*Moki Macaroni A Penguin Story* Sledgepainter Books,2020-07-22 A young, newly hatched penguin suffers a tumble on some slippery ice, falling into water and developing a fear of swimming. But when one of his friends gets into serious trouble, will he be able to overcome his fears in order to save them? This is a fun, heartwarming story about a macaroni penguin meant for early readers grades 2+ (ages 7+). It would make a great multi-day bedtime story or a chapter book for young early readers getting ready for larger, longer stories (but without too big of words to understand). Rated PG for everyone. The main themes covered are: Peer Pressure Overcoming & Dealing with Personal Fears Friendships Believing in Yourself

**Professor Penguin** Lloyd Spencer Davis,2014-10-17 Meet 'Bill Bryson in Antarctica' in this engaging book by one of the world's authority on penguins. Part memoir, partly the research of a field biologist, Professor Penguin could be called 'How Penguins Shaped My Life'. Based on journals kept during Davis's years of working with penguins in the wild, the story takes readers to remote locations: Antarctica, the Galapagos, the deserts of Chile and Peru, the Falkland Islands, the wild coasts of Argentina and South Africa, and New Zealand. Davis, a world authority on penguins, reveals that these box-office favourites are not the cute 'mate for life' animals we've been led to believe. He also reveals that penguins are a lot like humans – sometimes disturbingly so – when it comes to their basic needs: sex, food, shelter, marriage, family and travel. Over the years that Davis studies penguins, he realises that they are far more complex and nuanced than he imagines at his first encounter. 'They really don't deserve to be seen as so black and white.' He expertly marries scientific knowledge with his own anecdotes – told with humour, hard-earned knowledge and insight. He also includes stories about those who have helped advance our knowledge of penguins –other 'Professor Penguins'. Implicit throughout is Davis's philosophy – the more we learn about the natural world, and specifically penguins, the more we learn about ourselves. And he asks: Is the isolation of Antarctica sufficient to protect penguins from us?

**The Adventures of Haole the Penguin** J. E. Milne,2011-04 Think of the last time you were in the snow. This is the story of Haole, a bird that can't fly but surfs fifty foot waves in Antarctica and is about to make the most important discovery of his life - The inner game of surfing -The magic that makes life a game. The Adventures of Haole the Penguin begin on a floating slab of ice connected to the Antarctic mainland and pummeled by massive storm waves all winter. It's a hell of a place to live, but the penguins call it home. They spend their time divided between fishing, staying warm, and gossiping about one another.This was the penguin's entire universe. No penguin ever ventured outside of this landscape and the few miles of ocean that surround it. On several occasions Haole had asked his mother about this very thing. One time it was while they stood together, watching a storm approach over the cliffs to the west. What's past those cliffs? Haole asked innocently. Just more ice, his mother had responded automatically. She used to seem so big to Haole, towering above him, but since he had his growth spurt she didn't seem so huge. She was just a little taller than him now. The answer didn't satisfy him. Well, what's beyond that? he persisted innocently. Even more ice, she said firmly, then added and more cliffs. There was a long pause as Haole doubted for a second that his mom knew everything. Mom? What is it, Haole? She looked at him sweetly. Well, what's beyond that? He was going to repeat the question until he got an answer other than 'ice.' His mother's feathers ruffled. Why don't you spend your time thinking about more important things? she gently scolded him. Like what? he asked, although he already knew the answer. Like fishing, she said predictably. Haole, one of these days very soon you are going to have to stop all of your dreaming and start keeping your mind on practical matters. You are growing up. See what I mean, Dear reader? Haole does not fit in. He is convinced there must be more to life than fish and gossip and aches to discover the worlds' mysteries. Synchronicity steps in as he stumbles upon something else, something magical that he likes to do in his free time. The other penguins think this is absurd. What else is there except fish, fishing, and staying warm... except staying away from the killer whales and leopard seals? Well, Haole happens on this other thing quite by accident as he is coming back to the ice sheet from fishing one day. While swimming out by the reef during a storm he has his first glimpse of this magic when he learns to surf in a freak encounter with a hungry killer whale and a huge rogue-wave! This begins a trail of discovery for Haole that leads him to run away from home, traveling the South Pacific riding perfect waves. He and his friend Donna travel all the way to Tahiti where they meet and take their place in an ocean-wide community of sea creatures. This is where he will face his biggest challenge and learn life's biggest lesson. Haole's story touches readers hearts because along with a compelling plot about coming of age, it genuinely conveys a love for the environment and the importance of taking personal responsibility not just for the oceans, but for one's own dreams. To put it simply it's a gripping tale of a bird finding the inner magic of life and then bringing it home with him. This book takes you surfing.
