Measuring Media Use and Exposure Christina Peter, Teresa K. Naab, Rinaldo Kühne, 2019-09-11 The precise measurement of media use and exposure to media content posits currently one of the main methodological challenges in communication research. Against this background, new communication technologies have been gaining particular importance because they change existing patterns of media use and create new types of media use. At the same time, these technologies do not only present a challenge for communication research, but they also provide new opportunities for the assessment of media use. The volume regards current developments and trends in the measurement of media use and exposure from various perspectives. Contributions deal with the refinement and advancement of classical approaches, and new methods and measures of assessing media use are introduced and evaluated. They also discuss the advantages and challenges of using online behavioral data as indicators for media exposure. Contributions tackle questions how different methods of measuring media use and exposure can be combined to gain a more accurate picture and what pitfalls can occur.

**Social Media** Hana S. Noor Al-Deen, John Allen Hendricks, 2012 Several authors describe current trends in social media and their usage. Among the issues discussed are legal pitfalls: the USA endorses free speech, but it also values civility, individual reputation, privacy, physical and emotional security, and dignity.

**Climate Change and the Media** Tammy Boyce, Justin Lewis, 2009

*Media Diversity and Localism* Philip M. Napoli, 2009-03-04 Questions concerning the quality of media performance and the effectiveness of media policymaking often revolve around the extent to which the

media system fulfills the values inherent in diversity and localism principles. This edited volume addresses challenges and issues relating to diversity in local media markets from a media law and policy perspective. Editor Philip M. Napoli provides a conceptual and empirical framework for assessing the success/failure of media markets and media outlets in fulfilling diversity and localism objectives. Featuring well-known contributors from a variety of disciplines, including media, law, political science, and economics, *Media Diversity and Localism* explores the following topics: \*media ownership and media diversity and localism; \*conceptual and methodological issues in assessing media diversity and localism; \*minorities, media, and diversity; and \*contextualizing media diversity and localism: audience behavior and new technologies. This substantive and timely volume speaks to scholars and researchers in the areas of media law and policy, political science, and all others interested in media regulation. It can also be used in a graduate seminar on media policy topics.

**Discerning Ethics** Hak Joon Lee, Tim Dearborn, 2020-02-25 Racism. Immigration. Gun violence. Sexuality. Health care. The number of ethical issues that demand a response from Christians today is almost dizzying. How can Christians navigate such matters? What are faithful responses to these questions? Edited by two theologians with pastoral experience, this volume invites engagement with these issues and more by drawing on real-life experiences and offering a range of responses to some of the most challenging moral questions confronting the church today. With an unflinching yet irenic approach, this resource can help Christians as they seek to act justly, love mercy, and walk humbly with God.

**The Shock of the News** Brian A. Monahan,2010-03-29 How did the events of September 11, 2001 come to be thought of as 9/11? The Shock of the News is an authoritative account of post-9/11 political and social processes, offering an in-depth analysis of the media coverage of this momentous event. Brian Monahan demonstrates how 9/11 has been transformed into a morality tale centered on patriotism, victimization, and heroes. Introducing the idea of “public drama” as a way of making sense of how media processed and packaged the 9/11 attacks for their audiences, Monahan not only illuminates how and why the coverage took shape as it did, but also provides us with new insights into the social, cultural, and political consequences of the attacks and their aftermath. Monahan explains how and why 9/11 became such a potent symbol, exploring how meanings and symbols get created, reinforced, and disseminated in modern society. Ultimately, Monahan offers an important new understanding of this singular event of our time, and his compelling narrative brings the momentous events back into focus.

Obsessed Marc Bresseel, Renout van Hove, 2019-12-02 Being obsessed with positive change and ideas can propel us to extraordinary achievements and can be a fantastic positive driver of change. In the age of AI wired consumers with irrationally high demands, we need to be obsessed with creating smooth, differentiated, relevant, exciting customer experiences and frictionless customer services. Any of those

interactions should be driven by customer data - the pulse of every customer's unique heartbeat, and an organisation that has adopted new methodologies, processes, and technology platforms. In *Obsessed*, we demystify the complex world of data and sales and marketing technology. We answer questions like: How do you build a data culture and strategy? How can you be more intentional about the technology foundation you choose to improve your marketing and sales engine across the customer lifecycle. How do you create an obsession for the right metrics that focus on value? How do you infuse Artificial Intelligence capabilities into your organization? Can you see GDPR as an enabler? Finally, we need a cultural paradigm shift in dealing with marketing technology and applying it to marketing and sales scenarios. An obsession with long term thinking and customer relationships based on value rather than short term. And that's when you truly start rebooting your revenue engine.

**ABOUT THE AUTHOR** Marc Bresseel started his professional career at IBM and subsequently grew further while at Microsoft. He was fortunate to kick off the Microsoft online services MSN, Hotmail, and Messenger as one of the early internet pioneers in Belgium. He managed the sales and marketing activities for MSN and Microsoft online services in the EMEA markets and became Global CMO for Microsoft Advertising. After sixteen years at Microsoft, Marc managed the top 14 markets for IPG Mediabrands. In 2014 he became a founding partner of Duval Union, an organization that provides business & marketing consulting, and marketing & communication execution to brands.

*An Unprecedented Election* Benjamin R. Warner, Dianne G. Bystrom, Mitchell S. McKinney, Mary C. Banwart, 2018-02-21 Written by leading scholars in the field of political communication, this book provides a comprehensive accounting of the campaign communication that characterized the unprecedented 2016

presidential campaign. The political events leading up to election day on November 8, 2016, involved unprecedented events in U.S. history: Hillary Clinton was the first female to be nominated by a major party, and she was favored to win the highest seat in the nation. Donald Trump, arguably one of the most unconventional and most-unlikely-to-succeed candidates in U.S. history, became the leading candidate against Clinton. Then, an even more surprising thing happened: Trump won, an outcome unexpected by all experts and statistical models. *An Unprecedented Election: Media, Communication, and the Electorate in the 2016 Campaign* presents proprietary research conducted by a national election team and leading scholars in political communication and documents the most significant—and in some cases, the most shocking—features of the 2016 U.S. presidential election. The information presented in this book is derived from national surveys, experiments, and textual analysis, and it will help readers to grasp the truly unique characteristics of this campaign that make it unlike any other in U.S. history. The chapters explain the underlying dynamics of this astonishing election by assessing the important role of both traditional and social media, the evolving (and potentially diminishing) influence of televised campaign advertisements, the various implications of three historic presidential debates, and the contextual significance of convention addresses. Readers will come away with an appreciation of the content and effects of the campaign communication and media coverage as well as the unique attributes of the electorate that ultimately selected Donald Trump as the 45th president of the United States.

Florida without Borders Judy A. Hayden, Sharon Kay Masters, Kim Vaz, 2020-11-09 Florida without Borders: Women at the Intersections of the Local and Global highlights the problems facing women around the world by featuring papers that explore women's activism across borders regarding gender and human rights, issues regarding women and poverty, globalization, economic value of immigrant labor, militarism and human trafficking. Also discussed are the opportunities and obstacles women face when they act to counter the negative impact of these forces. This anthology is a collection of essays by feminist scholars and students who examine discourses on border crossings, political and cultural censorship, gendered codes of conduct, prescribed behavior for women and the activism that emerges to address identity formation, to advance contested meanings and to build coalitions. Throughout the essays, the authors investigate the concepts of the gendered body in the context of global activism, the uses of women's bodies in domestic, military, and sexual service, and the breaching of the body's borders and boundaries in the project of

feminist social change.
