Ahead in the Cloud Stephen Orban,2018-03-27 Cloud computing is the most significant technology development of our lifetimes. It has made countless new businesses possible and presents a massive opportunity for large enterprises to innovate like startups and retire decades of technical debt. But making the most of the cloud requires much more from enterprises than just a technology change. Stephen Orban led Dow Jones's journey toward digital agility as their CIO and now leads AWS's Enterprise Strategy function, where he helps leaders from the largest companies in the world transform their businesses. As he demonstrates in this book, enterprises must re-train their people, evolve their processes, and transform their cultures as they move to the cloud. By bringing together his experiences and those of a number of business leaders, Orban shines a light on what works, what doesn't, and how enterprises can transform themselves using the cloud.

This Book Is Made of Clouds Misha Maynerick Blaise,2021-05 This Book Is Made of Clouds is a playful invitation for young minds to explore how they are connected to nature, the universe, and all of humanity. Everything is connected to everything else, from the ocean's phytoplankton who create half of the oxygen we breathe, to the clouds whose rain nourishes the trees from which books are made (including this one!). Filled with cheerful, detailed illustrations, this Book Is Made of Clouds promotes holistic thinking and inspires wonder for the world around and within us all. Perfect for curious kids, elementary classrooms eager for STEAM content, and caregivers who want to encourage children to contemplate our oneness with the earth and all of humanity.

Feet in the Clouds Richard Askwith,2013-05-09 Nearly 10 years after its first publication, Aurum are re-issuing this classic running book which has defined a genre. It includes an introduction from bestselling author Robert Macfarlane and an epilogue from Richard Askwith. The concept of fell-running is simple: it's a sport that involves running over mountains – sometimes one, sometimes many. It's also immensely demanding. While running uphill is a stamina-sapping slog, running pell-mell down the other side requires the agility – and even recklessness – of a mountain goat. And there's the weather to contend with. It may make the sports pages only rarely, but in areas like the Lake District and Snowdonia fell-running is the basis of a whole culture – indeed, race organisers sometimes have to turn competitors away so that fragile mountain uplands are not irrevocably damaged by too many thundering feet. Fixtures like the annual Ben Nevis and Snowdon races attract runners from all over Britain, and beyond. Others, such as the Wasdale and Ennerdale fell runs in the Lakeland valleys – gruelling marathons of more than 20 miles – remain truly local events for which the whole community turns out, with many of the runners back on the same fells the next day tending sheep. Now, Richard Askwith explores the world of fell-running in the only legitimate way: by donning his Ron Hill vest and studded shoes to spend a season running as many of the great fell races as he can, from Borrowdale to Ben Nevis: an arduous schedule that tests the very limits of one's stamina and courage. Over the months he also meets the greats of fell-running

- like the remarkable Joss Naylor, who to celebrate his fiftieth birthday ran all 214 major Lakeland fells in a single week; Billy Bland, the combative Borrowdale man whose astounding records still stand for many of the top races; and Bill Teasdale, a hero of the sport's earlier, professional days, whom he tracks down to his tiny cottage in the northern Lakes. And ultimately Askwith's obsession drives him to attempt the ultimate challenge: the Bob Graham Round - a non-stop circuit of 42 of the Lake District's highest peaks to be completed within 24 hours. This is a portrait of one of the few sports to have remained utterly true to its roots - in which the point is not fame or fortune but to run the ancient, wild landscape, and to be a hero, if at all, within one's own valley. Feet in the Clouds is a chronicle of a masochistic but admirable sporting obsession, an insight into one of the oldest extreme sports, and a lyrical tribute to Britain's mountains and the men and women who live among them.

Revelation Craig S. Keener, 2009-09-13 The NIV Application Commentary helps you communicate and apply biblical text effectively in today's context. What can we know about the book of Revelation? What should we make of its visions of apocalyptic horsemen, horns with faces, flying angels, and fantastic beasts? Most important, what meaning does it hold for us here and now, and how can we apply it to our lives? Craig S. Keener shares perspectives on Revelation and helps us strengthen our hope in the future while living out our faith wisely in the present. To bring the ancient messages of the Bible into today's context, each passage is treated in three sections: Original Meaning. Concise exegesis to help readers understand the original meaning of the biblical text in its historical, literary, and cultural context. Bridging Contexts. A bridge between the world of the Bible and the world of today, built by discerning what is timeless in the timely pages of the Bible. Contemporary Significance. This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the

readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved. This unique, award-winning commentary is the ideal resource for today's preachers, teachers, and serious students of the Bible, giving them the tools, ideas, and insights they need to communicate God's Word with the same powerful impact it had when it was first written.

Above the Clouds Jonathan Bach,1993 Jonathan Bach, the son of author Richard Bach, was named after the soaring, learning spirit of his father's most famous book, Jonathan Livingston Seagull. Jonathan was two years old when Richard left the family and divorced his wife, creating what society calls a broken home. From the day he was told that Richard didn't want to be a dad, Jonathan had an excuse to hate his father, to see him as nothing more than a failure and a coward. Above the Clouds is the true story of how Jonathan's compelling search to learn the truth amid a sea of half-truths gave him the courage at age twenty-one to plow through his confusion and meet Richard. It is how Jonathan and Richard finally begin to know each other. As Jonathan establishes a loving relationship with his father, he discovers that Richard is not a failure as a father. He learns that being from a broken home is not a destiny for self-destruction; that we can choose not to learn or we can check our assumptions by opening our minds; we can stay safe in the walls we build to protect us or we can shatter them to make peace with the past and live an enlightened future.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
