*Rules of Play* Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and

Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

**Under the Lights and In the Dark** Gwendolyn Oxenham, 2017-07-06 Under the Lights and in the Dark: Untold Stories of Women's Soccer takes an unprecedented look inside the lives of professional football players around the world – from precarious positions in underfunded teams and leagues, to sold-out stadiums and bright lights. Award-winning filmmaker and journalist Gwendolyn Oxenham tells the stories of the phenoms, underdogs, and nobodies – players willing to follow the game wherever it takes them. Under the Lights and in the Dark takes us inside the world of women's soccer, following players across the globe, from Portland Thorns star Allie Long, who trains in an underground men's league in New York City; to English national Fara Williams, who hid her homelessness from her teammates while playing for the English national team. Oxenham takes us to Voronezh, Russia, where players battle more than just snowy pitches in pursuing their dream of playing pro, and to a refugee camp in Denmark, where Nadia Nadim, now a Danish international star, honed her skills after her family fled from the Taliban. Whether you're a newcomer to the sport or a die-hard fan, this is an inspiring book about stars' beginnings and adventures, struggles and hardship, and, above all, the time-honored romance of the game.

Illogical Emmanuel Acho, 2022-03-22 From the New York Times bestselling author of Uncomfortable Conversations with a Black Man, a call to break through our limits and say yes to a life of infinite possibility. You may know Emmanuel Acho as the host of groundbreaking video series "Uncomfortable Conversations with a Black Man." Or as a New York Times bestselling author. Or as an Emmy-winning television broadcaster. Or as a former linebacker for two NFL franchises. What you probably don't know is that Emmanuel defines his own life with just one word: Illogical. Behind every triumph, every expression of his gifts, Acho has had to ignore what everyone around him called "logic": the astronomical odds against making it, the risks of continuing to dream bigger or differently. Instead of playing it safe, at every turn Acho has thrown conventional wisdom—logic—out the window. Now, in this revelatory book, he's empowering us all to do the same. Whether it's creating the next groundbreaking startup, fighting for change as an activist, or committing to a personal passion, Illogical is the go-to book for all readers ready to become change-makers. With a step-by-step guide to finding our callings and shifting our mindsets, enlivened by stories from Acho's life and other illogical pioneers, and the Bible, Acho asks us to replace the limits set for us, and which we set for ourselves, with a world of possibility. Our horizons, he shows us, are endless.
