Foundations for Community Health Workers Tim Berthold, Alma Avila, Jennifer Miller, 2009-08-13 Foundations for Community Health Workers Foundations for Community Health Workers is a training resource for client- and community-centered public health practitioners, with an emphasis on promoting health equality. Based on City College of San Francisco's CHW Certificate Program, it begins with an overview of the historic and political context informing the practice of community health workers. The second section of the book addresses core competencies for working with individual clients, such as behavior change counseling and case management, and practitioner development topics such as ethics, stress management, and conflict resolution. The book's final section covers skills for practice at the group and community levels, such as conducting health outreach and facilitating community organizing and advocacy. Praise for Foundations for Community Health Workers This book is the first of its kind: a manual of core competencies and curricula for training community health workers. Covering topics from health inequalities to patient-centered counseling, this book is a tremendous resource for both scholars of and practitioners in the field of community-based medicine. It also marks a great step forward in any setting, rich or poor, in which it is imperative to reduce health disparities and promote genuine health and well-being. Paul E. Farmer, MD., PhD, Maude and Lillian Presley Professor of Social Medicine in the Department of Global Health and Social Medicine at Harvard Medical School; founding director, Partners In Health. This book is based on the contributions of experienced CHWs and advocates of the field. I am confident that it will serve as an inspiration for many CHW training programs. Yvonne Lacey, CHW, former coordinator, Black Infant Health Program, City of Berkeley Health Department; former chair, CHW Special Interest Group for the APHA. This book masterfully integrates the knowledge, skills, and abilities required of a CHW through storytelling and real life case examples. This simple and elegant approach brings to life the intricacies of the work and espouses the spirit of the role that is so critical to eliminating disparities a true model educational approach to emulate. Gayle Tang, MSN, RN., director, National Linguistic and Cultural Programs, National Diversity, Kaiser Permanente Finally, we have a competency-based textbook for community health worker education well informed by seasoned CHWs themselves as well as expert contributors. Donald E. Proulx, CHW National Education Collaborative, University of Arizona

The Image of the City Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

The Struggle for Land Under Israeli Law Hadeel S. Abu Hussein, 2021-11-29 This book provides a comprehensive examination of land law for Arab Palestinians under

Israeli law. Land is one of the core resources of human existence, development and activity. Therefore, it is also a key basis of political power and of social and economic status. Land regimes and planning regulations play a dynamic role in deciding how competing claims over resources will be resolved. According to legal geography, spatial ordering impacts legal regimes; whilst legal rules form social and human space. Through the lenses of international law, colonisation and legal geography, the book examines the land regime in Israel. More specifically, it endeavours to understand the spatial strategies adopted by Israel to organise the entire territorial expanse of the country as Jewish, while also excluding Arab Palestinian citizens of Israel and residents of East Jerusalem from the landscape. The book then details how the systematic nature and processes of marginalisation are mapped out across the civil, political and socio-economic landscape. This monograph will be of interest to international legal theorists, legal geographers, land lawyers and human rights practitioners and students; as well as to international scholars, NGOs and others focusing on the Israeli–Palestinian conflict.
