Women Who Changed the World [4 volumes] Candice Goucher, 2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women's lived experiences. Learning how women changed the world will change the ways the world looks at the past. Women Who Changed the World: Their Lives, Challenges, and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective. The women featured in this four-volume set cover the full sweep of history, from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams. Every walk of life is represented in these pages, from powerful monarchs and politicians to talented artists and writers, from inquisitive scientists to outspoken activists. Each biography follows a standardized format, recounting the woman's life and accomplishments, discussing the challenges she faced within her particular time and place in history, and exploring the lasting legacy she left. A chronological listing of biographies makes it easy for readers to zero in on particular time periods, while a further reading list at the end of each essay serves as a gateway to further exploration and study. High-interest sidebars accompany many

of the biographies, offering more nuanced glimpses into the lives of these fascinating women.

More than Cricket and Football Joel Nathan Rosen, Maureen M. Smith, 2016-12-02 Given the presumed dominance of American sport, many fans throughout the hemisphere find it difficult to envision the role of sport beyond the confines of their own continent. And yet, world sport consists of so much more than the games Americans play and so much more than the stereotype of cricket for the elite and football for the working class. As worldwide sport continues to gain in popularity, we also see parallels to many aspects visible in North American sport, particularly celebrity and all its trappings and pitfalls. The success of athletes from other countries in basketball and ice hockey, and the proliferation of stars imported and now exported to and from North America, provides some better examples of sport's international power. It also creates a very new kind of sport celebrity, albeit one that often shows a rather limited reach beyond that star's own country or continent. Thus, rather than focusing on the Western Hemisphere, this collection of some of world sport's most heralded celebrities (including stars of Motocross, surfing, distance running, and more) serves as a sort of passport to many places that make up our global sporting environment.

Game, Set, and Match Herbert Warren Wind, 2016-01-26 The leading players and outstanding matches of two thrilling decades in tennis history From Rod Laver's amateur Grand Slam in 1962 to the first US Open held at the National

Tennis Center in Flushing Meadows, legendary sportswriter Herbert Warren Wind captures the grace and drama of modern tennis in this brilliant collection drawn from the pages of the New Yorker. The era's biggest names, including Margaret Court, Chris Evert, John Newcombe, Arthur Ashe, and Pancho Gonzales, thrill the crowds of Roland Garros, Wimbledon, and Forest Hills, and America's Davis Cup team battles patriotic linesmen and frenzied fans in an epic showdown against the Romanians in Bucharest. In "Mrs. King versus Mr. Riggs," Wind paints a witty and evocative portrait of Billy Jean King's historic beatdown of Bobby Riggs, and in "Forest Hills and the Final Between Connors and Borg," he vividly recounts one of the wildest and woolliest tournaments in the sport's history. Rendered with the same authority and eloquence that led the New York Times to declare Wind the dean of American golf writers, these dispatches from center court testify to the celebrated journalist's passion and versatility.

The Greatest of Their Time Benedict

Bermange, 2022-09-21 For a great deal of the 1930s, Don Bradman was considered the most famous sportsman in the world. By any measure – stats, acclaim – it appeared to be a straightforward decision. The same could be argued for Mohammad Ali in the 1960s or Lionel Messi in the 2010s. But when, exactly, did they take their titles, from whom, and when did their reigns come to an end? For boxers it might be possible to narrow it down to the actual date, but for other sportsmen – and women – it is more difficult. Athletes have been feted for their sporting prowess since ancient times, and since the advent of professional sport in the early 18th Century there have been champions celebrated throughout the world. This book aims to give a clearer idea of who was – at any point in time – the greatest athlete in the world – even if the world was unaware of it at the time.

Ashe vs Connors Peter Bodo, 2015-05-28 Early in July of 2015, tennis will celebrate the 40th anniversary of what might be the greatest upset in the annals of tennis. There have been other key matches in which the disparity between the favourite and the victorious underdog may have been more pronounced by standards of the sport. But none has been more resonant, or flush with meaning and contrasts. For this was not just a contest between a mercurial, seemingly unstoppable prodigy and an undemonstrative veteran, it also embodied a clash of values in a rapidly changing world, and in the sport itself. This is the story of two tennis greats lives, from the local park

courts of their boyhood to the summer of 1975 and this most resonant of Wimbledon finals, which Ashe won to become the first black male Champion. However, like the best sports books written, this is much more than a just a story about one match, but a metaphor for a changing world, the end of an era and a last triumph for the passing guard.

The Anthropocene Reviewed (Signed Edition) John Green,2021-05-18 Goodreads Choice winner for Nonfiction 2021 and instant #1 bestseller! A deeply moving collection of personal essays from John Green, the author of *The Fault in Our Stars* and *Turtles All the Way Down*. "The perfect book for right now." –People "The Anthropocene Reviewed is essential to the human conversation." –Library Journal, starred review The Anthropocene is the current geologic age, in which humans have profoundly reshaped the planet and its biodiversity. In this remarkable symphony of essays adapted and expanded from his groundbreaking podcast, bestselling author John Green reviews different facets of the human-centered planet on a five-star scale—from the QWERTY keyboard and sunsets to Canada geese and Penguins of Madagascar. Funny, complex, and rich with detail, the reviews chart the contradictions of contemporary humanity. As a species, we are both far too powerful and not nearly powerful enough, a paradox that came into sharp focus as we faced a global pandemic that both separated us and bound us together. John Green's gift for storytelling shines throughout this masterful collection. The Anthropocene Reviewed is a open-

hearted exploration of the paths we forge and an unironic celebration of falling in love with the world. This is a signed edition.

Taking a Knee, Taking a Stand Bob

Schron, 2020-04-03 A history of the activism and achievement of African American athletes from Jesse Owens to Serena Williams to Colin Kaepernick, who advanced the cause of social justice through their outspokenness, commitment, and integrity. Muhammad Ali refused to fight in a war he believed was immoral. Wilma Rudolph retired from track and field to campaign for civil rights. Colin Kaepernick took a knee during the national anthem to draw attention to the oppression of black bodies. *Taking a Knee, Taking a Stand* tells their stories and the stories of other prominent African American male and female athletes who often risked their careers to fight racial discrimination and promote social justice. From Jackie Robinson breaking the color line in major league baseball to NBA great Bill Russell sitting at the feet of Dr. Martin Luther King at the 1963 March on Washington to Althea Gibson asserting her tennis dominance at a time when many clubs would not allow African Americans to play on their courts, this moving and celebratory history shows how the tradition of black protest in sports has been consistent, necessary, and organic, and that the present crisis of misunderstanding and intolerance demands that this tradition continue as the country struggles toward fairness and equity.

The Art of Tennis Dominic J. Stevenson, 2022-05-01 Opening with Wimbledon 2019, *The Art of Tennis* covers the excitement of the sport up to the profound silence of the Covid-19 pandemic—when no tennis was played for a year—through Wimbledon 2021. As play began to resume, there were many questions surrounding its return, and the author examines these and how the sport of tennis fights to prevail as the virus continues to redefine modern life. The book follows the latest comebacks from Roger Federer, Serena Williams, and Andy Murray and looks at how Daniil Medvedev, Stefanos Tsitsipas, and Alexander Zverev reached their first major finals. In the women's game, Barbora Krejčíková, Bianca Andreescu, and Sofia Kenin make big stage breakthroughs, and Naomi Osaka continues to rule on hard courts. In late 2020, the calendar looked different. The tours adapted as best they

could, and some remarkable tennis took place in empty arenas. 2021 saw tournaments finding a way to coincide with the virus that is reshaping daily life. With thoughtful observations, author Dominic Stevenson comments on the many aspects of professional tennis, both on and off the courts, providing his own unique perspective on this beautiful sport.

Southern California Tennis Champions Centennial, 1887-1987 Patricia Henry Yeomans, 1987

Arthur Ashe Raymond Arsenault, 2019-08-20 A NEW YORK TIMES NOTABLE BOOK A “thoroughly captivating biography” (The San Francisco Chronicle) of American icon Arthur Ashe—the Jackie Robinson of men’s tennis—a pioneering athlete who, after breaking the color barrier, went on to become an influential civil rights activist and public intellectual. Born in Richmond, Virginia, in 1943, by the age of eleven, Arthur Ashe was one of the state’s most talented black tennis players. He became the first African American to play for the US Davis Cup team in 1963, and two years later he won the NCAA singles championship. In 1968, he rose to a number one national ranking. Turning professional in 1969, he soon became one of the world’s most successful tennis stars, winning the Australian Open in 1970 and Wimbledon in 1975. After retiring in 1980, he served four years as the US Davis Cup captain and was inducted into the International Tennis Hall of Fame in 1985. In this “deep, detailed, thoughtful chronicle” (The New York Times Book Review), Raymond Arsenault chronicles Ashe’s rise to stardom on the court. But much of the book explores his off-court career

as a human rights activist, philanthropist, broadcaster, writer, businessman, and celebrity. In the 1970s and 1980s, Ashe gained renown as an advocate for sportsmanship, education, racial equality, and the elimination of apartheid in South Africa. But from 1979 on, he was forced to deal with a serious heart condition that led to multiple surgeries and blood transfusions, one of which left him HIV-positive. After devoting the last ten months of his life to AIDS activism, Ashe died in February 1993 at the age of forty-nine, leaving an inspiring legacy of dignity, integrity, and active citizenship. Based on prodigious research, including more than one hundred interviews, Arthur Ashe puts Ashe in the context of both his time and the long struggle of African-American athletes seeking equal opportunity and respect, and "will serve as the standard work on Ashe for some time" (Library Journal, starred review).
