The End of Empires and a World Remade Martin Thomas,2024-03-19 A capacious history of decolonization, from the decline of empires to the era of globalization Empires, until recently, were everywhere. They shaped borders, stirred conflicts, and set the terms of international politics. With the collapse of empire came a fundamental reorganization of our world. Decolonization unfolded across territories as well as within them. Its struggles became internationalized and transnational, as much global campaigns of moral disarmament against colonial injustice as local contests of arms. In this expansive history, Martin Thomas tells the story of decolonization and its intrinsic link to globalization. He traces the connections between these two transformative processes: the end of formal empire and the acceleration of global integration, market reorganization, cultural exchange, and migration. The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse. In the second half of the twentieth century, decolonization catalyzed new international coalitions; it triggered partitions and wars; and it reshaped North-South dynamics. Globalization promised the decolonized greater access to essential resources, to wider networks of influence, and to worldwide audiences, but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences. In surveying these two codependent histories across the world, from Latin America to Asia, Thomas explains why the deck was so heavily stacked against newly independent nations. Decolonization stands alongside the great world wars as the most transformative event of twentieth-century history. In *The End of Empires and a World Remade*, Thomas offers a masterful analysis of the greatest process of state-making (and empire-unmaking) in modern history.

Kashmir Crisis Saroja Sundararajan,2010 *Kashmir Crisis: Unholy Anglo-Pak Nexus*, painstakingly researched and documented, provides an exhaustive study of the history of the crisis from 1947 to 1971. The initial Chapters speak of the splendour of Hindu Kashmir, its brilliant contribution to the cultural integration of India since time immemorial; and the forcible conversion of the Hindu population to Islam starting from the beginning of the fourteenth to the mid-nineteenth century by which time nine-tenths of the Hindus had become Muslims making Kashmir a Muslim majority State. The book then proceeds to present a connected and cogent account of the ghastly events that rocked Kashmir for about a quarter of a century following her accession to India in October 1947. Britain throughout played a partisan role not only when India took the matter to the UN but also in the wars of 1947 and 1965.
