Brain Games for 8 Year Olds Leland Books,2020-04-07 Workbooks for kids have been the same for such a long time. Books titled for kids ages 6-8 or 8-10 or 8-12 can be found anywhere and even become best sellers. Nevertheless, it is scientifically proven that every child grows significantly every year and kids of different ages are not alike. A high-quality book cannot fit second graders and fourth graders at the same time. Forced to learn with an unsuitable book, kids may start to get bored, waste their time and lose their interest in studying. As educators and parents, we care about your kids and understand their characteristics, needs and thinking skills. Unlike other books for a wide age range, this book is tailored for 8-year-olds. Our book Brain games for 8 year old: Word search, Crossword & Sudoku is published to foster a positive approach to education for this particular stage of growth. But why not 1, but 3 contents? This book aims at providing your kids with interesting learning

experiences and promoting balanced brain development: Word Search and Crossword puzzles: There are 15 topics in each type. These word games help to enhance kids' spelling and word recognition skills. Also, children can improve their vocabulary, as well as strengthen their attention, which can positively influence their future. Sudoku: 60 puzzles of 6x6 and 9x9 grids can level up kid's brain power by developing analytical and logical thinking, and promote healthy pleasure. If you think your beloved children deserve the opportunity to learn with an age-appropriate book, you have come to the right place! This book is a part of our series, Brain Games for Clever Kids, each of which suits a particular age, highly recommended by teachers and researchers for comprehensive intellectual development.
