The Acquirer's Multiple Tobias E. Carlisle,2017-10-16 The Acquirer's Multiple: How the Billionaire Contrarians of Deep Value Beat the Market is an easy-to-read account of deep value investing. The book shows how investors Warren Buffett, Carl Icahn, David Einhorn and Dan Loeb got started and how they do it. Carlisle combines engaging stories with research and data to show how you can do it too. Written by an active value investor, The Acquirer's Multiple provides an insider's view on deep value investing.The Acquirer's Multiple covers: How the billionaire contrarians invest How Warren Buffett got started The history of activist hedge funds How to Beat the Little Book That Beats the Market A simple way to value stocks: The Acquirer's Multiple The secret to beating the market How Carl Icahn got started How David Einhorn and Dan Loeb got started The 9 rules of deep value The Acquirer's Multiple: How the Billionaire Contrarians of Deep Value Beat the Market provides a simple summary of the way deep value investors find stocks that beat the market.

Screening the Market Gerstein,2002-10-01

STOCK SCREENER CRITERIA Trading Academy,2022-07-08 NOW IT'S TIME TO CHANGE YOUR LIFE! Book in a hard discount for a few days!!

The Unusual Billionaires Saurabh Mukherjea,2016-08-17 What makes a company truly outstanding? What is the secret sauce of delivering successful results over multiple decades? What is common to Asian Paints, HDFC Bank, Axis Bank, Marico, Berger Paints, Page Industries and Astral Poly? They are Unusual Companies, built by Unusual Billionaires. This book tells the story of these seven companies, handpicked out of 5000 listed on the stock exchange. Built by visionary business leaders, they have delivered outstanding results for a decade and more. How did these companies do it? Why couldn't this be replicated by other companies?

What are they doing differently? Saurabh Mukherjea, bestselling author of *Gurus of Chaos*, delivers an exceptional book with lessons to learn from these seven businesses. Mukherjea tells you why focusing on the core business is central to corporate success and how a promoter giving up control to the top management could be a boon. He also explains how investors can generate market-beating investment returns from identifying companies such as these using a simple set of metrics. Packed with these learnings are riveting corporate stories of how Hindustan Unilever made an aggressive bid to buy Harsh Mariwala's business, but had to sell a business to him in a few years, or how Page Industries found an innovative way to stop unionization at their manufacturing units. Other stories include the turnaround of Axis Bank and the boardroom coup that led to its chairman's exit and how Vijay Mallya sold Berger Paints to the Dhingra brothers. This book is mandatory reading for anyone who wants to understand how business is done successfully in India.

Deep Value Tobias E. Carlisle, 2014-08-18 The economic climate is ripe for another golden age of shareholder activism *Deep Value: Why Activist Investors and Other Contrarians Battle for Control of Losing Corporations* is a must-read exploration of deep value investment strategy, describing the evolution of the theories of valuation and shareholder activism from Graham to Icahn and beyond. The book combines engaging anecdotes with industry research to illustrate the principles and methods of this complex strategy, and explains the reasoning behind seemingly incomprehensible activist maneuvers. Written by an active value investor, *Deep Value* provides an insider's perspective on shareholder activist strategies in a format accessible to both professional investors and laypeople. The *Deep Value* investment philosophy as described by Graham initially identified targets by their discount to liquidation value. This approach was extremely effective, but those opportunities are few and far between in the modern market, forcing activists to adapt. Current activists assess value from a much broader palate, and exploit a much wider range of tools to achieve their goals. *Deep Value* enumerates and expands upon the resources and strategies available to value investors today, and describes how the economic climate is allowing value investing to re-emerge. Topics include: Target identification, and determining the most advantageous ends Strategies and tactics of effective activism Unseating management and fomenting change Eyeing conditions for the next M&A boom Activist hedge funds have been quiet since the early 2000s, but economic conditions, shareholder sentiment, and available opportunities are creating a fertile environment for another golden age of activism. *Deep Value: Why Activist Investors and Other Contrarians Battle for Control of Losing Corporations* provides the in-depth information investors need to get up to speed before getting left behind.

Trade Like a Stock Market Wizard: How to Achieve Super Performance in Stocks in Any Market Mark Minervini, 2013-04-19 Minervini has run circles around most PhDs trying to design systems to beat the market. -- JACK SCHWAGER, bestselling author of *Stock Market Wizards* Mark's book has to be on every investor's bookshelf. It is about the most comprehensive work I have ever read on investing in growth stocks. -- DAVID RYAN, three-time U.S. Investing Champion [Minervini is] one of the most highly respected independent traders of our generation. His experience and past history of savvy market calls is legendary. -- CHARLES KIRK, *The Kirk Report* One of Wall Street's most remarkable success stories. -- BEN POWER, *Your Trading Edge* THE INVESTOR'S GUIDE TO SUPERPERFORMANCE! Dramatically increase your stock market returns with the legendary SEPA system! For the first time ever, U.S. Investing Champion Mark Minervini reveals the proven, time-tested trading system he used to achieve triple-digit returns for five consecutive years, averaging 220% per year for a 33,500% compounded total return. In *Trade Like a Stock Market Wizard*, Minervini unveils his trademarked stock market method SEPA, which provides outsized returns in virtually every market by combining careful risk management, self-analysis, and perseverance. He explains in detail how to select precise entry points and preserve capital—for consistent triple-digit returns. Whether you're just getting started in the stock market or you're a seasoned pro, Minervini will show you how to achieve SUPERPERFORMANCE! You'll gain valuable knowledge as he shares lessons, trading truths, and specific tactics—all derived from his 30-year career as one of America's most successful stock traders. *Trade Like a Stock Market Wizard* teaches you: How to find the best stocks before they make big price gains How to avoid costly mistakes made by most investors How to manage losses and protect profits How to avoid high-risk situations Precisely when to buy and when to sell How to buy an IPO Why traditional valuation doesn't work for fast-growing Superperformers Examples of Minervini's personal trades with his comments With more than 160 chart examples and numerous case studies proving the remarkable effectiveness of Minervini's methodology, *Trade Like a Stock Market Wizard* puts in your hands one of the most effective and—until now—secretive stock investing systems in the world. MARK MINERVINI has a trademarked stock market method that produces outsized returns in virtually every market. It's called Specific Entry Point Analysis--SEPA--and it has been proven effective for selecting precise entry points, preserving capital and profits with even more precise exit points--and consistently producing triple-digit returns. Now, in *Trade Like a Stock Market Wizard*, Minervini shares--for the first time ever--his coveted methodology with investors like you!

Stock Investing For Dummies® Paul Mladjenovic, 2009-01-27 *Stock Investing For Dummies*, 3rd Edition includes information on stock investing in both bear and bull markets; unique investment segments; stock investing for different types of situations; and examples straight from the real world of stock investing as they have occurred in the past three years.

The Zulu Principle Jim Slater, 2010 Jim Slater's classic text made available once more Jim Slater makes available to the investor - whether the owner of only a few shares or an experienced investment manager with a large portfolio - the secrets of his success. Central to his strategy is *The Zulu Principle*, the benefits of homing in on a relatively narrow area. Deftly blending anecdote and analysis, Jim Slater gives valuable selective criteria for buying dynamic growth shares, turnarounds, cyclical, shells and leading shares. He also covers many other vitally relevant aspects of investment such as creative accounting, portfolio management, overseas markets and the investor's relationship with his or her broker. From *The Zulu Principle* you will learn exactly when to buy shares and, even more important, when to sell - in essence, how to make 'extraordinary profits from ordinary shares'.

Coffee Can Investing Saurabh Mukherjea, Rakshit Ranjan, Pranab Uniyal, 2018-02-23 Most people invest in the usual assets: real estate, gold, mutual funds, fixed deposits and stock markets. It's always the same four or five instruments. All they end up making is a measly 8 to 12 per cent per annum. Those who are exceptionally unfortunate get stuck in the middle of a crash and end up losing a lot of money. What if there was another way? What if you could make not 10 not 15 but 20 per cent compound annual growth rate (CAGR) on your investments? What if there was a way to grow your money four to five times whilst taking half the risk compared to the overall market? Bestselling author of *Gurus of Chaos* and *The Unusual Billionaires*, Saurabh Mukherjea puts his money where his mouth is. Saurabh follows the Coffee Can approach to high-quality, low-risk investing. His firm, Ambit Capital, is one of the largest wealth managers in India which invests with this approach and delivers stupendous returns. In *Coffee Can Investing*, Saurabh will show you how to go about low-risk investments that generate great returns.

Benjamin Graham's Net-Net Stock Strategy Evan Bleker, 2020-07-14 IN 1975, legendary value investor Benjamin Graham wrote that his net-net stock strategy worked so well that he had renounced all other value investing strategies. In his 2014 shareholder letter, Warren Buffett wrote that he earned the highest returns of his career employing this 'cigar butt' approach to investing. And despite the widespread assumption that net-net stocks are a relic of the past, Graham's net-net stock strategy is just as viable today for small private investors as it was for Buffett's 'superinvestors' during their early careers. Net-net investing remains the most powerful value investing approach a small investor can adopt. This book is your ultimate practical guide to implementing it - and reaping the rewards - in today's markets. Evan Bleker has spent ten years studying Graham's strategy to uncover its real-world performance, how to employ it, and why it works. He's also dug deeply to identify additional criteria to boost returns and ensure a greater number of winners. In this book, Evan defines the strategy for investors, then walks readers through the strategy's philosophy, as well as academic and industry studies assessing the framework, and its implementation by world-class value investors such as Benjamin Graham, Warren Buffett, and Peter Cundill. He also compiles selection criteria into a practical checklist for investors, and documents how the strategy works in today's markets with exclusive detailed case studies.

One Up On Wall Street Peter Lynch, John Rothchild, 2000-04-03 THE NATIONAL BESTSELLING BOOK THAT EVERY INVESTOR SHOULD OWN Peter Lynch is America's number-one money manager. His mantra:

Average investors can become experts in their own field and can pick winning stocks as effectively as Wall Street professionals by doing just a little research. Now, in a new introduction written specifically for this edition of One Up on Wall Street, Lynch gives his take on the incredible rise of Internet stocks, as well as a list of twenty winning companies of high-tech '90s. That many of these winners are low-tech supports his thesis that amateur investors can continue to reap exceptional rewards from mundane, easy-to-understand companies they encounter in their daily lives. Investment opportunities abound for the layperson, Lynch says. By simply observing business developments and taking notice of your immediate world -- from the mall to the workplace -- you can discover potentially successful companies before professional analysts do. This jump on the experts is what produces tenbaggers, the stocks that appreciate tenfold or more and turn an average stock portfolio into a star performer. The former star manager of Fidelity's multibillion-dollar Magellan Fund, Lynch reveals how he achieved his spectacular record. Writing with John Rothchild, Lynch offers easy-to-follow directions for sorting out the long shots from the no shots by reviewing a company's financial statements and by identifying which numbers really count. He explains how to stalk tenbaggers and lays out the guidelines for investing in cyclical, turnaround, and fast-growing companies. Lynch promises that if you ignore the ups and downs of the market and the endless speculation about interest rates, in the long term (anywhere from five to fifteen years) your portfolio will reward you. This advice has proved to be timeless and has made One Up on Wall Street a number-one bestseller. And now this classic is as valuable in the new millennium as ever.

The Perfect Stock Brad Koteswar,2004-09-01 This book perfectly illustrates why most people lose in the stock market, even when tremendous opportunities are presented to them. A spectacular move of over 7000% in 52 weeks was offered to the public and still the vast majority of the public either lost money or did not make any significant gains on the stock. Only a handful of the insiders made money on the move. Written as a fiction surrounding such a stock, the book offers simple lessons to the lay person about how to improve one's odds for success in the stock market, and it does so with an entertaining and enlightening storyline. The story offers an insight into the rewarding way Wall Street works for the insiders and how it shows a different face to the outsiders.

High Returns from Low Risk Pim van Vliet,Jan de Koning,2017-01-17 Believing high-risk equals high-reward is holding your portfolio hostage High Returns from Low Risk proves that low-volatility, low-risk portfolios beat high-volatility portfolios hands down, and shows you how to take advantage of this paradox to dramatically improve your returns. Investors traditionally view low-risk stocks as safe but unprofitable, but this old canard is based on a flawed premise; it fails to see beyond the monthly horizon, and ignores compounding returns. This book updates the thinking and brings reality to modelling to show how low-risk stocks actually outperform high-risk stocks by an order of magnitude. Easy to read and easy to implement, the plan presented here will help you construct a portfolio that delivers higher returns per unit of risk, and explains how to achieve excellent investment results over the long term. Do you still believe that investors are rewarded for bearing risk, and that the higher the risk, the greater the reward? That old axiom is holding you back, and it is time to start seeing the whole picture. This book shows you, through deep historical simulation, how to reap the rewards of smarter investing. Learn how and why low-risk, low-volatility stocks beat the market Discover the formula that outperforms Greenblatt's Construct your own low-risk portfolio Select the right ETF or low-risk fund to manage your money Great returns and lower risk sound like a winning combination — what happens once everyone is doing it? The beauty of the low-risk strategy is that it continues to work even after the paradox is widely known; long-term investment success is possible for anyone who can shake off the entrenched wisdom and go low-risk. High Returns from Low Risk provides the proof, model and strategy to reign in your exposure while raking in the profit.

The Value Connection Marc H. Gerstein,2003-10-07 A market beating method for finding success in trading stocks Value is a concept that frequently eludes investors -- especially when it comes to stocks. In many cases, successfully identifying value can make the difference between picking a winner and getting burned. The Value Connection offers a systematic and doable method investors can use to take advantage of value in the stock market. Based on author Marc Gerstein's Value Connection method, this book will show investors how to find potentially attractive value connections, analyze specific situations to see if the value connection is sound, buy the best value connected opportunities, and sell stocks for which the value connection has weakened. The proven four-step method outlined -- which allows investors to understand the relationship between a company and its stock -- will help any investor screen the stock market for the best values out there. Real world examples make understanding this revolutionary investing method easy. Marc H. Gerstein (New York, NY) is the Director of Investment Research at Multex. Prior to that, he was in the research and editorial department at Value Line. Over the course of two decades he analyzed stocks across a wide variety of industries and sectors, including household products, specialty retail, restaurants, mining, energy, hotel/gaming, homebuilding, airlines, railroads, and media. Gerstein appears periodically on CNNfn, Bloomberg TV, and is often quoted in USA Today, CBS MarketWatch, The Wall Street Journal, The New York Daily News, and Money Online. He is also the author of Screening the Market (0-471-21559-7).

A Stock Screener Introduction

In the digital age, access to information has become easier than ever before. The ability to download A Stock Screener has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download A Stock Screener has opened up a world of possibilities. Downloading A Stock Screener provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading A Stock Screener has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download A Stock Screener. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading A Stock

Screener. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading A Stock Screener, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download A Stock Screener has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
