Inclusive Learning 365 Christopher Bugaj, Karen Janowski, Mike Marotta, Beth Poss, 2022-08-03 Designed to be read one day – and page – at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes:

- Explanation of how to use the strategy to design inclusive educational experiences.
- Examples of tools that can be used to implement the strategy.
- Alternative ways to use the strategy to extend student learning.
- Images illustrating the strategy or tool.
- Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources.

The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Bloomsbury Curriculum Basics: Teaching Primary Computing Martin Burrett, 2016-08-11 Computers are just for playing games, right? Many of your pupils will think so. It may be a cultural shift for both the pupils and their parents to change that perception of computing. However, the learning gained from the 'games' played on computers in the primary classroom is paramount. The teaching ideas in this book use mostly free tools, which operate across the many platforms that primary schools use. Based on the National Curriculum, the book is split into year groups, and each chapter offers practitioners an essential summary of all the information and vocabulary they need to successfully implement the activity in the classroom.

Think Pink: The Story of DePatie-Freleng Mark Arnold, In 1963, Warner Bros. closed down their long-running cartoon facility that had produced such memorable merrymakers as the Looney Tunes and Merrie Melodies cartoons. Director/producer Friz Freleng and executive David H. DePatie faced unwanted early retirement. A generous parting gesture from a Warner executive allowed Freleng and DePatie to lease the former Warner cartoons studio on California Street in Burbank, complete with equipment and supplies, for a few dollars each year. They teamed up to create animated cartoons for advertising, but not everything behind their enterprise was enchanting. They struggled to keep their small animation studio running against odds and obstacles such as rising costs, heavy competition, outsourcing of labor to other countries, strikes, death, changing directions, and buyouts. They never anticipated how they would soon style a series of cartoon characters that would paint memorable colors over movie animation history. When director Blake Edwards produced *The Pink Panther* starring David Niven, Peter Sellers, Robert Wagner, Capucine, and Claudia Cardinale, he envisioned a cartoon character of the same name to illustrate the opening credits sequence. Edwards hired Freleng and DePatie, together with artists at their DePatie-Freleng Enterprises studio, to design the animated sequence. The crafty magenta furry feline minced his way into moviegoer's hearts. The inspiration behind the ink was the people that worked at the DePatie-Freleng Enterprises (DFE) animation studio. Their hilarious cartoons caused a generation of moviegoers to rock theaters with laughter. Author Mark Arnold returns you to the nostalgic memories of the exhilarating *Pink Panther*

series and other cartoons DFE created.
