Lawyers on Trial Richard L. Abel, 2011 People need lawyers for many things, including tax and immigration advice, drafting contracts, preparing wills, buying and selling houses, forming and dissolving companies, and representation and advice during divorce, probate, personal injury and criminal charges. But many people do not trust lawyers. With good reason, they fear that lawyers will neglect or overcharge them, betray them out of self-interest or on behalf of others, or obstruct the pursuit of justice out of overzealousness. Although the legal profession drafts ethical rules, law schools teach those rules, the bar exam tests lawyers' knowledge, and disciplinary bodies enforce them, we know that violations by lawyers are all too common. *Lawyers on Trial: Understanding Ethical Misconduct by California Attorneys*, by Richard L. Abel, presents six dramatic accounts of California lawyers who betrayed their clients and the legal system. Through the detailed records of the disciplinary proceedings, it examines some of the most common complaints about lawyers: chasing ambulances, charging excessive fees, violating conflict of interest rules, and displaying excessive zeal. These complex and compelling dramas serve to make the ethical rules, and the temptations they seek to curb, come vividly alive for law students, lawyers, those thinking of becoming lawyers, anyone who has been or might some day be a client, and the general public. The lessons to be drawn from these situations can help the legal profession and the public devise better strategies for ensuring that lawyers abide by the rules.

Online Legal Services for the Client-Centric Law Firm Stephanie L. Kimbro, 2015-02

El libro rojo del marketing en las firmas de abogados María Luisa Méndez Sordo, 2013-01-08 El Libro Rojo del Marketing en las Firmas de Abogados sale al mercado en un momento necesario. De un tiempo a esta parte, el marketing de servicios jurídicos recibe una inusual cobertura mediática pero plagada, en cierto modo, de mensajes contradictorios. Ya se ha superado el desconocimiento y la sorpresa que el término Marketing provocaba entre los abogados hasta hace poco. La incorporación de profesionales -internos y externos- del marketing en los despachos de abogados es ya una realidad y la presencia de noticias y artículos sobre el sector resulta incluso cotidiana. Sin embargo, todo ello no es más que la punta del iceberg. La revolución está a punto de suceder: ya no se identifica el marketing con actividades relacionadas con la comunicación o la imagen corporativa sino que por fin empieza a utilizarse en el sector para planificar y diseñar la estrategia de los despachos, buscando el mejor modo de satisfacer y superar las expectativas de los clientes de forma rentable. El Libro Rojo recoge, desde un punto de vista académico y pragmático, la situación actual en el marketing de servicios jurídicos; realiza un análisis crítico y enriquecedor para después predecir las conductas que se seguirán los próximos años en España.

Tomorrow's Lawyers Richard Susskind, 2023-01-23 In its first and second editions, Tomorrow's Lawyers became an international bestseller, widely read and cited by practitioners and students. The third edition focuses on the law and lawyers in the 2020s. For Richard Susskind, the future of legal service is neither Grisham nor Rumpole. Instead, he predicts a world of online courts, AI-based

global legal businesses, disruptive legal technologies, liberalized markets, commoditization, alternative sourcing, simulated practice on the metaverse, and many new legal jobs. This volume is a definitive and updated introduction to this future - for aspiring lawyers, and for all who want to modernize and upgrade our legal and justice systems. It offers practical guidance for everyone intending to build careers and businesses in law. Written in an era of greater technological advance than humanity has ever witnessed, this work is a call to arms: it challenges those who feel that the law and lawyers are somehow immune from technological advance; it draws attention to the unaffordability and inaccessibility of legal service, for businesses and citizens alike; it invites the next generation of lawyers to harness the power of technology in improving and even overhauling the way in which legal and court service is currently provided. Tomorrow's Lawyers identifies new opportunities for lawyers, new ways of helping clients and the community. It enjoins its readers to become involved in building the systems that will replace outmoded forms of legal work. It argues that it is both a privilege and an obligation for tomorrow's lawyers to embrace and bring about change. A must-read for legal undergraduates, aspiring and young lawyers, senior practitioners, leaders in law firms and legal businesses, law professors and law teachers.
