Radio and Social Transformation in China Wei Lei,2019-04-18 The first systematic, comprehensive and critical English-language study of radio in China, this book documents a historical understanding of Chinese radio from the early twentieth century to the present. Covering both public matters and private lives, Radio and Social Transformation in China analyses a range of themes from healthcare, migration and education, to intimacy, family and friendship. Through a concentrated and thorough scrutiny of a variety of new genres and radio practices in post-Mao China, it also investigates the interaction between radio and social change, particularly in the era of economic reform. Building on the core theoretical concept of 'compressed modernity', each of the radio genres explored is shown to embody China's efforts to achieve modernity, while simultaneously exemplifying radio's capacity to manage the challenges that have arisen from the country's distinctive and perhaps unique process of modernization. Written in an engaging style, this book makes an important contribution to radio history internationally. As such, it will be of great interest to students and scholars of broadcast media, radio and Communication Studies, as well as Chinese culture and society.

American Radio in China Michael A. Krysko,2011-04-12 Interwar era efforts to expand US radio into China floundered in the face of flawed US policies and approaches. Situated at the intersection of media studies, technology studies, and US foreign relations, this study frames the ill-fated radio initiatives as symptomatic of an increasingly troubled US-East Asian relationship before the Pacific War.

The U.S. Intelligence Community Jeffrey T Richelson,2018-05-04 The role of intelligence in US government operations has changed dramatically and is now more critical than ever to domestic security and foreign policy. This authoritative and highly researched book written by Jeffrey T. Richelson provides a detailed overview of America's vast intelligence empire, from its organizations and operations to its management structure. Drawing from a multitude of sources, including hundreds of official documents, The US Intelligence Community allows students to understand the full scope of intelligence organizations and activities, and gives valuable support to policymakers and military operations. The seventh edition has been fully revised to include a new chapter on the major issues confronting the intelligence community, including secrecy and leaks, domestic spying, and congressional oversight, as well as revamped chapters on signals intelligence and cyber collection, geospatial intelligence, and open sources. The inclusion of more maps, tables and photos, as well as electronic briefing books on the book's Web site, makes The US Intelligence Community an even more valuable and engaging resource for students.

The Chinese People's Liberation Army since 1949 Benjamin Lai,2012-11-20 The Chinese People's Liberation Army (PLA) is the largest army in the world. China is predicted to be on the brink of overtaking the USA as the world's largest economy, and China's military capabilities and global ambitions are the single greatest long-term pre-occupation of Western governments. The PLA has progressed steadily - if slowly - since its creation in 1949, from a mass army of unsophisticated infantry limited to 'human wave' tactics into a highly sophisticated force with wide capabilities. The most recent reforms (1989 to the present day) have been made possible by massive economic liberalization, and have seen not only the modernization of all the armed forces but the beginnings of global outreach, even including Chinese participation in UN peace-keeping missions to Africa, the Middle East, and Haiti. Featuring rare photographs and specially commissioned color artwork, this study explores the developing structure, organization, equipment, appearance, and character of the Chinese People's Liberation Army from its creation until today.

T-72 Main Battle Tank 1974-93 Steven J. Zaloga,2013-08-20 The Russian T-72 Ural tank is the most widely-deployed main battle tank of the current generation. Used by the armies of the former Warsaw pact and Soviet Union, it has also been exported in large numbers to many of the states in the Middle East. This book reveals the previously secret history behind the tank. Steven J Zaloga examines the conditions under which the T-72 was designed and produced. Technical aspects of the weapon are also discussed, including its EDZ reactive armour which, when it first appeared in December 1984, gave NATO a nasty shock.

Army of the Republic of Vietnam 1955-75 Gordon L. Rottman,2012-01-20 Evolved from the colonial units created by the French, this book discusses the original reorganization of these forces into the first national army. Complete with a detailed history of the command structure and orders of battle, the author also sheds light on the little known divisional histories of the army through rare, original source material. Moreover, the author examines in detail the evolution of such key units as armoured forces, ranger commands as well as combat unit organisation. This together with a detailed analysis of the experiences of the typical rank and file soldier as well as officer corps provides a concise and detailed history of an army that is too often neglected or quickly judged.

The Chinese Navy Institute for National Strategic Studies,2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's navel modernization.

Last Mission to Tokyo Michel Paradis,2021-06-08 A narrative account of the Doolittle Raids of World War II traces the daring Raiders attack on mainland Japan, the fate of the crews who survived the mission, and the international war crimes trials that defined Japanese-American relations and changed legal history.
