**Penguins Can't Fly** Jason Kotecki,2015-06-23 Life is supposed to be fun. We knew this instinctively as kids, but somehow forgot on the way to adulthood. We got busy and overwhelmed, started valuing things that don't matter, and learned to follow the rules that don't even exist: hate Mondays only celebrate when the calendar gives you permission don't make a mess don't play hooky hide your weirdness hide your wrinkles care what other people think Following these so-called rules is a terrific way to stress you out, sap your energy, and ensure a boring life. But there's a better way. In his enlightening book, author and artist Jason Kotecki uncovers some of the most useless rules so you can shift perspective and start seeing the world with wonder once again. It's time to stop living by someone else's rules. Your life is a story, and a short one at that. Make it a good one.

**The Last Lecture** Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

**Flight of the Peacock** Gerald Myers,2017-08-15 When rookie sportswriter Roy Berman, covering at his first intercollegiate meet, observed varsity swimmer Marty Katz strut around the pool, he thought the undergraduate seemed a little too full of himself. That impression was later reinforced a dozen years later when the athlete reinserted himself into the now cardiologists life as a pacemaker salesman driving an expensive German sports car while engaged to the niece of Greg's partner. It was only when, a few years later, the two unexpectedly engaged in a tell-all conversation that the cardiologist realized that the arc of his life had closely mirrored Marty's and the two of them could have been twin sons of different mothers. This realization sparked a friendship that spanned almost thirty years and included a series of activities, adventures, and experiences that solidified a relationship that ended abruptly when Marty, at a relatively young age, succumbed to complications of an elective surgical procedure. This is their story.

**Lords of the Fly** Monte Burke, 2020-09-01 From the bestselling author of Saban, 4th and Goal, and Sowbelly comes the thrilling, untold story of the quest for the world record tarpon on a fly rod--a tale that reveals as much about Man as it does about the fish. In the late 1970s and early 1980s, something unique happened in the quiet little town on the west coast of Florida known as Homosassa. The best fly anglers in the world--Lefty Kreh, Stu Apte, Ted Williams, Tom Evans, Billy Pate and others--all gathered together to chase the same Holy Grail: The world record for the world's most glamorous and sought-after fly rod species, the tarpon. The anglers would meet each morning for breakfast. They would compete out on the water during the day, eat dinner together at night, socialize and party. Some harder than others. The world record fell nearly every year. But records weren't the only things that were broken. Hooks, lines, rods, reels, hearts and marriages didn't survive, either. The egos involved made the atmosphere electric. The difficulty of the quest made it legitimate. The drugs and romantic entanglements that were swept in with the tide would finally make it all veer out of control. It was a confluence of people and place that had never happened before in the world of fishing and will never happen again. It was a collision of the top anglers and the top species of fish which would lead to smashed lives for nearly all involved, man and fish alike. In *Lords of the Fly*, Burke, an obsessed tarpon fly angler himself, delves into this incredible moment. He examines the growing popularity of the tarpon, an amazing fish has been around for 50 million years, can live to 80 years old and can grow to 300 pounds in weight. It is a massive, leaping, bullet train of a fish. When hooked in shallow water, it produces "immediate unreality," as the late poet and tarpon obsessive, Richard Brautigan, once described it. Burke also chronicles the heartbreaking destruction that exists as a result--brought on by greed, environmental degradation and the shenanigans of a notorious Miami gangster--and how all of it has shaped our contemporary fishery. Filled with larger-than-life characters and vivid prose, *Lords of the Fly* is not only a must read for anglers of all stripes, but also for those interested in the desperate yearning of the human condition.
