Mankiller Wilma Mankiller,Michael Wallis,2019-01-29 In this spiritual, moving autobiography, Wilma Mankiller, former Chief of the Cherokee Nation and a recipient of the Presidential Medal of Freedom, tells of her own history while also honoring and recounting the history of the Cherokees. Mankiller's life unfolds against the backdrop of the dawning of the American Indian civil rights struggle, and her book becomes a quest to reclaim and preserve the great Native American values that form the foundation of our nation. Now featuring a new Afterword to the 2000 paperback reissue, this edition of Mankiller completely updates the author's private and public life after 1994 and explores the recent political struggles of the Cherokee Nation.

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men’s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African ‘tradition’ that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
