The Papers of George Washington, Presidential Series: March-August 1792 George Washington,2002

The Papers of George Washington: 1 March-15 August 1792 George Washington,1987 The Papers of George Washington, a grant-funded project, was established in 1968 at the University of Virginia, under the joint auspices of the University and the Mount Vernon Ladies' Association of the Union, to publish a comprehensive edition of Washington's correspondence. Letters written to Washington as well as letters and documents written by him are being published in the complete edition that will consist of approximately ninety volumes. The work is now (2011) more than two-thirds complete. The edition is supported financially by grants from the National Endowment for the Humanities, the National Historical Publications and Records Commission, the Mount Vernon Ladies' Association, the University of Virginia, and gifts from private foundations and individuals. Today there are copies of over 135,000 Washington documents in the project's document room. This is one of the richest collections of American historical manuscripts extant. There is almost no facet of research on life and enterprise in the late colonial and early national periods that will not be enhanced by material from these documents. The publication of Washington's papers will make this source material available not only to scholars but to all Americans interested in the founding of their nation.--

Reading Roger Williams Linford D. Fisher,Sheila M. McIntyre,Julie A. Fisher,2024-03-22 Roger Williams is best known as the founder of Rhode Island who was banished from Massachusetts in 1636 for his dangerous thoughts on religious liberty. But the city and colony Williams helped to found was deep in Native country situated between the powerful Narragansett and Wampanoag nations. The Williams that emerges from the documents in this collection is immersed in a dynamic world of Native politics, engaged in regional and trans-Atlantic debates and conversations about religious freedom and the separation of church and state, and situated at the crossroads of colonial outposts and powerful Native nations. Williams lived among and relied on the generosity of his Narragansett neighbors and yet he was a Native enslaver and part of a process that dispossessed regional Indigenous populations. He could establish a colony based on full religious freedom and yet bitterly complain and campaign against residents with whom he disagreed, such as Samuel Gorton or the Quakers. For the first time, Reading Roger Williams offers readers the opportunity to explore the many facets of Williams's life by including selections from all of his writings, starting with his life in London and ending with one of his final letters, written when he was nearly eighty years old. Each document includes an introduction and annotations to help the reader better understand the text and context.

Robert Burns and Religion Walter McGinty,2018-02-05 This title was first published in 2003. This text examines the role of religion in the life of the poet Robert Burns. Incorporating previously unexplored sources, and taking into consideration contemporary work on Burns, and on Scottish literature and history, author J. Walter McGinty presents an account of Burns's personal religion and the factors that helped to form it. McGinty begins by discussing the recurring themes in Burns's religious writings: a belief in a benevolent God; a hankering after, if not a hope, that there might be a life after death; and a sense of his own accountability. He then presents for comparison the religious poetry of two of Burns's contemporaries, William Cowper and Christopher Smart, usefully extending the discussion of Burns beyond the purely Scottish context. Finally, McGinty provides portraits of some of the ministers of The Church of Scotland's Garland-A New Song, followed by an analysis of Burns's religious poetry.
