📖 **The Blue Castle** L. M. Montgomery,2023-06-10 L. M. Montgomery is perhaps best known as an author of youth fiction, especially her Anne of Green Gables series. But of her novels intended for adult readers, The Blue Castle is the most famous. In Valancy Stirling's rural Ontario town, marriage is thought to be a young woman's vital accomplishment. Yet Valancy, now in her late 20s, has never had a flicker of interest from any suitor. Add to this the oppressive home life she endures with her mother, and Valancy's misery is complete. In order to find some relief, she builds a fantasy world in her imagination—her “Blue Castle”—full of love and beauty. Even this, however, fails to support her when her chest pains prove to be the sign of a terminal condition. This traumatic discovery combines with Valancy's inspirational reading to prompt her to take back her life—much to her relatives' consternation. Undeterred, Valancy finds new worth and freedom in relationships she could never have imagined before, which bring their own surprising twists and turns.

📖 **Pre-Incident Indicators of Terrorist Incidents** Brent L. Smith,2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

In the 1940s, Josephine Artayate de Veil introduced the game to Manhattan's Regency Club - and the rest is history! Canasta combines elements of Bridge and Rummy. This game is easy to learn, especially for players of these games. Players prefer Canasta because they can play individually and in pairs. This game uses two full decks of cards (including the jokers) and combines partnership play with point-scoring (jokers are worth the most points). How to Play Canasta provides a thorough grounding in the rules and strategies of the game, including melds, red threes, and canastas. Tim and Roy begin their trek to the Yukon filled with excitement. In this unique book, each chapter is followed with factual information, illustrations and photographs of the people and places of the time. 📖 **The Sounds of Early Cinema** Richard Abel,Rick R. Altman,2001-10-03 The Sounds of Early Cinema is devoted exclusively to a little-known, yet absolutely crucial phenomenon: the ubiquitous presence of sound in early cinema. Silent cinema may rarely have been silent, but the sheer diversity of sound(s) and sound/image relations characterizing the first 20 years of moving picture exhibition can still astonish us. Whether instrumental, vocal, or mechanical, sound ranged from the improvised to the pre-arranged (as in scripts, scores, and cue sheets). The practice of mixing sounds with images differed widely, depending on the venue (the Nickelodeon in Chicago versus the Summer Chautauqua in rural Iowa, the music hall in London or Paris versus the newest palace cinema in New York City) as well as on the historical moment (a single venue might change radically, and many times, from 1906 to 1910). Contributors include Richard Abel, Rick Altman, Edouard Arnoldy, Mats Björkin, Stephen Bottomore, Marta Braun, Jean Châteauvert, Ian Christie, Richard Crangle, Helen Day-Mayer, John Fullerton, Jane Gaines, André Gaudreault, Tom Gunning, François Jost, Charlie Keil, Jeff Klenotic, Germain Lacasse, Neil Lerner, Patrick Loughney, David Mayer, Domini-que Nasta, Bernard Perron, Jacques Polet, Lauren Rabinovitz, Isabelle Raynauld, Herbert Reynolds, Gregory A. Waller, and Rashit M. Yangirov.

2 STACKING THE DECK Bryan Berg,2009-12-15 Written by the holder of several Guinness World Records for cardstacking, this is the first complete, fully illustrated guide to the art of building mind-boggling, multilevel structures with ordinary playing cards. In Stacking the Deck, Bryan Berg reveals the secret to successful cardstacking with his simple four-card-cell structure and expanded grid techniques. Using illustrations and step-by-step instructions, he guides readers on to more elaborate -- and incredibly strong -- creations. He covers a wide range of architectural styles, from classic to whimsical, and various types of structures, including pyramids, shrines, stadiums, churches, an oil derrick, and even the Empire State Building. Since first setting the height record in 1992, Bryan’s built awe-inspiring card models of a Japanese shrine, the Iowa State Capitol building, Ebbets Field, and his latest tower, which is more than twenty-five feet tall! This book includes photographs of some of these amazing pieces, illustrating just how appealing and enduring a house of cards can be. Stacking the Deck will inspire everyone from youngsters experimenting with their first deck of cards to adults, who can create their own private skyscrapers. Once you’ve read Stacking the Deck, you’ll never look at a deck of cards the same way again.

2 GAMES C. Thi Nguyen,2020 Games are a unique art form. The game designer doesn’t just create a world; they create who you will be in that world. They tell you what abilities to use and what goals to take on. In other words, they specify a form of agency. Games work in the medium of agency. And to play them, we take on alternate agencies and submerge ourselves in them. What can we learn about our own rationality and agency, from thinking about games? We learn that we have a considerable degree of fluidity with our agency. First, we have the capacity for a peculiar sort of motivational inversion. For some of us, winning is not the point. We take on an interest in winning temporarily, so that we can play the game. Thus, we are capable of taking on temporary and disposable ends. We can submerge ourselves in alternate agencies, letting them dominate our consciousness, and then dropping them the moment the game is over. Games are, then, a way of recording forms of agency, of encoding them in artifacts. Our games are a library of agencies. And exploring that library can help us develop our own agency and autonomy. But this technology can also be used for art. Games can sculpt our practical activity, for the sake of the beauty of our own actions. Games are part of a crucial, but overlooked category of art - the process arts. These are the arts which evoke an activity, and then ask you to appreciate your own activity. And games are a special place where we can foster beautiful experiences of our own activity. Because our struggles, in games, can be designed to fit our capacities. Games can present a harmonious world, where our abilities fit the task, and where we pursue obvious goals and act under clear values. Games are a kind of existential balm against the difficult and exhausting value clarity of the world. But this presents a special danger. Games can be a fantasy of value clarity. And when that fantasy leaks out into the world, we can be tempted to oversimplify our enduring values. Then, the pleasures of games can seduce us away from our autonomy, and reduce our agency.--

2 NATURE NOIR Jordan Fisher Smith,2006-05-03 “A nature book unlike any other...peppered with gritty, anti-romantic, all-too-real tales of cops n’ bad guys in the great outdoors.”—The San Diego Union-Tribune Jordan Fisher Smith’s startling account of fourteen years as a park ranger thoroughly dispels our idealized visions of life in the great outdoors. Instead of scout troops and placid birdwatchers, Smith’s beat—a stretch of land that has been officially condemned to be flooded—brings him into contact with drug users tweaked out to the point of violence, obsessed miners, and other dangerous creatures. In unflinchingly honest prose, he both portrays the breathtaking natural world around him and reveals the unexpectedly dark underbelly of patrolling and protecting public lands. “Gloriously unlike anything I’ve ever read before...gives entree into a strange, dark, and mesmerizing outdoor world that’s absolutely unforgettable.”—The Boston Globe “By turns funny, poignant and surprising...an intimate memoir of the career of a state-park ranger. Not just any ranger, but one with a wicked pen, patrolling a doomed landscape.”—Seattle Times/Post-Intelligencer “Compelling...refreshingly unsentimental.”—Barry Lopez, author of Arctic Dreams “Smith offers a fresh perspective on our threatened environment...Nature Noir reflects the spirit of an era as did Desert Solitaire.”—Charlotte Observer
