Above The City Alicia M. Kershaw,Ginger Thrash,2005-01-01 Above the City: Hiking Hong Kong Island is a unique comprehensive guide to walks and hikes on Hong Kong Island. Many Hong Kong residents and visitors enjoy a few famous hikes, but then are at a loss to find more routes. Above the City takes the walking enthusiast beyond the well-trodden paths and explores all the walks available on Hong Kong Island. Walkers can find outings to suit their every mood, and variations on well-known and well-loved walks. Every walking route on the Island is described in detail, including distance and difficulty ratings. The hikes are organized around "hubs," allowing easy identification. They also are indexed by special interests, such as routes that can be run, that are suitable for families, or the most scenic. Directions to the walks by public transportation and by car are provided, and local amenities, such as rest stops, restaurants and local historical sites are listed. Local residents who are seeking more walking choices, walking groups, or visitors to Hong Kong will find Above the City an invaluable hiking companion. "Can beguiling, solitary hiking trails exist just

kilometres from Hong Kong's crowded streets? Or wild summit panoramas beckon 'above the city'? Alicia Kershaw and Ginger Thrash know they do. With ample practical hints, and obvious delight in hiking, the authors guide us along the many wonderful trails on Hong Kong Island. Knowing the joys of hiking—and how steep Hong Kong hills can seem!—they encourage us to put on our hiking boots.” —Edward Stokes, Hongkong Conservation Photography Foundation “Even more helpful for residents than for visitors, *Above the City* offers clear, concise directions to places seemingly out-of-the-way, yet close to the city. Practical, helpful details, such as bus routes, points of access and places to eat or relax, are interspersed with out-of-the-ordinary elements of local history and ecology, all engagingly brought together in a chatty, enthusiastic style. *Above the City* should be an essential companion for any walk across 'over-crowded' Hong Kong Island's beautiful open spaces.” —Jason Wordie, Hong Kong historian and author

The Deeside Way Peter Evans, 2020-07-09 The Deeside Way is a long-distance path running for 66km (41 miles) from Aberdeen, the oil capital of Europe, to Ballater in Royal Deeside in the Cairngorms National Park. Mainly following the course of old Royal Deeside Railway line, it is suitable for cyclists as well as walkers. There is much to be seen along the Way of scenic beauty, historical interest and thriving wildlife. There are fascinating links to the Romans, to Queen Victoria

and Balmoral and even to bodysnatchers! This new Guide covers all of these, with a wealth of practical information on preparation for the walk, accommodation, transport and much else. As well as describing the Way itself, Peter Evans includes six additional walks in and around Deeside, varying from short low-level walks to mountain summits.

Exploring Aberdeen Rosslyn Nicholson,2020-06 Discover the City of Aberdeen with this book, one walk at a time. Aberdeen, Scotland's third city, contains a diversity of cityscapes and landscapes that few areas can match. From the lofty viewpoints on the outskirts of town, through the granite buildings of the centre to the beach, coastline, and two river estuaries, these routes visit the best of all that Aberdeen has to offer. On foot, there is time to appreciate the small details as well as the bigger picture. The walks are described in detail, with sketch maps to aid navigation. They are everyday walks, which should fit into weekend afternoons or long summer evenings. No special equipment is necessary; if you are able to navigate a rough pavement, the odd kerbstone or step, and perhaps a little mud, this book is for you.

Cooperative Information Agents VII Matthias Klusch,Sascha Ossowski,Andrea Omicini,Heimo Laamanen,2003-08-14 These are the proceedings of the 7th International Workshop on Cooperative Information Agents (CIA 2003), held at the Sonera Conference Center in H- sinki, Finland, August

27-29, 2003. It was co-located with the 4th Agentcities Information Days. One key challenge of developing advanced agent-based information systems is to balance the autonomy of networked data and knowledge sources with the potential payoff of leveraging them by the appropriate use of intelligent information agents on the Internet. An information agent is a computational software entity that has access to one or multiple, heterogeneous, and distributed data and information sources; proactively searches for and maintains relevant information on behalf of its human users or other agents, preferably just-in-time. In other words, it is managing and overcoming the difficulties associated with information overload in the open and exponentially growing Internet and Web. Depending on the application and tasks at hand information agents may collaborate in open, networked data and information environments to provide added value to a variety of applications in different domains. Thus, research and development of information agents is inherently interdisciplinary: It requires expertise in information retrieval, artificial intelligence, database systems, human-computer interaction, and Internet and Web technology. Initiated in 1997, the purpose of the annual international workshop series on cooperative information agents (CIA) is to provide an interdisciplinary forum for researchers, software developers, and managers to get informed about, present, and discuss the latest high-quality results in advancement of theory and practice in information agent technology for the Internet and Web. Each event of this renowned series attempts to capture the intrinsic interdisciplinary nature of this research area by calling for contributions from different research communities, and by promoting open and informative discussions on all related topics.

Ways of Walking Jo Lee Vergunst, Tim Ingold, 2016-12-05 Despite its importance to how humans inhabit their environments, walking has rarely received the attention of ethnographers.

Ways of Walking combines discussions of embodiment, place and materiality to address this significant and largely ignored 'technique of the body'. This book presents studies of walking in a range of regional and cultural contexts, exploring the diversity of walking behaviours and the variety of meanings these can embody. As an original collection of ethnographic work that is both coherent in design and imaginative in scope, this primarily anthropological book includes contributions from geographers, sociologists and specialists in education and architecture, offering insights into human movement, landscape and social life. With its interdisciplinary nature and truly international appeal, Ways of Walking will be of interest to scholars across a range of social sciences, as well as to policy makers on both local and national levels.

Historian's Guide to Early British Maps Helen Wallis, Anita McConnell, 1995-04-06 Great Britain and Ireland enjoy a rich cartographic heritage, yet historians have not made full use of early maps in

their writings and research. This is partly due to a lack of information about exactly which maps are available. With the publication of this volume from the Royal Historical Society, we now have a comprehensive guide to the early maps of Great Britain. The book is divided into two parts: part one describes the history and purpose of maps in a series of short essays on the early mapping of the British Isles; part two comprises a guide to the collections, national and regional. Now available from Cambridge University Press, this volume provides an essential reference tool for anyone requiring to access maps of the British Isles dating back to the medieval period and beyond.

Hiking in Hong Kong Simon Whitmarsh, Andrew Mok, 2022-10-18 Although Hong Kong is often thought of as intrinsically urban, just a short distance from the big cities are lush mountains and attractive and varied countryside. This guide presents the highlights of this hiking-friendly territory, detailing 21 graded day walks and four short treks: Hong Kong Trail (presented in 3 day stages), Lantau Trail (5 days), MacLehose Trail (5 days) and Wilson Trail (5 days). The day walks - of 5 to 22.5km - cover Hong Kong, Kowloon, the New Territories and the islands and range from easy hikes suitable for families to challenging ascents of Hong Kong's highest peaks. The territory's compact nature and excellent public transport infrastructure make it easy to access the routes. The guide has all you need to explore Hong Kong's excellent network of trails. Route description is accompanied by clear mapping and there are comprehensive notes - including Chinese place names - to help visitors navigate the public transport system. Alongside practicalities such as getting there, equipment and weather, information on local points of interest offers an insight into Hong Kong's rich geology, history and culture. The Hong Kong archipelago is one of surprising diversity and contrast, where high-rise modern cities are set against a backdrop of verdant green mountains, and sandy beaches lie right alongside dense jungle. There are also plenty of opportunities for wildlife-spotting and

chances to experience the fascinating 'East meets West' culture. This guide is the perfect companion to discovering the fantastic walking on offer in the 'Pearl of the Orient'.
