A Breast Cancer Alphabet Madhulika Sikka,2014-02-25 A definitive and approachable guide to life during, and after, breast cancer The biggest risk factor for breast cancer is simply being a woman. Madhulika Sikka's A Breast Cancer Alphabet offers a new way to live with and plan past the hardest diagnosis that most women will ever receive: a personal, practical, and deeply informative look at the road from diagnosis to treatment and beyond. What Madhulika Sikka didn't foresee when initially diagnosed, and what this book brings to life so vividly, are the unexpected and minute challenges that make navigating the world of breast cancer all the trickier. A Breast Cancer Alphabet is an inspired reaction to what started as a personal predicament. This A-Z guide to living with breast cancer goes where so many fear to tread: sex (S is for Sex - really?), sentimentality (J is for Journey - it's a cliché we need to dispense with), hair (H is for Hair - yes, you can make a federal case of it) and work (Q is for Quitting - there'll be days when you feel like it). She draws an easy-to-follow, and quite memorable, map of her travels from breast cancer neophyte to seasoned veteran. As a prominent news executive, Madhulika had access to the most cutting edge data on the disease's reach and impact. At the same time, she craved the community of frank talk and personal insight that we rely on in life's toughest moments. This wonderfully inventive book navigates the world of science and story, bringing readers into Madhulika's mind and experience in a way that demystifies breast cancer and offers new hope for those living with it.

Social experiences of breastfeeding Sally Dowling,David Pontin,Kate Boyer,2018-09-05 This book brings together international academics, policy makers and practitioners to build bridges between the real-world and scholarship on breastfeeding. It asks the question: How can the latest social science research into breastfeeding be used to improve support at both policy and practice level, in order to help women breastfeed and to breastfeed for longer? The edited collection includes discussion about the social and cultural contexts of breastfeeding and looks at how policy and practice can apply this to women's experiences. This will be essential reading for academics, policy makers and practitioners in public health, midwifery, child health, sociology, women's studies, psychology, human geography and anthropology, who want to make a real change for mothers.

The Pornography of Meat: New and Updated Edition Carol J. Adams,2020-10-29 For 30 years, since the publication of her landmark book The Sexual Politics of Meat, Carol J. Adams and her readers have continued to document and hold to account the degrading interplay of language about women, domesticated animals, and meat in advertising, politics, and media. Serving as sequel and visual companion, The Pornography of Meat charts the continued influence of this language and the fight against it. This new edition includes more than 300 images, most of them new, and brings the book up to date to include expressions of misogyny in online media and advertising, the #MeToo movement, and the impact of Donald Trump and white supremacy on our political language. Never has this book--or Adams's analysis--been more relevant.

Understanding Society, Culture, and Television Paul Monaco,2000-09-30 What is the real nature of television, and what is its place in contemporary society and culture? In a provocative rethinking of the medium and its ensuing effects, this book argues that we have misunderstood television and have thus contributed to a distorted view of art and culture in the 20th century. During the final quarter of this century both in academic and popular circles, we have spread wildly exaggerated claims about television's undermining of human consciousness and behavior. Television has become a scapegoat for all sorts of societal and cultural ills. The arguments presented by many researchers on behalf of the ill-effects of TV are fundamentally weak and flawed. On the eve of the 21st century, the claimed distinctions between high art and popular culture have become a final, hopeless repository of pedantry. Television can be understood only by viewing it as an art form, and measuring its role in society and culture in concert with the first principles of human reason and liberty.

Edited Clean Version Raiford Guins,2008-12-31 According to Guins, these new control technologies are designed to embody an ethos of neoliberal governance - through the very media that have been previously presumed to warrant management, legislation, and policing. Repositioned within a discourse of empowerment, security, and choice, the action of regulation, he reveals, has been relocated into the hands of users.--BOOK JACKET.
