**Alien Entanglement** K. Paul Gomel, 2020-04-24 She looks down at Earth through the front portal of her space craft, excited that she will soon be arriving home. She wants her last days to be spent on Earth even though she has never been there before. She does not have a human body and she has never seen a complete human being. The most human thing about her is her brain. It is very frustrating to her that she cannot communicate in a spoken or written language. What if her spaceships are being followed? She nervously checks the rear portal for evidence of pursuing enemy ships. She is conflicted, she wants to go to Earth to see her people and protect them. But the journey there may end up with its destruction if the enemy knows where her spacecrafts are heading. If Earth is to survive, the enemy cannot know of the experiments conducted there a very long time ago. At any cost she will not allow the humans to suffer the same horrible fate that she has had to endure all her life. Her inaction may cause the purging of the human essence from her people. She must act fast - there is very little time before her masters arise. She must quickly come up with a plan that will leave the humans as they are - alive and human. First she will have to recruit a few others like her while keeping her hibernating masters oblivious to her scheme. Fortunately, she is in charge while her masters hibernate. After the plan has been communicated to her recruits, she must not think about it anymore. After all, when the masters awaken, they will instinctively know something is wrong. This is the backdrop to an exciting journey about alien-human entanglement. Human characters, using alien implanted communication methods, become the mediators between two warring alien nations. A page turner with a difference, it explores the humanness in a way that has not yet been done before. Ultimately, will the humans be able to stop the aliens from annihilating each other and demolishing Earth in the process? Humans are computers with viruses, only this

virus is different...

**A Death in Live Oak** James Grippando, 2018-02-06 From the 2017 winner of the Harper Lee Prize for legal fiction comes a powerful and timely story of race, politics, injustice, and murder as shocking and incendiary as today's headlines. When the body of Jamal Cousin, president of the pre-eminent black fraternity at the Florida's flagship university, is discovered hogtied in the Stygian

water swamps of the Suwanee River Valley, the death sets off a firestorm that threatens to rage out of control when a fellow student, Mark Towson, the president of a prominent white fraternity, is accused of the crime. Contending with rising political tensions, racial unrest, and a sensational media, Towson's defense attorney, Jack Swyteck, knows that the stakes could not be higher—inside or outside the old Suwanee County Courthouse. The evidence against his client, which includes a threatening text message referencing strange fruit on the river, seems overwhelming. Then Jack gets a break that could turn the case. Jamal's gruesome murder bears disturbing similarities to another lynching that occurred back in the Jim Crow days of 1944. Are the chilling parallels purely coincidental? With a community in chaos and a young man's life in jeopardy, Jack will use every resource to find out. As he navigates each twist and turn of the search, Jack becomes increasingly convinced that his client may himself be the victim of a criminal plan more sinister than the case presented by the state attorney. Risking his own reputation, this principled man who has devoted his life to the law plunges headfirst into the darkest recesses of the South's past, and its murky present, to uncover answers. For Jack, it's about the truth. Traversing time, from the days of strict segregation to the present, he'll find it—no matter what the cost—and bring much-needed justice to Suwanee County.

*Travel Your Way* Nathan James Thomas, 2022-02-15 Travel is the opposite of prejudice; it is curiosity, openness, and connection. Now, when our world is in flux, travel matters more than ever. How we travel has changed, but why we travel has not. With barriers and restrictions coming and going at a dizzying rate, now is the time to learn how to make the most out of whatever travel opportunities we are able to seize. With the right techniques and attitude, travel can open our eyes to new cultures and dispel stereotypes. It can force us out of our comfort zone. However, the

benefits travel can unlock - increased understanding of the world, greater courage, better connection between cultures - don't come automatically. Truly experiencing foreign cultures is something we need to work at. From advice on how to accurately understand new places to practical tips on meeting with locals, overcoming the language barrier, and asking the right questions, *Travel Your Way* shows you how to discover the world on your own terms. The result is a more rewarding journey and a greater sense of connection to everywhere you go, whether you're on a business trip, or backpacking across the globe. Learn how to make the most of every place you go by seeing the world with open, curious eyes, plan with excitement for future journeys, and reflect with greater appreciation on the travels you have experienced so far.

The Big Karma Law Firm Bob Waterstripe, 2023-10-07 Savage satire that reads like binge-watching a hilarious dark dystopian action series. The Big Karma Law Firm files \$18 billion of Texas vigilante abortion lawsuits, funded by millions of vengeful donors to non-profit Punish Baby-Killers. In other news, Big Karma battles fossil fuels, banks, insurance companies, the Pharma Cartel, and other malefactors. Native American news anchor Diana Dakota helps the new owners of MAXNEWS enact a \$10 Million Truth Guarantee and achieve #1 ratings. The guaranteed truth is more outrageous than any conspiracy theory. One example: how "donors" to Members of Congress and Senators earn 60,000% annual returns on their bribes. Another: how a New York Times article in 1970 led to the top 1% of Americans sucking over \$50 trillion in wealth from the bottom 90%, about \$167,000 for every American in the 90% today, including little babies. All of this is just part of 33-year-old Fort Sumter's Plan to Save the World. Now he and his team have the billions they need for the next step, using money in politics — to end money in politics. Meanwhile, the Supreme Court continues to consign human rights to the mercy of state legislatures. Thousands of women and girls

die from routine complications of pregnancy while saving them would put doctors in prison. 10-year-old girls are forced to carry rape babies or die trying. Red states enforce travel bans for pregnant people and protective custody for fetuses. Non-profit No Rights No Nookie (NRNN) helps millions of women to legally ban sex in their relationships and advises on humane lethal enforcement techniques that keep blood off your nice duvet. Suicide by rape is now a thing. Men are left to take matters into their own hands. With no restrictions on firearms, mass shootings outpace gun sales. Red states scramble to copy Texas' Good Kids With Guns Act, arming kids in classrooms. First-person mass shooter videos in slow motion set to music get over 5 billion views per day on Bullet Ballet. Drought, floods, fires, hurricanes, and heat domes create millions of American climate refugees, adding to the rush of economic and political refugees from Red states. Then, just months before an election, 170 million American women find out that the Equal Rights Amendment to the U.S. Constitution was never ratified. What else could go wrong? Turns out, plenty.

*Solo Leveling, Vol. 6 (novel)* Chugong, 2022-12-13 "MAY ALL THAT YOU WISH TO PROTECT BURN TO ASHES..." Having witnessed the staggering power of the Shadow Monarch, Jinwoo can't wait to level up and reach those heights, and what better way to do so than to mobilize his army of soldiers against an S-rank dungeon's worth of giants? Saving a country abandoned by the rest of the world has its benefits—international renown, the expansion of his guild, an invitation to the most prestigious hunter conference in the world—but perhaps the most unexpected bonus is a run-in with another Monarch who brings not-so-welcome tidings. If he's to be believed, a war is coming that not even Jinwoo is strong enough to stop...

**Bombay Review & Other Stories** Ravi Valluri, *Bombay Review & Other Stories* is a collection of stories inspired by real life incidents. The stories are woven around tales of drama, romance,

unrequited love, unbridled ambition, avarice, murder mysteries, politics, legacies, the conflict between ethics and what is purportedly unethical, about writers (accomplished and the one's emerging), singers and artistes, betrayal, issues pertaining to sexuality, sex change, faith, hope, and the law of attraction. The drabbles are drawn on occurrences which take place around us in our daily lives. I have been inspired by the epic Mahabharata, Panchatantra tales, and Zen stories as they capture human emotions and behaviour in totality which resonate in my stories in current days. To my mind life is a synodic curve, with upheavals, storms, vicissitudes, and great moments. Nothing is purely white or black. There is a vast shade of grey in between. Humans always have a choice before them and take the plunge. Characters like Karna, Arjuna, Dronacharya, Buddha, Ashwathama, Bhishma, Duryodhana, Shakuni, various Zen Masters and heroes and villains from Panchatantra find a place in the stories set in present times.

The Cleaning Crew Richard D. Hayes, 2016-04-15 Matt and Jeremy are two successful businessmen in their sixties wondering what to do with the rest of their lives. They decide to do something grand and to recruit enough people like themselves, successful, rich, and experienced in life, to form a political group. The group would campaign against corruption and win both the legislature and the management positions in Massachusetts, from governor to district attorney, then accomplish nine specified goals, leaving the state in good shape four years later. Then each can retire having accomplished the fantastic goal of cleaning up and restoring the ship of state. Taking on an impossible task, much like Don Quixote taking on the windmills, the group comes together, calls itself the cleaning crew, and carries out an exciting, offbeat and eyebrow-raising campaign culminating in what will become known as the Century Vote. With humor and the absence of the political corruption and infighting of the self-interested political class, Matt, Jeremy and others gather ever-increasing numbers of disaffected voters even as political intrigue, government abuse of power, vote-changing, litigation, and even murder are thrown in their path.

*Digital in Health* Hanno Wolfram, 2019-10-22 Indicating ways to improve patient-outcome was the main driver writing this book. Two years of research, structuring, collecting, and writing around the central subject of our days: digital. Similar to other spheres of our lives, digital has the power to change many aspects of healthcare and improve patient's lives. Not only tells the book about the obvious, but also points to many use-cases and innovative examples of digital in health. By definition,

digital interconnects and integrates people and things. Maybe some of the players in healthcare find the idea of working across sectors harmful to their own business model? Digital in health in any case means leaving traditional comfort zones. Besides telling about the digital past and present, the book *Digital in Health* defines, conveys ideas, triggers concepts, and indicates digital business models and cases already existing. In contrast to what we encounter every day, digital concepts in healthcare are lagging far behind. The rest of the world has already advanced a lot further. After technology is available, the most important prerequisite for the development of digital in health evidently is the mindset of protagonists. Digital today is far more than a buzzword, after every one of us is regularly confronted with it. Today many are already depending on digital, reaching into every corner of our life. None of our today's lives could continue to function as it is, without leveraging and using all these digital tools and applications. *Digital in Health* wants to help pave the way for digital ideas, supporting the constant ambition to improve patient-outcome. Joining forces for the common goal of better care, the coauthors added most relevant and important views. Each from his own professional background. Many thanks to Salil Kallianpur, Gerd Luippold, Christian Milaster, and Anup Soans who contributed so greatly to the book, while living in India, Germany, and the United States of America.

*The Oracle* Ari Juels, 2024-02-20 Fears of a weaponized blockchain become reality when a software developer races to deactivate the rogue smart contract targeting him for assassination. Life is comfortable for a prominent, if schlubby, developer at a New York City blockchain company. That is, until FBI Special Agent Diane Duménil seeks his help against a bewildering threat: The Delphians, worshippers of the god Apollo, have launched a rogue program on a blockchain. It's

offering a crypto bounty to assassinate a European archaeology professor. The developer brushes off the danger until he learns the next target: Himself. Mythical antiquity collides with a near-future cyberworld as The Oracle's unassuming hero and his FBI partner race against time to dismantle the Delphians' murderous blockchain software. Theirs is a whirlwind tale of oracles ancient and modern, vanished antiquities and conjured crypto billions, cybercriminals and digital idealists—narrated by a cynical hero normally more concerned with dark chocolate than the consequences of the technologies he's pioneering. What happens when the crypto ideals of privacy and truth might cost human lives—especially your own?

**The HPV Vaccine On Trial** Mary Holland, Kim Mack Rosenberg, Eileen Iorio, 2018-09-25 A Groundbreaking Guide to the HPV Vaccine and the Science, Safety, and Business Behind It Cancer strikes fear in people's hearts around globe. So the appearance of a vaccine to prevent cancer—as we are assured the human papillomavirus (HPV) vaccine will—seemed like a game-changer. Since 2006, over eighty countries have approved the vaccine, with glowing endorsements from the world's foremost medical authorities. Bringing in over \$2.5 billion in annual sales, the HPV vaccine is a pharmaceutical juggernaut. Yet scandal now engulfs it worldwide. The HPV Vaccine on Trial is a shocking tale, chronicling the global efforts to sell and compel this alleged miracle. The book opens with the vaccine's invention, winds through its regulatory labyrinths, details the crushing denial and

dismissal of reported harms and deaths, and uncovers the enormous profits pharma and inventors have reaped. Authors Holland, Mack Rosenberg, and Iorio drill down into the clinical trial data, government approvals, advertising, and personal accounts of egregious injuries that have followed in countries as far-flung as Japan, Australia, Colombia, India, Ireland, the U.K. and Denmark. The authors have written an unprecedented exposé about this vaunted vaccine. Written in plain language, the book is for everyone concerned – parents, patients, doctors, nurses, scientists, healthcare organizations, government officials, and schools. Ultimately, this book is not just about the HPV vaccine, but about how industry, government, and medical authorities may be putting the world's children in harm's way.

**Using Technology, Building Democracy** Jessica Baldwin-Philippi, 2015-07-15 The days of revolutionary campaign strategies are gone. The extraordinary has become ordinary, and campaigns at all levels, from the federal to the municipal, have realized the necessity of incorporating digital media technologies into their communications strategies. Still, little is understood about how these practices have been taken up and routinized on a wide scale, or the ways in which the use of these technologies is tied to new norms and understandings of political participation and citizenship in the digital age. The vocabulary that we do possess for speaking about what counts as citizenship in a digital age is limited. Drawing on ethnographic fieldwork in a federal-level election, interviews with communications and digital media consultants, and textual analysis of campaign materials, this book traces the emergence and solidification of campaign strategies that reflect what it means to be a citizen in the digital era. It identifies shifting norms and emerging trends to build new theories of citizenship in contemporary democracy. Baldwin-Philippi argues that these campaign practices foster engaged and skeptical citizens. But, rather than assess the quality or level of participation and

citizenship due to the use of technologies, this book delves into the way that digital strategies depict what good citizenship ought to be and the goals and values behind the tactics.
