Hollywood or History? Paul J. Yoder, Aaron P. Johnson, 2022-05-01 Traumagenic events—episodes that have caused or are likely to cause trauma—color the experiences of K-12 students and the social studies curriculum they encounter in U.S. schools. At the same time that the global COVID-19 pandemic has heightened educators’ awareness of collective trauma, the racial reckoning of 2020 has drawn important attention to historical and transgenerational trauma. At a time when social studies educators can simply no longer ignore “difficult” knowledge, instruction that acknowledges trauma in social studies classrooms is essential. Through employing relational pedagogies and foregrounding voices that are too often silenced, the lessons in *Hollywood or History? An Inquiry-Based Strategy for Using Film to Acknowledge Trauma in Social Studies* engage students in examining the role of traumatic or traumagenic events in social studies curriculum. The 20 *Hollywood or History?* lessons are organized by themes such as political trauma and war and genocide. Each lesson presents film clips, instructional strategies, and primary and secondary sources targeted to the identified K-12 grade levels. As a collection, they provide ready-to-teach resources that are perfect for teachers who are committed to acknowledging trauma in their social studies instruction.

The Ride of a Lifetime Robert Iger, 2019-09-23 #1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time’s 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world’s most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company’s history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including: • Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming. • Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity. • Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale. • Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It’s also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. “The ideas in this book strike me as universal” Iger writes. “Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives.”

A Good War Seth Klein, 2020-09-01 “This is the roadmap out of climate crisis that Canadians have been waiting for.” — Naomi Klein, activist and New York Times bestselling author of *This Changes Everything* and *The Shock Doctrine* • One of Canada’s top policy analysts provides the first full-scale blueprint for meeting our climate change commitments • Contains the results of a national poll on Canadians’ attitudes to the climate crisis • Shows that radical transformative climate action can be done, while producing jobs and reducing inequality as we retool how we live and work. • Deeply researched and targeted specifically to Canada and Canadians while providing a model that other countries could follow Canada needs to reduce its greenhouse gas emissions by 50% to prevent a catastrophic 1.5 degree increase in the earth’s average temperature — assumed by many scientists to be a critical “danger line” for the planet and human life as we know it. It’s 2020, and Canada is not on track to meet our targets. To do so, we’ll need radical systemic change to how we live and work—and fast. How can we ever achieve this? Top policy analyst and author Seth Klein reveals we can do it now because we’ve done it before. During the Second World War, Canadian citizens and government remade the economy by retooling factories, transforming their workforce, and making the war effort a common cause for all Canadians to contribute to. Klein demonstrates how wartime thinking and community efforts can be repurposed today for Canada’s own Green New Deal. He shares how we can create jobs and reduce inequality while tackling our climate obligations for a climate neutral—or even climate zero—future. From enlisting broad public support for new economic models, to job creation through investment in green infrastructure, Klein shows us a bold, practical policy plan for Canada’s sustainable future. More than this: *A Good War* offers a remarkably hopeful message for how we can meet the defining challenge of our lives. COVID-19 has brought a previously unthinkable pace of change to the world—one which demonstrates our ability to adapt rapidly when

we're at risk. Many recent changes are what Klein proposes in these very pages. The world can, actually, turn on a dime if necessary. This is the blueprint for how to do it.

Harlem Grown Tony Hillery,2020-08-18 "An inspiring picture book for youngsters with meaningful ties to the environment, sustainability, and community engagement." —Booklist "Hartland's gouache illustrations wobble endearingly, colorfully capturing the children's triumph, and the kinetic energy and colorful vibrancy of the city neighborhood." —Publishers Weekly Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once In a big city called New York In a bustling neighborhood There was an empty lot. Nevaeh called it the haunted garden. Harlem Grown tells the inspiring true story of how one man made a big difference in a neighborhood. After seeing how restless they were and their lack of healthy food options, Tony Hillery invited students from an underfunded school to turn a vacant lot into a beautiful and functional farm. By getting their hands dirty, these kids turned an abandoned space into something beautiful and useful while learning about healthy, sustainable eating and collaboration. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. The incredible story is vividly brought to life with Jessie Hartland's "charmingly busy art" (Booklist) that readers will pore over in search of new details as they revisit this poignant and uplifting tale over and over again. Harlem Grown is an independent, not-for-profit organization. The author's share of the proceeds from the sale of this book go directly to Harlem Grown.

Hell and Other Destinations Madeleine Albright,2020-04-14 "Richly detailed. . . an intimate portrait of a diplomat." —New Yorker From the seven-time New York Times bestselling author and former Secretary of State Madeleine Albright—among history's most admired and tireless public servants—a revealing, funny, and inspiring reflection on the challenge of continuing one's career far beyond the normal age of retirement In 2001, when Madeleine Albright was leaving office as America's first female secretary of state, interviewers asked her how she wished to be remembered. "I don't want to be remembered," she answered. "I am still here and have much more I intend to do. As difficult as it might seem, I want every stage of my life to be more exciting than the last." In that time of transition, the former Secretary considered the possibilities: she could write, teach, travel, give speeches, start a business, fight for democracy, help to empower women, campaign for favored political candidates, spend more time with her grandchildren. Instead of choosing one or two, she decided to do it all. For nearly twenty years, Albright was in constant motion, navigating half a dozen professions, clashing with presidents and prime ministers, learning every day. After leaving the State Department, she blazed her own trail—and gave voice to millions who yearned for respect, regardless of gender, background, or age. Hell and Other Destinations reveals this remarkable figure at her bluntest, funniest, most intimate, and most serious. It is the tale of our times anchored in lessons for all time, narrated by an extraordinary woman who had a matchless zest for life.

Finley Ball Nancy Finley,2016-03-29 This is the story of a losing baseball team that became a 1970s dynasty, thanks to the unorthodox strategies and stunts of two very colorful men. When Charlie Finley bought the A's in 1960, he was an outsider to the game—a insurance businessman with a larger-than-life personality. He brought his cousin Carl on as his right-hand man, moved the team from Kansas City to Oakland, and pioneered a new way to put together a winning team. With legendary players like Reggie Jackson, Catfish Hunter, and Vida Blue, the Finleys' Oakland A's won three straight World Series and riveted the nation. Now Carl Finley's daughter Nancy reveals the whole story behind her family's winning legacy—how her father and uncle developed their scouting strategy, why they employed odd gimmicks like orange baseballs and mustache bonuses, and how the success of the '70s Oakland A's changed the game of baseball.

Stepmonster Wednesday Martin,2011-01-21 An honest and groundbreaking guide to understanding the complicated emotions that develop between stepmothers and children. When faced with often overwhelming challenges, what woman with stepchildren is unfamiliar with that "stepmonster" feeling? Half of all women in the United States will live with or marry a man with children. To guide women new to this role—and empower those who are struggling with it—Wednesday Martin draws upon her own experience as a stepmother. She's frank about the harrowing process of becoming a stepmother, she considers the myths and realities of being married to a man with children, and she counteracts the cultural notion that stepmothers are solely responsible for the problems that often develop. Along the way, she interviews other stepmothers and stepchildren and offers up fascinating insights from literature, anthropology, psychology, and evolutionary biology that explain the little-understood realities of this unique parent-child relationship and—in an unexpected twist—shows why the myth of the Wicked Stepmother is the single best tool for understanding who real stepmothers are and how they feel.

Believe in People Charles Koch,Brian Hooks,2020-11-17 A surprising take on how you can help tackle the really big problems in society—from one of America's most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today's challenges call for nothing short of a paradigm shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he's discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world's most successful companies and founding Stand Together, one of America's most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks' refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up.

The Rise: Kobe Bryant and the Pursuit of Immortality Mike Sielski,2022-01-11 A compelling origin story of a time that really wasn't so long ago but through the lens of tragedy feels like forever. Kobe-ologists will devour this book, reveling in the anecdotes about his intensity & the engaging game recaps. —Associated Press "Every superhero needs an origin story." –Jeff Pearlman The inside look at one of the most captivating and consequential figures in our culture—with never-before-heard interviews. Kobe Bryant's death in January 2020 did more than rattle the worlds of sports and celebrity. The tragedy of that helicopter crash, which also took the life of his daughter Gianna, unveiled the full breadth and depth of his influence on our culture, and by tracing and telling the oft-forgotten and lesser-known story of his early life, The Rise promises to provide an insight into Kobe that no other analysis has. In The Rise, readers will travel from the neighborhood streets of Southwest Philadelphia—where Kobe's father, Joe, became a local basketball standout—to the Bryant family's isolation in Italy, where Kobe spent his formative years, to the leafy suburbs of Lower Merion, where Kobe's legend was born. The story will trace his career and life at Lower Merion—he led the Aces to the 1995-96 Pennsylvania state championship, a dramatic underdog run for a team with just one star player—and the run-up to the 1996 NBA draft, where Kobe's dream of playing pro basketball culminated in his acquisition by the Los Angeles

Lakers. In researching and writing The Rise, Mike Sielski had a terrific advantage over other writers who have attempted to chronicle Kobe’s life: access to a series of never-before-released interviews with him during his senior season and early days in the NBA. For a quarter century, these tapes and transcripts preserved Kobe’s thoughts, dreams, and goals from his teenage years, and they contained insights into and told stories about him that have never been revealed before. This is more than a basketball book. This is an exploration of the identity and making of an icon and the effect of his development on those around him—the essence of the man before he truly became a man.

The Cult of Smart Fredrik deBoer,2020-08-04 Named one of Vulture’s Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we’ll never achieve this dream until the *Cult of Smart* is destroyed.

When the Sun Goes Dark Andrew Fraknoi,Dennis Schatz,2017 Presents a story about how eclipses of the Sun and Moon occur.
All In Josh Levs,2015-05-12 When journalist Josh Levs was denied fair parental leave by his employer after his child was born, he fought back—and won. Since then, he’s become an advocate for modern families and working fathers. In *All In*, he explores the changing face of fatherhood and what it means for our individual lives, families, workplaces, and society. Fatherhood today is far different from previous generations. Stay-at-home dads are increasingly common, and growing numbers of men are working part-time or flextime schedules to spend more time with their children. Even the traditional breadwinner-dad is being transformed. Dads today are more emotionally and physically involved on the home front. They are “all in” and—like mothers—they are struggling with work-life balance and doing it all. Journalist and “dad columnist” Josh Levs explains that despite these unprecedented changes, our laws, corporate policies, and gender-based expectations in the workplace remain rigid. They are preventing both women and men from living out the equality we believe in—and hurting businesses in the process. Women have done a great job of speaking out about this, Levs—whose fight for parental leave made front page news across the country—argues. It’s now time for men to join in. Combining Levs’ personal experiences with investigative reporting and frank conversations with fathers about everything from work life to money to sex, *All In* busts popular myths, lays out facts, uncovers the forces holding all of us back, and shows how we can all join together to change them.

The Munchkin Diary Betty Ann Bruno,2020-12-15 As one of the last remaining Munchkins, Betty Ann Bruno has had an inside look at the legendary land of Oz, and has traveled her own Yellow Brick Road well beyond that rainbow. At 5, she was directed in a film by John Ford. At 12, she was the fulltime organist in a Catholic church, where she was mentored by a ex-seminarian who tried repeatedly to molest her. As an adult she worked for the CIA. She then became Oakland's first female, Asian-American TV reporter, where she talked a notorious drug dealer into doing an on-camera profile before he later threatened to kill her. She survived the 1991 Oakland Hills Firestorm that burned 3,000 homes (including hers), and described the scene live on national TV after barely escaping with her life. There's a lot more, including her exploration of the spiritual mysteries she calls life after life. Through it all is her struggle with her ethnicity and her ultimate acceptance of herself by founding Hula Mai, a Hawaiian dance company. It's a wise and honest account of a very eventful journey and a riveting read.
