**Fragmented Democracy** Jamila Michener,2018-03-22 Medicaid is the single largest public health insurer in the United States, covering upwards of 70 million Americans. Crucially, Medicaid is also an intergovernmental program that yokes poverty to federalism: the federal government determines its broad contours, while states have tremendous discretion over how Medicaid is designed and implemented. Where some locales are generous and open handed, others are tight-fisted and punitive. In *Fragmented Democracy*, Jamila Michener demonstrates the consequences of such disparities for democratic citizenship. Unpacking how federalism transforms Medicaid beneficiaries' interpretations of government and structures their participation in politics, the book examines American democracy from the vantage point(s) of those who are living in or near poverty, (disproportionately) Black or Latino, and reliant on a federated government for vital resources.

**ULYSSES (Modern Classics Series)** James Joyce,2024-01-10 This carefully crafted ebook: ULYSSES (Modern Classics Series) is formatted for your eReader with a functional and detailed table of contents. Ulysses is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called a demonstration and summation of the entire movement. Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem Odyssey, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided Ulysses into 18 chapters or episodes. At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant, which would earn the novel immortality. James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses, the short-story collection Dubliners, and the novels A Portrait of the Artist as a Young Man and Finnegans Wake.

**High Tide in Tucson** Barbara Kingsolver,2009-03-17 There is no one quite like Barbara Kingsolver in contemporary literature, raves the Washington Post Book World, and it is right. She has been nominated three times for the ABBY award, and her critically acclaimed writings consistently enjoy spectacular commercial success as they entertain and touch her legions of loyal fans. In High Tide in Tucson, she returns to her familiar themes of family, community, the common good and the natural world. The title essay considers Buster, a hermit crab that accidentally stows away on Kingsolver's return trip from the Bahamas to her desert home, and turns out to have manic-depressive

tendencies. Buster is running around for all he's worth -- one can only presume it's high tide in Tucson. Kingsolver brings a moral vision and refreshing sense of humor to subjects ranging from modern motherhood to the history of private property to the suspended citizenship of human beings in the Animal Kingdom. Beautifully packaged, with original illustrations by well-known illustrator Paul Mirocha, these wise lessons on the urgent business of being alive make it a perfect gift for Kingsolver's many fans.

**Grime Kids** DJ Target, 2019-07-23 For fans of Wiley, Dizzee Rascal and Stormzy, Grime Kids is the definitive inside story of Grime. 'An essential read for anyone with the slightest interest in the birth of Grime' The Wire 'Sharp and nostalgic' The Observer A group of kids in the 90s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. DJ Target grew up in Bow under the shadow of Canary Wharf, with money looming close on the skyline. The 'Godfather of Grime' Wiley and Dizzee Rascal first met each other in his bedroom. They were all just grime kids on the block back then, and didn't realise they were to become pioneers of an international music revolution. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. Grime has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names. What readers are saying about Grime Kids: 'Fantastic depiction of the inception of a genre that has spanned the millennium' 'Brilliant insight in to grim music from one of the pioneers of the scene' 'This book really sums up the feeling of being a DJ perfectly'

**Teaching Writing from a Writer's Point of View** Terry Hermsen, Robert Fox, 1998 Based on a series of successful summer writing institutes, this book presents practical ways for teachers to reinvigorate their classrooms and their own attitudes toward creative writing. In four complementary sections focusing on four groups of writers--creative writers in residence, K-12 students and teachers who participated in the summer institutes, and established writers such as Ron Carlson and Scott Russell Sanders--the book demonstrates the enormous variety and high quality of writing that result when people use writing to discover what they want to say. After an introduction by Robert Fox (The Experience of Writing: A Summer Institute), the first section presents essays by Ohio writers in the schools; Doing Our Own Possibility: Journal of a Residency at Columbiana County Head Start Centers (Debra Conner); Playwriting: A Teaching Approach Using the Stories of Our Lives (Michael McGee London); Just across the Street: The Story of a Teacher-Based Residency (Lynn Powell); Translytics: Creative Writing Derived from Foreign Language Texts (Nick Muska); How to Do a Poetry Night Hike (Terry Hermsen); and Reading to a Sky of Soba (David Hassler). The second part presents poems, stories, and plays from 13 Ohio schools. The third part

presents essays from participants in the experience of writing: *When Spirit Moves*, *Children Sing* (MaryAnn Titus); *Sudden Revelation: Fiction Writing in the Classroom* (Carl H. Krauskopf III); *A Year of Writing Workshop* (Mary L. Noble); *Word Works: Building a Community of Writers* (Janice M. Gallagher); and *Green Digits and Colons: Find Time to Write* (Barry Peters). The last section presents essays from experiences of writing faculty: *Turning the Desk* (Ron Carlson); *The Singular First Person* (Scott Russell Sanders); and *Reveling in the World: An Interview with Christopher Merrill on the Power of Language and Teaching* (Terry Hermsen). **Theory and Practice in the Teaching of Composition** Miles Myers, James Gray, 1983 Intended to show teachers how their approaches to the teaching of writing reflect a particular area of research and to show researchers how the intuitions of teachers reflect research findings, the articles in this book are classified according to three approaches to writing: processing, distancing, and modeling. After an introductory essay that defines and explains the three approaches, the second part of the book contains eight articles that stress processing. These articles cover the psychology of thinking, mapping and composing, children's art, drawing as prewriting, prewriting as discovery, turning speech into writing, and the process approach and the elementary school writing curriculum. Part three, dealing with distancing, contains two articles defining talk-write as a behavioral pedagogy for composition and explaining its application in the classroom; and five articles on function categories, the composition course as the pursuit of ideas, a new curriculum in English, student writing response groups in the classroom, and the All-City High Project of the Oakland, California, school district. The articles on modeling in part four explain a generative rhetoric of the sentence, sentence modeling, voices in reading and writing, paraphrases of professionals in writing classes, the importance of reason in writing, and the superiority of showing over telling. The relationship between the teacher and the researcher is examined in the book's final essay. A bibliography is included. (JL)

**The Jukebox in the Garden** David Ingram, 2010 Since the rise of the contemporary ecology movement in the 1960s, American songwriters and composers, from folk singer Pete Seeger to jazz saxophonist Paul Winter, have lamented, and protested against, environmental degradation and injustice. *The Jukebox in the Garden* is the first book to survey a wide range of musical styles, including folk, country, blues, rock, jazz, electronica and hip hop, to examine the different ways in which popular music has explored American relationships between nature, technology and environmental politics. It also investigates the growing link between music and philosophical thought, particularly under the influence of both deep ecology and New Age thinking, according to which music, amongst all the arts, has a special affinity with ecological ideas. This book is both an exploration and critique of such speculations on the role that music can play in raising environmental awareness. It combines description and analysis of American popular music made during the era of modern environmentalism with a consideration of its wider social, historical and political contexts. It will be of interest to undergraduates and post-graduates in music, cultural studies and environmental studies, as well as general readers interested in popular music and the environment.
