Abstract Art Dietmar Elger,2017 The 20th century saw art go abstract. Where once clear certainties and indisputable forms prevailed, now anarchy seemed to reign supreme. Sensibilities diffused into strange new shapes, colors assumed new significance, lines abandoned literal meaning. Dive in and discover some of the most dynamic and progressive art of modernity.

*Beginner's Guide to Abstract Art* Laura Reiter,2014-12-08 The Beginner's Guide to Abstract Art is an inspirational but practical book that will help artists to paint in a less figurative way. Laura Reiter demonstrates different ways to approach an abstract painting from 'just a little bit abstract' to 'completely abstract'. She does this by focussing on ideas and themes as starting points, looking at the creative processes involved and more unusual

techniques. Laura Reiter also covers how to use materials creatively – watercolour, acrylics, mixed media and collage – and how to experiment with colour and composition. There is also details on texture, simple printing, mark making, colour and its meaning, and sources of inspiration. Several projects are included, and, in addition to Laura's vibrant, colourful paintings, the work of several other contemporary abstract artists is featured. Previously published in hardback as Painting Accessible Abstracts.

**Abstract Art** Pepe Karmel, 2020-11-17 A leading authority on the subject presents a radically new approach to the understanding of abstract art, in this richly illustrated and persuasive history. In his fresh take on abstract art, noted art historian Pepe Karmel chronicles the movement from a global perspective, while embedding abstraction in a

recognizable reality. Moving beyond the canonical terrain of abstract art, the author demonstrates how artists from around the world have used abstract imagery to express social, cultural, and spiritual experience. Karmel builds this fresh approach to abstract art around five inclusive themes: body, landscape, cosmology, architecture, and man-made signs and patterns. In the process, this history develops a series of narratives that go far beyond the established figures and movements traditionally associated with abstract art. Each narrative is complemented by a number of featured abstract works, arranged in thought-provoking pairings with accompanying extended captions that provide an in-depth analysis. This wide-ranging examination incorporates work from Asia, Australia, Africa, and South America, as well as Europe and North America, through artists ranging from Wu Guanzhong, Joan Miró, Jackson Pollock, to Hilma af Klint, and Odili Donald Odita. Breaking new ground, Karmel has forged a new history of this key art movement.

**Abstract Art (Second) (World of Art)** Anna Moszynska, 2020-04-14 An exceptionally clear, thorough, and well-illustrated introduction to abstract art since 1900. Since the early years of the twentieth century, Western abstract art has fascinated, outraged, and bewildered audiences. Its path to acceptance within the artistic mainstream was slow. This revised edition traces the origins and evolution of abstract art, placing it in broad cultural context. Well-respected scholar Anna Moszynska examines the pioneering work of Hilma af Klint, Wassily Kandinsky, Kazimir Malevich, and Piet Mondrian alongside the Russian Constructivists, the De Stijl group, and the Bauhaus artists, contrasting European geometric abstraction in the 1930s and '40s with the emphasis on personal expression after World War II. Op, kinetic, and minimal art of the postwar period is discussed and illustrated in

detail, and new chapters bring the account up to date, exploring the crisis in abstraction of the 1980s and its revival—in paint, fabric, sculpture, and installation—in recent decades. The first edition of *Abstract Art*, published in 1990, was acclaimed by reviewers. Revised with extensive updates, this book includes new chapters on recent trends and offers fully global coverage of art produced in North and South America, Europe, China, Korea, and the Middle East. Now in full color and comprehensively revised, it will serve as the best introduction to abstract art for a new generation.

*The Artist's Journey* Nancy Hillis, 2023-01-16 If you yearn to say yes to your deepest expression in your art and life, this self-help book is for you. Dr. Hillis guides you past resistance on your artist's journey so you can finally trust yourself, develop confidence and cultivate deep exploration and experimentation in your art. Bonus resource library with videos lessons and book club guide.

**Abstraction in Art and Nature** Nathan Cabot Hale, 2012-06-19 In this stimulating, thought-provoking guide, a noted sculptor and teacher demonstrates how to discover a rich new design source in the abstractions inherent in natural forms. Through systematic study of such properties as line, form, shape, mass, pattern, light and dark, space, proportion, scale, perspective, and color as they appear in nature, students can learn to utilize the infinite variety and diversity of those elements as a wellspring of creative abstraction. The author invites students to learn the necessary techniques through a series of projects devoted to exploring and drawing plants, animals, birds, landscapes, seascapes, skies, and more. Lines of growth and structure, water and liquid forms, weather and atmospheric patterns, luminosity in plants and animals, earth colors and lightning are among the

sources of abstraction available to the artist who is aware of them. This book will train you to see and use these elements and many more. An intriguing blend of art, psychology, and the natural sciences, *Abstraction in Art and Nature* is profusely illustrated with over 370 photographs, scientific illustrations, diagrams, and reproductions of works by the great masters. It not only offers a mind-stretching new way of learning and teaching basic design, but deepens our awareness of the natural environment. In short, Mr. Hale's book is an indispensable guide that artists, teachers, and students will want to have close at hand for instruction, inspiration, and practical guidance.

*Inventing Abstraction, 1910-1925* Leah Dickerman, Matthew Affron, 2012 This book explores the development of abstraction from the moment of its declaration around 1912 to its establishment as the foundation of avant-garde practice in the mid-1920s. The book brings together many of the most influential works in abstraction's early history to draw a cross-media portrait of this watershed moment in which traditional art was reinvented in a wholesale way. Works are presented in groups that serve as case studies, each engaging a key topic in abstraction's first years: an artist, a movement, an exhibition or thematic concern. Key focal points include Vasily Kandinsky's ambitious *Compositions V, VI and VII*; a selection of Piet Mondrian's work that offers a distilled narrative of his trajectory to Neoplasticism; and all the extant Suprematist pictures that Kazimir Malevich showed in the landmark 0.10 exhibition in 1915. Exhibition: MoMA, New York, USA (23.12.2012-15.4.2013).

**Abstract Painting** Jane Davies, 2017-06-12 *Abstract Painting: The Elements of Visual Language* examines and articulates a vocabulary of visual elements from which you build images, abstract or otherwise. As you examine line, shape, pattern, texture, depth, and color in detail, you become more aware of the elements that make up a painting, and better able to observe your own work without judgment and self-criticism. Generously illustrated with over 200 color images, this book will open your eyes to a whole new way of seeing your paintings as they develop, allowing you to be more personally expressive and authentic in your artistic expression.

*Meanings of Abstract Art* Paul Crowther, Isabel Wünsche, 2012-10-12 Traditional art is based on conventions of resemblance between the work and that which it is a representation of. Abstract art, in contrast, either adopts alternative modes of visual representation or reconfigures mimetic convention. This book explores the relation of abstract art to nature (taking nature in the broadest sense—the world of recognisable objects, creatures, organisms, processes, and states of affairs). Abstract art takes many different forms, but there are shared key structural features centered on two basic relations to nature. The first abstracts from nature, to give selected aspects of it a new and extremely unfamiliar appearance. The second affirms a natural creativity that issues in

new, autonomous forms that are not constrained by mimetic conventions. (Such creativity is often attributed to the power of the unconscious.) The book covers three categories: classical modernism (Mondrian, Malevich, Kandinsky, Arp, early American abstraction); post-war abstraction (Pollock, Still, Newman, Smithson, Noguchi, Arte Povera, Michaux, postmodern developments); and the broader historical and philosophical scope.

Abstract Art Mel Gooding, 2001 This series introduces the major movements in late nineteenth and twentieth-century art. Each book is illustrated with works from Tate and other major collections around the world. In a new approach to the subject, the author rejects the view that the story of abstraction can be traced as a succession of stylistic trends each set within its particular art-historical context. He offers instead readings of specific paintings and sculptures by artists such as Kasimir Malevich, Naum Gabo, Piet Mondrian, and Jackson Pollock, treating them as exemplary of particular tendencies within the overlapping histories of abstraction.

**Constructive Spirit** Mary Kate O'Hare, Karen Anne Bearor, 2010 The first survey of Pan-American geometric abstraction between the 1920s and 1950s, *Constructive Spirit: Abstract Art in South and North America, 1920s-50s* provides a fresh and innovative look at this dynamic and cosmopolitan period of Modernism in the Americas. In the first half of the twentieth century, South American and US artists infused the hard-edge lines and geometric shapes of abstract art with new perspectives. This richly illustrated book examines the connections, both conceptual and personal, among abstract artists from Argentina, Brazil, the United States, Uruguay, and Venezuela, suggesting parallels that cut across time, national borders, and a range of media. It begins with the arrival of Torres-

García in New York City in 1920, and culminates in the 1950s, as North and South American abstract artists converged in the international arena in such exhibition venues as the Bienal de São Paulo. Released in conjunction with the traveling exhibition organized by the Newark Museum, *Constructive Spirit* presents more than ninety rarely seen paintings, sculptures, prints, photographs, drawings, and films, from private and public collections across both continents. The sixty-eight featured artists include the renowned-Alexander Calder, Joaquín Torres-García, Jesús Rafael Soto, and Arshile Gorky, for example-as well as those who deserve much wider recognition, such as Charmion von Wiegand, Geraldo de Barros, Alfredo Hlito, and many others. Essayists Karen A. Bearor, Tricia Laughlin Bloom, Aliza Edelman, Adele Nelson, Mary Kate O'Hare, and Cecilia de Torres offer new insights as they investigate the ideas and influences that informed South and North American artists' transformation of abstraction into a language of their own.

*Conceptual Abstraction* Pepe Karmel,Joachim Pissarro,2012 *Conceptual Abstraction* was the title of a landmark exhibition held at the Sidney Janis Gallery in New York in 1991. Abstract art was then out of fashion, and the news that a blue-chip gallery like Janis was doing a show of new abstract painting stirred up excitement in the art world, inspiring competing surveys and a raft of articles by artists and critics. More than 20 years later, the Hunter College Art Galleries are presenting a new iteration of the show, reuniting the original group of painters: Ross Bleckner, David Diao, Lydia Dona, Christian Eckart, Stephen Ellis, Peter Halley, Mary Heilmann, Valerie Jaudon, Richard Kalina, Shirley Kaneda, Bill Komoski, Jonathan Lasker, Sherrie Levine, Thomas Nozkowski, David Reed, David Row, Peter Schuyff, Philip Taaffe, Stephen Westfall and John Zinsser. This volume includes a

facsimile of the 1991 catalogue with its introduction by Carroll Janis and statements by the artists.

**Abstract Art in the Late Twentieth Century** Frances Colpitt, 2002-01 By the middle of the 20th century, abstraction was the accepted language of art as practiced by painters and articulated by critics, who began to investigate its historical and theoretical dimensions. *Abstract Art in the Late Twentieth Century* includes seminal essays on abstract painting by eleven of its most incisive critics and written over four decades, between 1960 and 2000. Tracing the post-Greenbergian development of such critical issues as hard-edge painting, deductive and serial structure, monochrome abstraction, the psychological analogy, regionalism, and the 'death of painting' in post-modernism, they examine works by Ad Reinhardt, Frank Stella, Brice Marden, Sherrie Levine, and Gerhard Richter, among others. The introduction and commentary by Frances Colpitt situates the essays historically and examines their philosophical sources and influences, from formalism and phenomenology, to structuralism and poststructuralism. What emerges is a coherent and optimistic picture of abstract painting, the definitive contribution of modern art.

Abstract Painting Vicky Perry, 2005 Build on the techniques of the great abstract artists to create their own innovative new work. Clear, comprehensible sections let artists focus quickly on their specific areas of interest. The first section, on Traditional Painterly Abstraction, using brush and easel, looks at pictorial space, brushwork, paint quality, and collage. The second section, on Post-Painterly Modern Abstraction, considers options ranging from the pour-and-spatter techniques of Jackson Pollock to the staining, scraping, and abrading of modern acrylic artists. Step-by-step recipes for key approaches show

artists how to get the best aesthetic results.

Constructed Abstract Art in England After the Second World War Alastair Ian Grieve, 2005 Much admired as a realist painter, English artist Victor Pasmore surprised the art world in 1948 by suddenly directing his efforts toward the making of constructed abstract art. Pasmore was followed by Kenneth and Mary Martin, Adrian Heath, and the sculptor Robert Adams, and the group was later joined by John Ernest and Gillian Wise. This book follows the development of this major avant garde group and explores why they have received so little attention until now. Alastair Grieve draws on personal discussions with these artists over many years and on extensive archival materials, including ephemeral catalogues which are difficult to find today. He offers much new information about the group and their theories, the Continental roots of their constructed abstract art, and their links with such contemporaries as American relief artist Charles Biederman and English constructivist Stephen Gilbert. The book features over 300 illustrations, many in color, and a full chronology and bibliography.
