Life is Like a Weather Forecast (A Storm Chaser Looks at Life's Storms) G. Thomas Windsor,2010-12-20 In this book, storm chaser Tom Windsor explores weather forecasting and how it relates to life. He also tells of his experiences chasing some of the largest storms on earth (from a safe distance, most of the time!) Sooner or later we all seem to catch a glimpse of a perfect storm on the horizon. Time to take a second look at one's life forecast and hold on to an umbrella.

Television Weathercasting Robert Henson,1990 Will it rain tomorrow? That perennial question has made weather the most popular segment of local television news for years. Yet weathercasters do far more than simply convey the latest outlook. Depending on the circumstances, they may inject humor into the forecast (having a Lhasa apso pant and wag its tail during the forecast, for instance), warn of a life-threatening tornado or hurricane, or instruct viewers on the science behind weather. This book, the first critically to examine weathercasters and their craft, is based on years of research and covers both the lighthearted and serious aspects of television weather. Chapters include pioneer weathercasters of the 1940s and 1950s, technical advances, interaction with the National Weather Service, severe weather coverage, celebrities who began with television weather, and the status of women and minorities in weathercasting.

The Stillness of the Living Forest John Harvey,2018-11-13 It started with a personal commitment to sit an hour each week for a full year in the same spot in the woods. John Harvey's intention was to reconnect with nature and observe the flow of natural life through the four seasons. As Harvey settled into his weekly routine of visiting his sit spot and fully engaging his senses, rich and illuminating experiences began to unfold. His encounters with nature included seeing and listening to a plethora of birds, from tiny wrens to large hawks, from sweet-singing warblers to rattling woodpeckers; enjoying the sight of seasonal plants such as wild violets, trout lily, and skunk cabbage; sitting out in the open during weather events that ranged from glorious warm summer sunshine to an Alberta clipper in the winter; and spotting the occasional deer and even a black bear. In all cases, Harvey sought to observe, listen, appreciate, and learn. Learn he did—about the birds, animals, plants, and trees that surrounded and intrigued him. But his remarkable encounters with nature also facilitated self-discovery, fostered insight, and nurtured empathy

and intuition.
