ABC Writing Lesson CHARAN. LANGTON, 2021-08 The ABC Writing Lesson is your child's first step to handwriting. By now, your child can hold a pencil and draw short straight lines, triangles, squares, and circles. Great! It's time to learn letters. After writing letters becomes automatic, your child will combine them effortlessly into words. Next, she will write words as they pop into her mind, not thinking about the individual letters. She will focus on the content and not on the hand movement. Handwriting and reading go together. Developing handwriting skills will speed up learning to read. The ABC Writing Lesson follows the alphabet and provides practice pages for lower and uppercase letters, and numbers. Have your child use a soft lead pencil, perhaps with a pencil grip. Remind her not to hold the pencil too tightly and not to press it too hard on the page. For younger children with less developed fine motor control, consider a crayon; using a regular pencil or

pen might be too difficult. You will find the upper and lowercase letters are similar in size. At this point only the shape is important; understanding of scale comes later. Ask your child to trace the letters and copy them in the blank areas with lines. Encourage your child to stay within the lines when tracing letters but not be too strict about how she forms them. Only practice and repetition matter at this point. Every child has a unique writing style and follows their own path of motor development. Be patient, and practice will work its magic. There is a dotted line around the main picture; have your child trace it. The dotted pictures are also for the child to trace and color for better fine motor control. If you need additional practice pages, go to the expanded version of this book in printable PDF format on our website, www.readinglesson.com. When ready, move on to the Teach Me Handwriting book in this series. Happy writing from the Giggle Bunny and the Reading Lesson team.

Come With Me and Learn Your ABC's Brianna L Young,2021-10-10 This book provides an easy way for parents to teach their children the alphabet by using basic & common words! Not only is it simple, but the letters are highlighted in color and coordinate with the pictures to help children retain the information they just learned. Through research, Piaget's Theory on Cognitive learning for 2-7 year-olds discusses that children learn by using words and images to connect them. Toddlers also learn by listening to words and by practicing writing them (Phillips, 2021). With that in mind, this book also includes an alphabetical tracing page to help your toddlers learn the best way they can. I hope you and your children enjoy this effortless way to learn their ABCs. Lastly, thank you so much for the support!

How Children Learn to Write Words Rebecca Treiman, Brett Kessler, 2014

Mastering the writing system of one's language is crucial for success in a modern society. This book examines how children learn to produce writing. It provides a novel theoretical framework that integrates findings from a wide range of age groups - from children who are producing their first scribbles to experienced spellers who are writing complex words. The book is unique in the range of topics and languages that it covers. Also unique is the way in which it integrates linguistic insights about the nature of writing systems with discussions of literacy development in children.
