a street full of amazing Chinese foods that cost a dollar or two. Speaking of cheap food? I don’t recommend you eat on the street. But I’ll show you better alternatives to get your Filipino street food. And I have an entire chapter on balut – even the hot new balut trend, and where to find it. We’ll see indie rock shows, check out hipster art spaces, and eat Hokkaido toast, whatever that is. I list Manila hotels I personally recommend, and scams I personally warn you against. I’ve even got a bunch of warnings about bathrooms in the Philippines, and how to deal with bad customer service. And don’t be shy: if you want to meet and date Filipinas, yes, I cover that too. Experience the best of Manila, the local way. Mabuhay!

Metaphysics, Sophistry, and Illusion Mark Balaguer,2021-01-26 Metaphysics, Sophistry, and Illusion does two things. First, it introduces a novel kind of non-factualist view, and argues that we should endorse views of this kind in connection with a wide class of metaphysical questions, most notably, the abstract-object question and the composite-object question. (More specifically, Mark Balaguer argues that there's no fact of the matter whether there are any such things as abstract objects or composite objects—or material objects of any other kind.) Second, Metaphysics, Sophistry, and Illusion explains how these non-factualist views fit into a general anti-metaphysical view called neo-positivism, and explains how we could argue that neo-positivism is true. Neo-positivism is the view that every metaphysical question decomposes into some subquestions—call them Q1, Q2, Q3, etc.—such that, for each of these subquestions, one of the following three anti-metaphysical views is true of it: non-factualism, or scientism, or metaphysically innocent modal-truth-ism. These three views can be defined (very roughly) as follows: non-factualism about a question Q is the view that there's no fact of the matter about the answer to Q. Scientism about Q is the view that Q is an ordinary empirical-scientific question about some contingent aspect of physical reality, and Q can't be settled with an a priori philosophical argument. And metaphysically innocent modal-truth-ism about Q is the view that Q asks about the truth value of a modal sentence that's metaphysically innocent in the sense that it doesn't say anything about reality and, if it's true, isn't made true by reality

The games are crafted to help the kids stay focused, remain active, and have fun. The result is that they develop not only their motor skills and sport-specific skills but also positive attitudes toward physical activity. They'll have loads of fun with these games and want to come back for more, and they'll be on their way to establishing lifelong physical activity habits through *More Fun and Games*.
