Stacking the Deck Bryan Berg, 2009-12-15 Written by the holder of several Guinness World Records for cardstacking, this is the first complete, fully illustrated guide to the art of building mind-boggling, multilevel structures with ordinary playing cards. In *Stacking the Deck*, Bryan Berg reveals the secret to successful cardstacking with his simple four-card-cell structure and expanded grid techniques. Using illustrations and step-by-step instructions, he guides readers on to more elaborate -- and incredibly strong -- creations. He covers a wide range of architectural styles, from classic to whimsical, and various types of structures, including pyramids, shrines, stadiums, churches, an oil derrick, and even the Empire State Building. Since first setting the height record in 1992, Bryan's built awe-inspiring card models of a Japanese shrine, the Iowa State

Capitol building, Ebbets Field, and his latest tower, which is more than twenty-five feet tall! This book includes photographs of some of these amazing pieces, illustrating just how appealing and enduring a house of cards can be. Stacking the Deck will inspire everyone from youngsters experimenting with their first deck of cards to adults, who can create their own private skyscrapers. Once you've read Stacking the Deck, you'll never look at a deck of cards the same way again.

Shooting Stars of the Small Screen Douglas Brode, 2010-01-01 Since the beginning of television, Westerns have been playing on the small screen. From the mid-1950s until the early 1960s, they were one of TV's most popular genres, with millions of viewers tuning in to such popular shows as Rawhide, Gunsmoke, and Disney's Davy Crockett. Though the cultural revolution of the later 1960s contributed to the demise of traditional Western programs, the Western never actually disappeared from TV. Instead, it took on

new forms, such as the highly popular Lonesome Dove and Deadwood, while exploring the lives of characters who never before had a starring role, including anti-heroes, mountain men, farmers, Native and African Americans, Latinos, and women. Shooting Stars of the Small Screen is a comprehensive encyclopedia of more than 450 actors who received star billing or played a recurring character role in a TV Western series or a made-for-TV Western movie or miniseries from the late 1940s up to 2008. Douglas Brode covers the highlights of each actor's career, including Western movie work, if significant, to give a full sense of the actor's screen persona(s). Within the entries are discussions of scores of popular Western TV shows that explore how these programs both reflected and impacted the social world in which they aired. Brode opens the encyclopedia with a fascinating history of the TV Western that traces its roots in B Western movies, while also showing how TV Westerns developed their own unique storytelling conventions.

The Encyclopedia of Film Composers Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie

composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

Twelve Years a Slave Solomon Northup, 2024-01-04
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Hare House Sally Hinchcliffe, 2022-01-06
'Deliciously chilly' - Guardian 'Humming with suppressed hysteria and madness' - The Times
'Wonderfully evocative' - Heat Hare House is not its real name, of course. I have, if you will forgive me, kept names to a minimum here, for reasons that will become understandable . . . In the first brisk days of autumn, a woman arrives in Scotland having left her job at an all-girls school in London in mysterious circumstances. Moving into a cottage on the remote estate of Hare House, she begins to explore her new home. But among the tiny roads, wild moorland, and scattered houses, something more sinister lurks: local tales of witchcraft, clay figures and young men sent mad. Striking up a friendship with her landlord, Grant, and his younger sister, Cass, she begins to suspect that all might not be quite as it seems at Hare House. And as autumn turns to winter, and a heavy snowfall traps the inhabitants of the estate within its walls, tensions rise to fever pitch. Sally Hinchcliffe's Hare House is a modern-day witch story, perfect for fans of Pine and The Loney. 'A beautiful, slow burn of a novel, eerie and shimmering in equal measure' - Mary Paulson-Ellis
