**A History of the Rutgers University Glee Club** David F. Chapman, 2022-06-20 Founded in 1872, the Glee Club is Rutgers University's oldest continuously active student organization, as well as one of the first glee clubs in the United States. For the past 150 years, it has represented the university and presented an image of the Rutgers man on a national and international stage. This volume offers a comprehensive history of the Rutgers Glee Club, from its origins adopting traditions from the German Männerchor and British singing clubs to its current manifestation as a world-recognized ensemble. Along the way, we meet the colorful and charismatic men who have directed the group over the years, from the popular composer and minstrel performer Loren Bragdon to the classically-trained conductor Patrick Gardner. And of course, we learn what the club has meant to the generations of talented and dedicated young men who have sung in it. A History of the Rutgers University Glee Club recounts the origins of the group's most beloved traditions, including the composition of the alma mater's anthem "On the Banks of the Old Raritan" and the development of the annual Christmas in Carol and Song concerts. Meticulously researched, including a complete discography of the club's recordings, this book is a must-have for all the Rutgers Glee Club's many fans and alumni.

**Singing Out** Heather MacLachlan, 2020-12-01 Can you change the world through song? This appealing idea has long been the professed aim of singers who are part of choruses affiliated with the Gay and Lesbian Association of Choruses (GALA). These choruses first emerged in the 1970s, and grew out of a very American tradition of (often gender-segregated) choral singing that explicitly presents itself as a community-based activity. By taking a close look at these choruses and their mission, Heather MacLachlan unpacks the fascinating historical and cultural dynamics behind groups that seek to change society for the better by encouraging acceptance of LGBT-identified people and promoting diversity more generally. She characterizes their mission as "integrationist rather than liberationist" and zeroes in on the inherent tension between GALA's progressive social goals and the fact that the music most often performed by GALA groups is deeply rooted in a fairly narrowly conceived tradition of art music that identifies as white, Euro-centric, and middle class--and that much of the membership identifies as white and middle class as well. Pundits often wax eloquent about the power of music, asserting that it can, in some positive way, change the world. Such statements often rest on an unexamined claim that music can and does foster social justice. *Singing Out: GALA Choruses and Social Change* tackles the premise underlying such claims, analyzing groups of amateur singers who are explicitly committed to an agenda of social justice.

**American Choral Directors Association** Tim Sharp, Christina Prucha, 2009 American Choral Directors Association (ACDA) was formed in Kansas City, Missouri, on February 24, 1959, by 35 choral directors from around the United States. They aimed to create an organization that would meet the professional needs of all choir directors. To achieve this goal, they made the promotion of excellence in choral music through performance, composition, publication, research, and teaching their central purpose. In addition, ACDA strives through arts advocacy to elevate choral music's position in American society. From the original steering committee to today's leaders, this central purpose continues to drive ACDA's development. Among the ways that ACDA has promoted excellence in choral music are national and division conventions featuring the best choirs in the world, awards given to individuals who have in some way contributed to the art of choral music, state workshops and clinics, and honor choirs and commissioned works. Each generation that has passed through ACDA has left its indelible mark. The first generation built the foundation and gave ACDA its purpose. The second generation gave ACDA its independence and voice. The third generation leads the organization into a new and more globally connected world. And through it all, ACDA remains true to promoting choral music excellence.

**Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education** Miloslav Rechcigl Jr., 2021-11-02 As pointed out in my last two publications, no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. Whereas in the two mentioned monographs, the emphasis has been on scholars and social and natural scientists; and men and women in medicine, applied sciences and engineering, respectively, the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters, and in education. With respect to women, although most professional fields were closed to them through much of the nineteenth century, the area of arts and letters was opened to them, as noted earlier and as this compendium authenticates.

*So You Want to Sing Spirituals* Randy Jones, 2019-10-14 This volume provides singers a comprehensive guide to the history of and performance techniques for spirituals. Along with Jones's own considerations of dialect, improvisation, and other technical considerations, contributed chapters address collaborative piano, studio teaching, choral arrangement, and voice science and health.

Who's Who in Research: Performing Arts Intellect Books, 2013-01-01 Increasingly, academic communities transcend national boundaries. "Collaboration between researchers across space is clearly increasing, as well as being increasingly sought after," noted the online magazine Inside Higher Ed in a recent article about research in the social sciences and humanities. Even for those scholars who don't work directly with international colleagues, staying up-to-date and relevant requires keeping up with international currents of thought in one's field. But when one's colleagues span the globe, it's not always easy to keep track of who's who—or what kind of research they're conducting. That's where Intellect's new series comes in. A set of worldwide guides to leading academics—and their work—across the arts and humanities, Who's Who in Research features comprehensive profiles of scholars in the areas of cultural studies, film studies, media studies, performing arts, and visual arts. Who's Who in Research: Performing Arts includes concise yet detailed listings include each academic's name, institution, biography, and current research interests, as well as bibliographic information and a list of articles published in Intellect journals. The volumes in the Who's Who in Research series will be updated each year, providing the most current information on the foremost thinkers in academia and making them an invaluable resource for scholars, hiring committees, academic libraries, and would-be collaborators across the arts and humanities.

*Wisdom, Wit, and Will* Hilary Apfelstadt, 2009 Includes biographies of selected American women choral conductors.

*The Choral Warm-Up Collection* Sally K. Albrecht, Alfred Music is proud to support ACDA (The American Choral Directors Association) with the publication of The Choral Warm-Up Collection, a new sourcebook featuring 167 favorite warm-ups contributed by 51 choral directors from across the nation. These generous directors have agreed to donate their royalties to the ACDA Endowment Trust, to be used for student scholarships and conducting awards. This incredible resource consists of warm-ups for every situation and focusing on many different vocal areas. The text is organized into several categories: beginning warm-ups, breathing, vowels, diction, flexibility, scales, intervals, intonation, phrasing, blend, dynamics, minor,

range, chords and rounds. Set the mood for a successful choral rehearsal while developing and reinforcing positive ensemble vocal techniques with The Choral Warm-Up Collection.

*World Music Pedagogy, Volume V: Choral Music Education* Sarah J. Bartolome, 2019-03-08 *World Music Pedagogy, Volume V: Choral Music Education* explores specific applications of the World Music Pedagogy process to choral music education in elementary, middle, and high school contexts, as well as within community settings. The text provides clear and accessible information to help choral music educators select, rehearse, and perform a diverse global repertoire. It also guides directors in creating a rich cultural context for learners, emphasizing listening, moving, and playing activities as meaningful music-making experiences. Commentary on quality, commercially available world music repertoire bridges the gap between the philosophy of World Music Pedagogy and the realities of the performance-based choral classroom. All chapters open with a series of vignettes that illuminate the variety of possibilities within multiple K-12 contexts, providing the reader with a sense of how the ideas presented might look on the ground. Ready-to-integrate activities serve as concrete and pedagogically sound examples to guide directors as they develop their own instructional materials according to the needs of their choir. Content features choral and vocal music-making traditions from South and West Africa; Latin America; Southeast, East, and South Asia; the Pacific Islands; Australia; New Zealand; Scandinavia; and the Baltics.

**Southern Division Newsletter** American Choral Directors Association, 1986

*The Oxford Handbook of Choral Pedagogy* Frank Abrahams, Paul D. Head, 2017 As the landscape of choral education changes - disrupted by Glee, YouTube, and increasingly cheap audio production software - teachers of choral conducting need current research in the field that charts scholarly paths through contemporary debates and sets an agenda for new critical thought and practice. Where, in the digitizing world, is the field of choral pedagogy moving? Editor Frank Abrahams and Paul D. Head, both experienced choral conductors and teachers, offer here a comprehensive handbook of newly-commissioned chapters that provide key scholarly-critical perspectives on teaching and learning in the field of choral music, written by academic scholars and researchers in tandem with active choral conductors. As chapters in this book demonstrate, choral pedagogy encompasses everything from conductors' gestures to the administrative management of the choir. The contributors to *The Oxford Handbook of Choral Pedagogy* address the full range of issues in contemporary choral pedagogy, from repertoire to voice science to the social and political aspects of choral singing. They also cover the construction of a choral singer's personal identity, the gendering of choral ensembles, social justice in choral education, and the role of the choral art in society more generally. Included scholarship focuses on both the United States and international perspectives in five sections that address traditional paradigms of the field and challenges to them; critical case studies on teaching and conducting specific populations (such as international, school, or barbershop choirs); the pedagogical functions of repertoire; teaching as a way to construct identity; and new scholarly methodologies in pedagogy and the voice.
