The Death of Expertise Tom Nichols,2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

11 - 11 - 11 (Book 1 of John Rachel's End-of-the-World Trilogy) John Rachel,2015-12-01 Meet Noah Tass. Follow him as he tries to escape his hayseed hometown in Missouri. This is not a movie. This is someone's life. Noah was turning 23 and desperate leave. Pulnick had forever been a blemish on the anemic face of rural Bible-belt America. Always bland and soporific, it was now being invaded by white supremacist meth heads, visited by an unprecedented crime wave, exploited by

spiritualists and local politicians, and driven to hysteria by paranoid rumors that the world would end on November 11th. Moreover, Noah's personal life was becoming more convoluted by the day. Everything seemed to conspire against his singular need to get out of this dreary, dead-end, death-wish armpit of a town. "11-11-11" is what you call a feel good novel. You'll feel good about your own life when you get a load of the losers who populate this living graveyard!

It Can't Be True! 2 DK, 2016-09-13 All the amazing facts in this book are strange but true. With clever, yet easy-to-understand visual comparisons, you will make sense of things that seem too bizarre to be real. In *It Can't Be True! 2*, you can see a hippo's mouth large enough to swallow a car, a truck strong enough to carry 90 elephants, and a jellyfish longer than three blue whales. Plus, did you know that all the world's continents could fit into the Pacific Ocean? Or that all the world's trees could fill North and South America combined? These concepts are brought to life with fascinating CGI artworks. Find out how much paper you'd need to print out the World Wide Web (hint: it's a stack taller than the height of Earth's globe), how much sweat your feet produce in a day (it could fill a glass), and much more in this collection of weird facts and world records from planet Earth and space, animals and plants, people, and technology. If you think it can't be true, *It Can't Be True! 2* will prove that it is!

Stuff You Should Know Josh Clark, Chuck Bryant, 2020-11-24 From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless whys and hows from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).
