McWp 3-35.3 - Military Operations on Urbanized Terrain (Mout) U. S. Marine Corps, 2015-02-01
This manual provides guidance for the organization, planning, and conduct of the full range of military operations on urbanized terrain. This publication was prepared primarily for commanders, staffs, and subordinate leaders down to the squad and fire team level. It is written from a Marine air-ground task force perspective, with emphasis on the ground combat element as the most likely supported element in that environment. It provides the level of detailed information that supports the complexities of planning, preparing for, and executing small-unit combat operations on urbanized terrain. It also provides historical and environmental information that supports planning and training for combat in built-up areas

Air Power Against Terror Benjamin S. Lambeth, 2005 The terrorist attacks of 9/11 plunged the United States into a determined counteroffensive against Osama bin Laden and his al Qaeda terrorist network. This report details the initial U.S. military response to those attacks, namely, the destruction of al Qaeda's terrorist infrastructure and the removal of the ruling Taliban regime in Afghanistan. The author emphasizes several distinctive achievements in this war, including the use of precision air-delivered weapons that were effective irrespective of weather, the first combat use of Predator unmanned aerial vehicles armed with Hellfire missiles, and the integrated employment of high-altitude drones and other air- and space-based sensors that gave CENTCOM unprecedented round-the-clock awareness of enemy activity.

Echopraxia Peter Watts, 2014-08-26 Prepare for a different kind of singularity in Peter Watts' *Echopraxia*, the follow-up to the Hugo-nominated novel *Blindsight* It's the eve of the twenty-second century: a world where the dearly departed send postcards back from Heaven and evangelicals

make scientific breakthroughs by speaking in tongues; where genetically engineered vampires solve problems intractable to baseline humans and soldiers come with zombie switches that shut off self-awareness during combat. And it's all under surveillance by an alien presence that refuses to show itself. Daniel Bruks is a living fossil: a field biologist in a world where biology has turned computational, a cat's-paw used by terrorists to kill thousands. Taking refuge in the Oregon desert, he's turned his back on a humanity that shatters into strange new subspecies with every heartbeat. But he awakens one night to find himself at the center of a storm that will turn all of history inside-out. Now he's trapped on a ship bound for the center of the solar system. To his left is a grief-stricken soldier, obsessed by whispered messages from a dead son. To his right is a pilot who hasn't yet found the man she's sworn to kill on sight. A vampire and its entourage of zombie bodyguards lurk in the shadows behind. And dead ahead, a handful of rapture-stricken monks takes them all to a meeting with something they will only call The Angels of the Asteroids. Their pilgrimage brings Dan Bruks, the fossil man, face-to-face with the biggest evolutionary breakpoint since the origin of thought itself. Black Campus Life Antar A. Tichavakunda,2021-12-01 An in-depth ethnography of Black engineering students at a historically White institution, *Black Campus Life* examines the intersection of two crises, up close: the limited number of college graduates in science, technology, engineering, and math (STEM) fields, and the state of race relations in higher education. Antar Tichavakunda takes readers across campus, from study groups to parties and beyond as these students work hard, have fun, skip class, fundraise, and, at times, find themselves in tense racialized encounters. By

consistently centering their perspectives and demonstrating how different campus communities, or social worlds, shape their experiences, Tichavakunda challenges assumptions about not only Black STEM majors but also Black students and the “racial climate” on college campuses more generally. Most fundamentally, Black Campus Life argues that Black collegians are more than the racism they endure. By studying and appreciating the everyday richness and complexity of their experiences, we all—faculty, administrators, parents, policymakers, and the broader public—might learn how to better support them. Stories for the Telling John Piowaty, 2010-09-01

The Whirlwind War Frank N. Schubert, 1995 CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

DOOM Dan Pinchbeck, 2013-06-18 In December 1993, gaming changed forever. id Software's seminal shooter DOOM was released, and it shook the foundations of the medium. Daniel Pinchbeck brings together the complete story of DOOM for the first time. This book takes a look at the early days of first-person gaming and the video game studio system. It discusses the prototypes and the

groundbreaking technology that drove the game forward and offers a detailed analysis of gameplay and level design. Pinchbeck also examines DOOM's contributions to wider gaming culture, such as online multiplayer and the modding community, and the first-person gaming genre, focusing on DOOM's status as a foundational title and the development of the genre since 1993. Pinchbeck draws extensively from primary data: from the game itself, from the massive fan culture surrounding the title, and from interviews with the developers who made it. This book is not only the definitive work on DOOM but a snapshot of a period of gaming history, a manifesto for a development ethos, and a celebration of game culture at its best.

The Secret Sauce for Organizational Success Tom Jurkowsky, 2019 This book provides examples of constants that communicators and their leaders should stay focused on. Those constants are: (1) responsiveness to the media; (2) providing access to the media; (3) ensuring good working relationships with the media; and (4) always maintaining one's integrity. Each chapter is dedicated to one or several examples of these concepts--

Decolonizing Diasporas Yomaira C Figueroa-Vásquez, 2020-10-15 Mapping literature from Spanish-speaking sub-Saharan African and Afro-Latinx Caribbean diasporas, *Decolonizing Diasporas* argues that the works of diasporic writers and artists from Equatorial Guinea, Puerto Rico, the Dominican Republic, and Cuba offer new worldviews that unsettle and dismantle the logics of colonial modernity. With women of color feminisms and decolonial theory as frameworks, Yomaira C. Figueroa-Vásquez juxtaposes Afro-Latinx and Afro-Hispanic diasporic artists, analyzing work by Nelly Rosario, Juan Tomás Ávila Laurel, Trifonia Melibea Obono, Donato Ndongo, Junot Díaz, Aracelis Girmay, Loida Maritza Pérez, Ernesto Quiñonez, Christina Olivares, Joaquín Mbomio Bacheng, Ibeyi, Daniel José Older, and María Magdalena Campos-Pons. Figueroa-Vásquez's study reveals the thematic, conceptual, and liberatory tools these artists offer when read in relation to one another. *Decolonizing Diasporas* examines how themes of intimacy, witnessing, dispossession, reparations, and futurities are remapped in these works by tracing interlocking structures of oppression, including public and intimate forms of domination, sexual and structural violence, sociopolitical and racial exclusion, and the haunting remnants of colonial intervention. Figueroa-Vásquez contends that these diasporic literatures reveal violence but also forms of resistance and the radical potential of Afro-furutures. This study centers the cultural productions of peoples of African descent as Afro-diasporic imaginaries that subvert coloniality and offer new ways to approach questions of home, location, belonging, and justice.

Trouble Songs Jeff T. Johnson, 2018 Poet, critic, and hybrid-genre artist Johnson tracks the use of trouble in word, concept, and practice in this debut of brief, elliptical, lyric essays. He moves through a wide swath of 20th- and 21st-century music, always alert to a sense of melancholy shared among songwriters, their songs, and their listeners in the ever-growing web of popular music. When

we say 'trouble,' we refer to the history of trouble whether or not we have it in mind. When we sing trouble, we sing (with) history, Johnson writes. A Trouble Song is a complaint, a grievance, an aside, a come-on, a confession, an admission, a resignation, a plea. It's an invitation-to sorrow. The effect of all this trouble is dizzying. Highly annotated-often to personal, humorous, and hidden effects-the book weaves among genres, chronologies, and various forms of trouble to ask Where are we in song? Who are we in song? Johnson suggests that an answer lies somewhere in the locus of singer, song, and listener-the essential relations in the Trouble Song. Detouring into philosophy, cultural theory, and verse, Johnson works multilaterally to explore what trouble in popular music does to connect listeners, embolden them, and open a space from which trouble can be addressed across time.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a

married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Undead Ends S. Trimble, 2019-05-03 Undead Ends is about how we imagine humanness and survival in the aftermath of disaster. This book frames modern British and American apocalypse films as sites of interpretive struggle. It asks what, exactly, is ending? Whose dreams of starting over take center stage, and why? And how do these films, sometimes in spite of themselves, make room to dream of new beginnings that don't just reboot the world we know? Trimble argues that contemporary apocalypse films aren't so much envisioning The End of the world as the end of a particular world; not The End of humanness but, rather, the end of Man. Through readings of The Road, I Am Legend, 28 Days Later, 28 Weeks Later, Children of Men, and Beasts of the Southern Wild, this book demonstrates that popular stories of apocalypse can trouble, rather than reproduce, Man's story of humanness. With some creative re-reading, they can even unfold towards unexpected futures. Mainstream apocalypse films are, in short, an occasion to imagine a world After Man.

Brain Rules John Medina, 2014-09-01 An updated and expanded edition of the international bestseller Most of us have no idea what's really going on inside our heads. Yet brain scientists have uncovered details that every business leader, parent, and teacher should know — for instance, that physical activity helps to get your brain working at its best. How do we learn? What do sleep and

stress do to our brains? Why is multitasking a myth? Why is it so easy to forget — and so important to repeat new information? In *Brain Rules*, Dr John Medina, a molecular biologist, shares his lifelong interest in brain science, and how it can influence the way we teach our children and the way we work. In each chapter, he describes a brain rule — what scientists know for sure about how our brains work — and offers transformative ideas for our daily lives. In this expanded edition — which includes additional information on the brain rules and a new chapter on music — you will discover how every brain is wired differently, why memories are volatile, and how stress and sleep can influence learning. By the end, you'll understand how your brain really works — and how to get the most out of it.

The Poem That Changed America Jason Shinder, 2006-03-21 A tribute to Ginsberg's signature work, which stirred a generation of angel-headed hipsters to cultural rebellion. In 1956, City Lights, a small San Francisco bookstore, published Allen Ginsberg's *Howl and Other Poems* with its trademark black-and-white cover. The original edition cost seventy-five cents, but there was something priceless about its eponymous piece. Although it gave a voice to the new generation that came of age in the conservative years following World War II, the poem also conferred a strange, subversive power that continues to exert its influence to this day. Ginsberg went on to become one of the most eminent and celebrated writers of the second half of the twentieth century, and *Howl* became the critical axis of the worldwide literary, cultural, and political movement that would be known as the Beat generation. The year 2006 marks the fiftieth anniversary of the publication of *Howl*, and *The Poem That Changed America* will celebrate and shed new light on this profound cultural work. With new essays by many of today's most distinguished writers, including Frank Bidart, Andrei Codrescu, Vivian Gornick, Phillip Lopate, Daphne Merkin, Rick Moody, Robert Pinsky,

and Luc Sante, *The Poem That Changed America* reveals the pioneering influence of *Howl* down through the decades and its powerful resonance today.
