Picturing America: Thomas Cole and the Birth of American Art Hudson Talbott,2018-09-04 This fascinating look at artist Thomas Cole's life takes readers from his humble beginnings to his development of a new painting style that became America's first formal art movement: the Hudson River school of painting. Thomas Cole was always looking for something new to draw. Born in England during the Industrial Revolution, he was fascinated by tales of the American countryside, and was ecstatic to move there in 1818. The life of an artist was difficult at first, however Thomas kept his dream alive by drawing constantly and seeking out other artists. But everything changed for him when he was given a ticket for a boat trip up the Hudson River to see the wilderness of the Catskill Mountains. The haunting beauty of the landscape sparked his imagination and would inspire him for the rest of his life. The majestic paintings that followed struck a chord with the public and drew other artists to follow in his footsteps, in the first art movement born in America. His landscape paintings also started a conversation on how to protect the country's wild beauty. Hudson Talbott takes readers on a unique journey as he depicts the immigrant artist falling in love with--and fighting to preserve--his new country.

Thomas Cole Annette Blaugrund,Franklin Kelly,Barbara Novak,2016-04-19 At the height of his career as the leader of the Hudson River School of American landscape painting, Thomas Cole listed himself in the New York City Directory as an architect. Why would this renowned painter, who had never before designed a building, advertise himself as such? The importance of Cole's paintings and the significance of his essays, poems, and philosophy are well established, yet an analysis of his architectural endeavors and their impact on his painting has not been undertaken—until now. In celebration of the recreation of the artist's self-designed Italianate studio at Cedar Grove in Catskill, New York, now the Thomas Cole National Historic Site, this book focuses on Cole's architectural interests through architectural elements found in his paintings and drawings as well as in his realized and visionary projects, expanding our understanding of the breadth of his talents and interests. An essay by noted art historian Annette Blaugrund and a contribution by Franklin Kelly, illustrated with Cole's famous works, sketches, and architectural renderings, reveal an unexplored, yet fascinating, aspect of the career of this beloved artist—and thus, a crucial moment in the development of the Hudson River School and American art. Published to coincide with the exhibition “Thomas Cole: The Artist as Architect” at the Thomas Cole National Historic Site and travelling to the Columbus Art Museum, the book adds a new dimension to scholarship on the artist.

Thomas Cole's Journey Elizabeth Mankin Kornhauser,Tim Barringer ,2018-01-29 Thomas Cole (1801–1848) is celebrated as the greatest American landscape artist of his generation. Though previous scholarship has emphasized the American aspects of his formation and identity, never before has the British-born artist been presented as an international figure, in direct dialogue with the major landscape painters of the age. Thomas Cole's Journey emphasizes the artist's travels in England and Italy from 1829 to 1832 and his crucial interactions with such painters as Turner and Constable. For the first time, it explores the artist's most renowned paintings, The Oxbow (1836) and The Course of Empire cycle (1834–36), as the culmination of his European experiences and of his abiding passion for the American wilderness. The four essays in this lavishly illustrated catalogue examine how Cole's first-hand knowledge of the British industrial revolution and his study of the Roman Empire positioned him to create works that offer a distinctive, even dissident, response to the economic and political rise of the United States, the ecological and economic changes then underway, and the dangers that faced the young nation. A detailed chronology of Cole's life, focusing on his European tour, retraces the artist's travels as documented in his journals, letters, and sketchbooks, providing new insight into his encounters and observations. With discussions of over seventy works by Cole, as well as by the artists he admired and influenced, this book allows us to view his work in relation to his European antecedents and competitors, demonstrating his major contribution to the history of Western art.

Thomas Cole's Studio Annette Blaugrund,FRANKLIN. KELLY,William L. Coleman,2022-04-05 An exploration of nineteenth-century American landscape painter Thomas Cole and the influential role of his studio for other artists of the Hudson River School. In December 1846, Thomas Cole excitedly began work in his new studio, but his early death left his great ambitions unfinished. His influence, both through works from his early career and ones he worked on in a self-designed studio during his final year, was truly profound for others who followed his example. In Thomas Cole's Studio: Memory and Inspiration, the artist's achievements and impact on future artists are described by renowned Cole scholar Franklin Kelly, along with contributions from three additional authors. Together, they offer a new understanding of the critical last phase of Cole's career and his lasting effect on other artists, as well as his unrealized ambitions.

Picturesque and Sublime Tim Barringer,T. J. Barringer,Gillian Forrester,Sophie Lynford,Jennifer Raab,Nicholas Robbins,2018-01-01 Thomas Cole (1801-1848) is widely acknowledged as the founder of American landscape painting. Born in England, Cole emigrated in 1818 to the United States, where he transformed British and continental European traditions to create a distinctive American idiom. He embraced the picturesque, which emphasized touristic pleasures, and the sublime, an aesthetic category rooted in notions of fear and danger. Including striking paintings and a broad range of works on paper, from watercolors to etchings, mezzotints, aquatints, engravings, and lithographs, this book explores the trans-Atlantic context for Cole's oeuvre. These works chart a history of landscape aesthetics and demonstrate the essential role of prints as agents of artistic transmission. The authors offer new interpretations of work by Cole and the British artists who influenced him, including J.M.W. Turner and John Constable, revealing Cole's debt to artistic traditions as he formulated a profound new category in art. the American sublime.

almost as common as a preface. Such an apology, however, common as it is, the present writer feels himself bound to offer. He confesses himself incompetent, for several reasons, with which he will not trouble the reader, to write well of the genius, character, and life of a true artist. Why then was it attempted? Because it was thought that he could, at least, do justice in part; and because the work seemed naturally to fall to him. The relation of pastor, and that in the, retirement of the country, admitted him, at length, to an intimacy with the painter in which he told him much of the story of his life, and, at its close, committed to his discretion most of his papers. It might be asked, in the present flood of publications, why the memoirs of a person, whose life is usually so quiet as that of an artist should be written at all? It may be said, that the history of any man who was simply a model of conscientiousness and moral purity, and of earnestness in the pursuit, and reproduction of the beautiful and true, - who, with strong will and great purpose, had a vast patience, is well worth the writing and the reading. Much more so, if, to the above qualities, there were added those of a fine genius. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Thomas Cole: Drawings and Paintings Raya Yotova,2018-07-12 Thomas Cole (1801 - 1848) was an American artist. He is regarded as the founder of the Hudson River School, an American art movement that flourished in the mid-19th century. Cole's Hudson River School, as well as his own work, was known for its realistic and detailed portrayal of American landscape and wilderness, which feature themes of romanticism and naturalism.Cole was primarily a painter of landscapes, but he also painted allegorical works. The most famous of these are the five-part series, The Course of Empire, which depict the same landscape over generations-from a near state of nature to consummation of empire, and then decline and desolation-now in the collection of the New York Historical Society and the four-part The Voyage of Life. There are two versions of the latter, one at the National Gallery in Washington, D.C., the other at the Munson-Williams-Proctor Arts Institute in Utica, New York. Among Cole's other famous works are the Oxbow (1836), the Notch of the White Mountains, Daniel Boone at His cabin at the Great Osage Lake, and Lake with Dead Trees (1825). He also painted The Garden of Eden (1828), with lavish detail of Adam and Eve living amid waterfalls, vivid plants, and deer.In 1842, Cole embarked on a Grand Tour of Europe in an effort to study in the style of the Old Masters and to paint its scenery. Most striking to Cole was Europe's tallest active volcano, Mount Etna. Cole was so moved by the volcano's beauty that he produced several sketches and at least six paintings of it. The most famous of these works is A View from Mount Etna from Taormina. Cole also produced a highly detailed sketch of it, entitled View of Mount Etna which shows a panoramic view of the volcano with the crumbling walls of the ancient Greek theatre of Taormina on the far right.Cole influenced his artistic peers, especially Asher B. Durand and Frederic Edwin Church, who studied with Cole from 1844 to 1846.
