**Blah Blah Blah Card Game** MRS WORDSMITH,2020-02-25 Finally, a way to make practising phonics fun! Master decoding words using phonics with these three decks of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! Blah Blah Blah is a hilariously fun card game, perfect for kids who are just starting to learn to read. Master decoding words using phonics with these three decks of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! How does Blah Blah Blah work? Every card features a word consisting of three letters (or groups of letters). Each player takes seven cards. One card is placed face-up on the table with the rest of the deck in a pile, face-down. Players must play a card from their hand that contains at least one of the letters that are in the word on the table. The first player to get rid of all their cards wins. But beware! Wild cards hidden in the deck can force you to skip your turn or draw more cards. Blah Blah Blah was developed with a unique proprietary algorithm by our machine learning team to make sure it works. And it was tested with teachers and kids to make sure they love it! Why are phonics so important? English consists of about 44 phonemes (sound variations), but more than 170 graphemes (different written representations for these sounds). This means that English has no strict one-to-one correspondence between letters and sounds, but it's also not entirely irregular. It involves numerous patterns and regularities. Phonics is the method that helps children become aware of these regularities, and it's proven to be very effective.

**Doodling Dragons** Denise Eide, 2012-02-11 This imaginative journey through the alphabet teaches all the sound(s) made by each letter. With delightful characters such as dragons, elves, and hedgehogs students giggle their way through the ABCs. Toddlers and preschoolers often beg for the book to be read again spontaneously repeating the phonogram sounds laying the groundwork to become a strong reader and speller. Children ages 0-3 are developmentally tuned to the sound(s) of the language spoken around them. Young children are drawn to Doodling Dragons and desire to hear it read again and again while they mimic each sound. This provides not only an outstanding foundation for literacy skills but aids children in developing the building blocks for spoken language. Children ages 4-7 delight in hearing the sample words for each of the A-Z phonograms. By hearing and seeing their application within words, students develop phonemic awareness, or an understanding of how sounds combine to form words. Students also delight in the silly examples which provide another memory tool for mastering difficult sounds such as the /ü/ in püt the bütcher in the püdding
