War Bows Mike Loades,2019-02-21 War bows dominated battlefields across the world for centuries. In their various forms, they allowed trained archers to take down even well-armoured targets from great distances, and played a key role in some of the most famous battles in human history. The composite bow was a versatile and devastatingly effective weapon, on foot, from chariots and on horseback for over a thousand years, used by cultures as diverse as the Hittites, the Romans, the Mongols and the Ottoman Turks. The Middle Ages saw a clash between the iconic longbow and the more technologically sophisticated crossbow, most famously during the Hundred Years War, while in Japan, the samurai used the yumi to deadly effect, unleashing bursts of arrows from their galloping steeds. Historical weapons expert Mike Loades reveals the full history of these four iconic weapons that changed the nature of warfare. Complete with modern ballistics testing, action recreations of what it is like to fire each bow and a critical analysis of the technology

and tactics associated with each bow, this book is a must-have for anyone interested in ancient arms.

Archery Dawson Albert, 2019-05-29 How To Hit A Bull's Eye In A Day With The Royal Discipline Of Archery "An archer cannot hit the bullseye if he doesn't know where the target is." Did you ever wish you could shoot arrows like Robin Hood, Hawkeye or Katniss Everdeen? Whenever you watch the Lord of the Rings, you imagine how powerful it must be to step in the shoes of Legolas... ..face your target ...draw back your bowand just shoot. Yet, you push the thought into the corner of stupid childhood dreams, knowing archery is just for entertaining movie scenes. You are wrong. The medieval way of hunting turned into a royal discipline for everyone who wants to improve their confidence and become quicker than the fastest animal in the world. Yes, your laser-sharp focus could even help you catch a cheetah. Yet, archery is much more than just a safari hunt. Archery was one of the first disciplines in the Olympic games and the latest gold medal winner Ku-Bon-Chan proves why it is a tough sport that needs practice and the right strategy. Becoming the next Legolas requires much more than randomly picking an arrow from your quiver. And even if you just want to rediscover your inner child, it is much more fun to shoot arrows in the woods if you know how to hit your

target. No one wants to miss their goal. Good thing, if you follow this simple but effective plan to get to the next level, you can improve your skill set within just one practice. How many times have you started on something and given up within a week because you got frustrated? A lot of people share this story. They start a new thing without any knowledge and expect themselves to be perfect within the first couple of shots. Perfection might never be possible in the golden sports of archery. Yet, you can instantly succeed and hit your first target if you know how. In "Archery", you'll discover:

- How to start your Legolas journey and bring Lord of the Rings into reality
- What are the Dos and Don'ts to build a strong foundation in archery
- How to make sure your arrow doesn't hit your neighbor's dog
- Where to look for the bullseye
- How to practice without even touching your bow and arrow
- 9 common mistakes to avoid and take the shortcut to success
- Which bow will turn archery into a piece of cake
- How to maintain your golden instrument
- Tournaments for everyone from absolute beginner to Olympic star
- How much pocket money you need to become an archer

And much more. No matter if you want to go at your own pace and enjoy some exercise or if you want to become an Olympian. If you want to increase confidence, focus and quick response time, archery is your sport. Even if you are the most uncoordinated person in the world, the given strategies will help you to catch your perfect meal next time you are lost in the woods. Give it a shot, draw your bow and know how to shoot. Every childhood dream starts

with the first action. Stop dreaming and start doing!

The Longbow Mike Loades,2013-09-20 An iconic medieval missile weapon, the deadly longbow made possible the English victories at Crecy and Poitiers at the height of the Hundred Years' War. The longbow was the weapon at the heart of the English military ascendancy in the century after 1340. Capable of subjecting the enemy to a hail of deadly projectiles, the longbow in the hands of massed archers made possible the extraordinary victories enjoyed by English forces over superior numbers at Crécy and Poitiers, and remained a key battlefield weapon throughout the Wars of the Roses and beyond. It also played a leading role in raiding, siege and naval warfare. Its influence and use spread to the armies of Burgundy, Scotland and other powers, and its reputation as a cost-effective and easily produced weapon led to calls for its widespread adoption among the nascent armies of the American Republic as late as the 1770s.

The Book of Archery George Agar Hansard,1841 In the Paleolithic era, over

250,000 years ago, archery was invented. With bows and arrows made from wood (mostly pine), archery was presumably used only for hunting. As technology advanced, stone arrowheads were fashioned on the ends of arrows, making them more effective. Archery arrived in the Americas around 2,500 BC. While archery was mostly used for hunting, the tribes of the Southern United States created a game that involved shooting arrows into a moving hoop. The Indian tribes of the Great Plains were the first to become adept at archery on horseback. During the Iron Age, Babylonians and Assyrians used archery in warfare. Just as Native American tribes learned to perfect archery on horses, these peoples became skilled in archery on moving war chariots. Into the Middle Ages, European warfare relied heavily on both skilled and unskilled archers. Implementing mass archery tactics during the Crusades, the English invented their own bow, the English long bow, one of the most popular styles to this day. Today, archery is an Olympic sporting event, a skill used in recreational hunting, and somewhat of a lost art. Recently, archery has become a bit of a fad in America and the United Kingdom because of the rise in popular culture of archers like Robin Hood, Green Arrow and The Hunger Games' Katniss Everdeen.
