**The Routledge Handbook of Cartographic Humanities**

Tania Rossetto, Laura Lo Presti, 2024-06-03 The Routledge Handbook of Cartographic Humanities offers a vibrant exploration of the intersection and convergence between map studies and the humanities through the multifaceted traditions and inclinations from different disciplinary, geographical and cultural contexts. With 42 chapters from leading scholars, this book provides an intellectual infrastructure to navigate core theories, critical concepts, phenomenologies and ecologies of mapping, while also providing insights into exciting new directions for future scholarship. It is organised into seven parts: Part 1 moves from the depths of the humans-maps relation to the posthuman dimension, from antiquity to the future of humanity, presenting a multidisciplinary perspective that bridges chronological distances, introspective instances and social engagements. Part 2 draws on ancient, archaeological, historical and literary sources, to consider the materialities and textures embedded in such texts. Fictional and non-fictional cartographies are explored, including layers of time, mobile historical phenomena, unmappable terrain features, and even animal perspectives. Part 3 examines maps and mappings from a medial perspective, offering theoretical insight into cartographic mediality as well as studies of its intermedial relations with other media. Part 4 explores how a cultural cartographic perspective can be productive in researching the digital as a human experience, considering the development of a cultural attentiveness to a wide range of map-related phenomena that interweave human subjectivities and nonhuman entities in a digital ecology. Part 5 addresses a range of issues and urgencies that have been, and still are, at the centre of critical cartographic thinking, from politics, inequalities and discrimination. Part 6 considers the growing amount of literature and creative experimentation that involve mapping in practices of eliciting

individual life histories, collective identities and self-accounts. Part 7 examines the variety of ways in which we can think of maps in the public realm. This innovative and expansive Handbook will appeal to those in the fields of geography, art, philosophy, media and visual studies, anthropology, history, digital humanities and cultural studies as well as industry professionals.

The Unicyclist, the Vicar and the Paediatrician Peter

Sidebotham, 2013-05-02 Hi, I'm Joe. In the summer of 2011 I turned 16, and decided to mark this by cycling from Land's End to John O' Groats - on a unicycle. This book is the story of that journey and all that led up to it. The Unicyclist, the Vicar and the Paediatrician is the unique, heartwarming and true story of Joe, a teenage unicyclist, who sets out on his ultimate challenge: to travel the length of Britain on one wheel. He is accompanied on this incredible journey by his paediatrician father, Peter, desperate for a bit of father-son bonding; and by David, the sexagenarian vicar, complete with a broom strapped to his recumbent tricycle, transforming the endeavour into a pilgrimage on wheels. But almost from the beginning, the three are beset by problems: mechanical failures, broken handlebars, an unexpected ambulance ride. Can Joe and his companions overcome the crises that come their way, and make it to the finish line? This moving account, written jointly by Peter and Joe, follows this remarkable team as they battle against adversity and press on to reach their goal. From Joe's earliest ventures into long-distance unicycling and months of training amidst the realities of family life and father-son communication, through to their enthusiastic start from Land's End and the fateful day that followed, their journeys will delight, amuse, challenge and inspire you. Donations from sales will be made to the Lullaby Trust (Formerly the Foundation for the Study of Infant Deaths). This was one of the charities supported by the sponsored unicycle ride
