

A Pinup Dress Up Code For Beautiful Girls

Wendy Mills

The Pin-Up Girls of World War II Brett Kiser, A Best Film Book of 2013 - The Huffington Post To the soldiers in the armed forces during World War II, the pin-up girl was more than a symbol of lust. What the fighting man needed during that tumultuous period were entities of beauty that informed them there was goodness left in this world worth fighting for. The girls who posed for pin-up purposes best represented the beauty that yet existed. So on their barracks walls were images of Betty Grable and Rita Hayworth. Painted on the outside of their aircraft were life-size copies of Jane Russell and Gene Tierney. In their duffel bags were photographs of Veronica Lake and Rochelle Hudson. These famous celebrities, by posing for the boys in the military, used their uncommon appeal to reinforce in the mind of the sailor, soldier and marine that fairness was still present and needed to be defended. Their role was not simply objects of lust, but something more profound, which informed the fighting men that America was behind them—applauded them for their patriotism and sacrifices.

Islamic Fashion and Anti-Fashion Emma Tarlo, Annelies Moors, 2013-08-15 Introducing innovative new research from international scholars working on Islamic fashion and its critics, *Islamic Fashion and Anti-Fashion* provides a global perspective on muslim dress practices. The book takes a broad geographic sweep, bringing together the sartorial experiences of Muslims in locations as diverse as Paris, the Canadian Prairie, Swedish and Italian bath houses and former socialist countries of Eastern Europe. What new Islamic dress practices and anxieties are emerging in these different locations? How far are they shaped by local circumstances, migration histories, particular religious traditions, multicultural interfaces and transnational links? To what extent do developments in and

debates about Islamic dress cut across such local specificities, encouraging new channels of communication and exchange? With original contributions from the fields of anthropology, fashion studies, media studies, religious studies, history, geography and cultural studies, *Islamic Fashion and Anti-Fashion* will be of interest to students and scholars working in these fields as well as to general readers interested in the public presence of Islam in Europe and America.

Swimming in the Steno Pool: A Retro Guide to Making It in the Office Lynn Peril, 2011-04-25 Feed your boss's ego. Dress for success. And don't let your heels trip you up on the corporate ladder. Millions of women have held the position of secretary, alternately lauded as a breakthrough opportunity and excoriated as dead-end busy work. From the female pioneers who infiltrated Capitol Hill offices during the Civil War to today's tech-savvy administrative assistants, secretaries have withstood criticism for abandoning their rightful sphere (the home), weathered the dubious advice of secretarial guide-books, taken hits from feminists and antifeminists alike, and demanded the right to resist making coffee—all while making their bosses look good. In *Swimming in the Steno Pool*, author-secretary Lynn Peril profiles the various incarnations of the secretary, from pliable, sexy mate of the office husband to postfeminist executive-in-training, drawing inspiration from a wide range of femorabilia and secretarial guidebooks of yesteryear. Featuring an array of fabulous illustrations promoting office equipment and office girls alike, Peril delivers a feisty, witty celebration of the women who've been running the show for decades.

It's always just been Erin and Mom, so living without her is not an option. Life takes another turn when the cancer is linked to a rare genetic mutation, and Erin must grapple with the decision of whether or not to have her own DNA tested. Her only outlets are flying lessons, where looking to the horizon calms her deepest fears, and her new friend Ashley, a girl she met in an online support group. But when a flash decision has Erin flying away to find her new friend, she embarks on a journey from the depths of despair to new love and a better understanding of the true meaning of beauty. This thought-provoking story brings readers to the emotional brink and back again, as they experience Erin's fear, her frustration, and ultimately . . . her freedom.

Intersectional Feminist Readings of Comics

Sandra Cox, 2021-09-20 Intersectional Feminist Readings of Comics collects several theoretically informed close reading of comics and graphic literature that apply an intersectional feminist lens to the interpretation of several contemporary North American graphic narratives. The essays examine use a range of interpretive lenses drawn from theoretical models used in contemporary aesthetics, media studies, and literary criticism to analyze mainstream figures like DC's Catwoman and Marvel's Miss America and Doctor Strange, to contextualize historical and speculative comics by Indigenous American illustrators, and to explicate autography by critically lauded Jewish, queer and female cartoonists. In the first half of the book, the chapters examine ways in which superhero comics and the cinematic and televisual adaptations thereof, reify, revise and reject gender parity, systemic misogyny and

heteropatriarchy through visual and textual rhetorics of representation. In the second part of the volume, the chapters look at the ways that feminist interpretive practices illuminate the radical work undertaken by cartoonists from historically marginalized communities in the U.S. and Canada. Across both halves, readers will find applications of longstanding feminist critical traditions, like ecofeminism, as well as new intersectional extrapolations of narratology, autobiographical studies, and visual rhetoric, which have been applied to the selected comics in insightful and innovative ways. This is a lively and varied collection suitable for students and scholars in gender studies, cultural studies, media studies and literary studies.

Hollywood War Films, 1937-1945 Michael S.

Shull, 2006-07-27 From 1937 through 1945, Hollywood produced over 1,000 films relating to the war. This enormous and exhaustive reference work first analyzes the war films as sociopolitical documents. Part one, entitled "The Crisis Abroad, 1937-1941," focuses on movies that reflected America's increasing uneasiness. Part two, "Waging War, 1942-1945," reveals that many movies made from 1942 through 1945 included at least some allusion to World War II.

Dressing with Purpose Carrie Hertz, 2021-12-21 Dress helps us fashion identity, history, community, and place. Dress has been harnessed as a metaphor for both progress and stability, the exotic and the utopian, oppression and freedom, belonging and resistance. *Dressing with Purpose* examines three Scandinavian dress traditions—Swedish folkdräkt, Norwegian bunad, and Sámi gákti—and traces their development during two centuries of social and political change across northern Europe. By the 20th century, many in Sweden worried about the ravages of industrialization, urbanization, and emigration on traditional ways of life. Norway was gripped in a struggle for national independence. Indigenous Sámi communities—artificially divided by national borders and long resisting colonial control—rose up in protests that demanded political recognition and sparked cultural renewal. Within this context of European nation-building, colonial expansion, and Indigenous activism, traditional dress took on special meaning as folk, national, or ethnic minority costumes—complex categories that deserve reexamination today. Through lavishly illustrated and richly detailed case studies, *Dressing with Purpose* introduces readers to individuals who adapt and revitalize dress traditions to articulate who they are, proclaim personal values and group allegiances, strive for sartorial

excellence, reflect critically on the past, and ultimately, reshape the societies they live in.

Breaking the Gender Code Georgina

Hickey, 2023-12-12 A history of the activism that made public spaces in American cities more accessible to women. From the closing years of the nineteenth century, women received subtle—and not so subtle—messages that they shouldn't be in public. Or, if they were, that they were not safe. *Breaking the Gender Code* tells the story of both this danger narrative and the resistance to it. Historian Georgina Hickey investigates challenges to the code of urban gender segregation in the twentieth century, focusing on organized advocacy to make the public spaces of American cities accessible to women. She traces waves of activism from the Progressive Era, with its calls for public restrooms, safe and accessible transportation, and public accommodations, through and beyond second-wave feminism, and its focus on the creation of alternative, women-only spaces and extensive anti-violence efforts. In doing so, Hickey explores how gender segregation intertwined with other systems of social control, as well as how class, race, and sexuality shaped activists' agendas and women's experiences of urban space. Drawing connections between the vulnerability of women in public spaces, real and presumed, and contemporary debates surrounding rape culture, bathroom bills, and domestic violence, Hickey unveils both the strikingly successful and the incomplete initiatives of activists who worked to open up public space to women.

Television for Women Rachel Moseley, Helen Wheatley, Helen Wood, 2016-11-10 *Television for Women*

brings together emerging and established scholars to reconsider the question of 'television for women'. In the context of the 2000s, when the potential meanings of both terms have expanded and changed so significantly, in what ways might the concept of programming, addressed explicitly to a group identified by gender still matter? The essays in this collection take the existing scholarship in this field in significant new directions. They expand its reach in terms of territory (looking beyond, for example, the paradigmatic Anglo-American axis) and also historical span. Additionally, whilst the influential methodological formation of production, text and audience is still visible here, the new research in *Television for Women* frequently reconfigures that relationship. The topics included here are far-reaching; from television as material culture at the British exhibition in the first half of the twentieth century, women's roles in television production past and present, to popular 1960s television such as *The Liver Birds* and, in the twenty-first century, highly successful programmes including *Orange is the New Black*, *Call the Midwife*, *One Born Every Minute* and *Wanted Down Under*. This book presents ground-breaking research on historical and contemporary relationships between women and television around the world and is an ideal resource for students of television, media and gender studies.

Marauders in the Mist J.K. Havener, 2021-06-30 This account of one man's experience flying the much-maligned medium bomber of WW II, the Martin B-26 Marauder, embraces about half the total time span of the war but only a fraction of the area involved - the American and European Theaters of Operation.

Women and Other Monsters Jess Zimmerman, 2021-03-09 A fresh cultural analysis of female monsters from Greek mythology, and an invitation for all

women to reclaim these stories as inspiration for a more wild, more “monstrous” version of feminism. The folklore that has shaped our dominant culture teems with frightening female creatures. In our language, in our stories (many written by men), we underline the idea that women who step out of bounds—who are angry or greedy or ambitious, who are overtly sexual or not sexy enough—aren’t just outside the norm. They’re unnatural. Monstrous. But maybe, the traits we’ve been told make us dangerous and undesirable are actually our greatest strengths. Through fresh analysis of 11 female monsters, including Medusa, the Harpies, the Furies, and the Sphinx, Jess Zimmerman takes us on an illuminating feminist journey through mythology. She guides women (and others) to reexamine their relationships with traits like hunger, anger, ugliness, and ambition, teaching readers to embrace a new image of the female hero: one that looks a lot like a monster, with the agency and power to match. Often, women try to avoid the feeling of monstrousness, of being grotesquely alien, by tamping down those qualities that we’re told fall outside the bounds of natural femininity. But monsters also get to do what other female characters—damsels, love interests, and even most heroines—do not. Monsters get to be complete, unrestrained, and larger than life. Today, women are becoming increasingly aware of the ways rules and socially constructed expectations have diminished us. After seeing where compliance gets us—harassed, shut out, and ruled by predators—women have never been more ready to become repellent, fearsome, and ravenous.
